INTEREST REDUCTION PLAN

When you're just starting out, it can be difficult to pay all those bills. Educaid understands. So we developed our 48 Straight[SM] program to reward you for taking care of your student loan obligation and to make it easier to keep repaying your loan. If you make 48 consecutive, on-time payments on your Federal Stafford Loan, we'll automatically reduce your interest by 2% for the remainder of the loan term. As the chart shows, that can mean a savings of hundreds of dollars. To find out more about Educaid's 48 Straight[SM] program, call:

1-800-EDUCAID[SM]

If you owe this much principal	Here's what you'll save
★ $5,000	$241.19
★ $7,500	$361.83
★ $10,000	$482.06
★ $15,000	$723.49

The Schedule of Classes is produced four times a year under the direction of the Office of Records and Registrations at the University of Maryland, College Park. For advertising information, please call (301) 405-6777.

The **FIRST EDITION** of the Schedule of Classes is used only DURING EARLY REGISTRATION.

The **SECOND EDITION** of the Schedule of Classes should be used prior to the beginning of classes. The Second Edition reflects room, time and instructor changes made to course offerings since the First Edition was printed. It shows courses and/or sections added and omits courses and/or sections deleted since the First Edition. As they occur, revisions will be posted in the first floor of the Mitchell Building and are available on the World Wide Web on the Testudo Home Page. URL Address: http://www.testudo.umd.edu. Select Top Links and the Schedule of Classes.

The provisions of this publication are not to be regarded as an irrevocable contract between the student and the University of Maryland. Changes are effected from time to time in the general regulations, in fees, in class scheduling, and in the academic requirements.

REGISTRATION

HOW TO REGISTER FOR FALL 1997 CLASSES

REGISTRATION APPOINTMENTS

Returning Students: Eligible undergraduate students were mailed a post card with Fall 1997 early registration appointment information. Appointment times are based on student credit level and are scheduled between April 7th and May 8th, 1997. Two registration methods are being used during Fall 1997 Early Registration; MARS and in-person appointments at the Registrations Office. Your invitation postcard will include information about your appointment time, and where to pick up registration materials. Materials can be picked up beginning March 17th.

Newly Admitted Students: Newly admitted students MUST attend an Orientation program and will be advised, then register at that time. Call the Orientation Office at 314-8217 to sign-up for an Orientation session. The University of Maryland also requires all new students to provide documentation of measles, mumps and rubella, and tetanus/diphtheria. It is the students responsibility to provide information to the University Health Center prior to the beginning of the semester. This requirement is mandatory.

MARS
The Maryland Automated Registration System:
(Voice Response System)

MARS is a voice response system that lets students use touch-tone phones to register. Students can call from the time of their scheduled appointment and any time thereafter during MARS' operating hours. MARS is usually available Monday through Saturday, 7:30 a.m. to 11:00 p.m. and Sunday from 5:00 to 11:00 p.m.

Current undergraduate and graduate students are eligible to use MARS and already have a PIN (Personal Identification Number). If you are in good financial standing you can use MARS for Fall 1997 Early Registration. The initial PIN for students matriculating for Fall 1997 is their six-digit birthdate (MMDDYY). Once MARS has been accessed, this must be changed to another 6 digit number. Read the information below and see pages 9 through 11 for MARS instructions.

In-person appointment at the Registration Office:

On-line registration appointments will again be offered at the Mitchell Building, 1st floor. If you are not using MARS you will register with a computer operator at your scheduled appointment time.

NOTE: STUDENTS WITH MANDATORY ADVISING (CERTAIN MAJORS AND STUDENTS ON ACADEMIC WARNING OR DISMISSAL) MUST MEET WITH AN ADVISOR, AND HAVE THEIR ADVISING BLOCKS CLEARED BEFORE USING MARS. SEE STEP 2 FOR MORE INFORMATION.

NEW WAYS TO GET YOUR GRADES - COMING FALL 1997

Find out your Fall 1997 grades faster - use MARS, the Web or a Kiosk beginning in mid-December. Just use your Student ID Number and PIN, and as soon as your grades are processed, they will be available electronically. MARS and Kiosks are updated daily. Grade Point Averages will be calculated in early January 1998 after all final grades have been posted. **Note, we won't be mailing grade reports any longer, but Official Transripts are always available free of charge. See page 23, Transcript Services for details.**

SPRING 1997 EARLY WARNING GRADES

Early warning grades for Spring 1997 are now available on MARS and at Kiosks by selecting the Grade Inquiry function. Early warning grades are processed for all 100 and 200 level courses, zero level math courses, and for all first year students enrolled in 300 and 400 level courses. MARS and Kiosks are updated daily.

GETTING READY TO REGISTER

Carefully read and follow the six steps in GETTING READY TO REGISTER. Take advantage of early registration; by registering at your scheduled appointment time you will have the best opportunity to obtain a Fall 1997 course schedule.

STEP 1
CALL MARS (403-0500) OR CHECK KIOSKS FOR REGISRATION BLOCK INFORMATION:

Your Early Registration appointment date and advising location is indicated on your early registration postcard. After receiving your postcard use MARS or MARS Kiosks (look under registration blocks option) to find out advising requirements and information about any outstanding financial or academic blocks that could delay your registration opportunity. Call MARS at 403-0500 and select 1 for Registration Activities, then 6 for Registration and Appointment Status. If you did not receive a postcard call Registrations at 314-8240.

ATTENTION MAY DEGREE CANDIDATES: If you wish to register for Fall 1997, call Registrations for an appointment beginning March 17th at 314-8240.

STEP 2
MAKE ADVISING APPOINTMENT AND/OR RESOLVE ANY BLOCKS:

For information on specific course and credit restrictions that may require special permission prior to registering see STEP 3.

Advising is required for some students, and highly recommended for all students. Advising is mandatory prior to registering for students in certain majors, students on academic warning and dismissal, student athletes, IED students, IA students and students who still need to fulfill fundamental studies requirements. Call MARS to determine your advising requirements. A list of advisors begins on page 25. Set up an appointment to see an advisor as soon as possible. **Advising blocks must be cleared before using MARS for early registration.**

Registration Blocks: Call MARS to find out if there are any outstanding blocks that need to be resolved prior to your registration appointment. Students owing money to the University are not eligible to register until they clear their accounts. To become eligible to register contact the Office of the Bursar, Room 1135 Lee Building prior to your appointment time.

Fundamental Studies Blocks: If you have completed 30 credits and have not satisfied the Fundamental Math and English requirements you should contact your college office to discuss a temporary extension. If you are going to register for the required course in lieu of requesting a waiver, you must register in person.

STEP 3
PLAN YOUR SCHEDULE AND OBTAIN SPECIAL PERMISSION:

Use the course listings beginning on page 43 to plan your Fall schedule. Also select alternative courses and sections. Note that MARS uses the five-digit index number to the right of the section number in the course listings. Read course listings carefully and pay special attention to note lines associated with each course. Some registration actions do require special permission. Remember that all special permissions and advising requirements must be met before registering. *See Need Special Permission?* below for special information.

Electronic Stamp:
The Electronic Stamp has been developed to allow offices to grant special permissions and approvals via computer. All colleges, the Registrations Office, and all departments have access to the Electronic Stamp. Special permissions (on forms) from other departments can be turned in to that department, college office, or the Registrations Office prior to registering with MARS or in person. Electronic Stamp permissions are valid whether you register in person or use MARS. Note that after obtaining permission you must still process a registration for the course(s). Special permissions can also be granted on schedule request forms with proper authorization when registering in-person.

Need Special Permission?

Course Restrictions: These restrictions are listed with individual courses in the course listing section of this Schedule. Some courses are open to majors only, others have cumulative credit requirements. Courses with Perm Req to the left of the course listing or course section require permission from the department offering the course prior to registering. The department can enter the permission directly into the registration system using the Electronic Stamp, or stamp and sign the schedule request form. The schedule request form can then be taken to that department's college or the Registrations Office for entry into the system.

(Continued)

6 REGISTRATION

HOW TO REGISTER/FACULTY & STAFF REGISTRATION

Actions Requiring College Approval: All college offices have access to the Electronic Stamp and can enter special permissions directly into the registration system. Exceptions to any of the restrictions listed below require college approval prior to registering. Students should request these permissions well in advance of their registration appointment. Remember to register for the course (either by MARS or in-person) after obtaining any special permissions.

Maximum Credit Limit: Undergraduate students are generally limited to registering for 16 credits until September 2, 1997; students can then register for a maximum of 19 credits. Requests to register for over 16 credits prior to September 2, 1997 require special permission. Requests to take over 19 credits always require college approval.

CORE Restrictions: Students with over 90 cumulative credits are restricted to registering for only one CORE course until September 2, 1997. Check the General Education Requirements on page 30 to determine the CORE status of a course. Any exceptions require college approval.

Graduate Level Courses: Undergraduates requesting graduate level courses (those numbered 500 and above) require college approval.

Time Conflicts: Time conflicts are not permitted. All exceptions require college approval.

Pass/Fail Grading Method: See page 28 for Pass/Fail option requirements for undergraduate students.

Re-registering for the same course: Students are limited to the number of times they can register for a course. NO MORE THAN TWO REGISTRATIONS are permitted for any one course. Each time a course is dropped with a mark of "W" it will be counted as a registration.

STEP 4
CHECK ON COURSE AVAILABILITY:

Is the Course Open? Don't wait until you are ready to register to find out if a course is open. There are five ways students can check on course availability:

1. MARS Section Status feature can be accessed any time during MARS operating hours 403-0500. See page 11 for instructions.
2. Use Venus (see page 42) on the World Wide Web for help in building your schedule.
3. Access the Schedule of Classes on the World Wide Web. http://www.testudo.umd.edu
4. Try SEATS - SEATS is a computer service designed to help students with course planning. It features up-to-date Schedule of Classes course information. It can be easily accessed at Computer Science WAM labs or any of the more than 800 computer workstations across campus using the campus network, UMDNET. Try SEATS before you register. You can build a tentative schedule using current data on open sections, waitlists, and USP and CORE courses. Course information is updated hourly. Select SEATS from the menu options at any campus WAM lab, or dial in remotely using telnet seats.umd.edu.
5. Come to the Mitchell Building and check the course information posted in the first floor hallway.

STEP 5
COMPLETE REGISTRATION FORM AND REGISTER:

Prior to your appointment time complete appropriate forms and make sure all special permissions and advising requirements have been met. Be prepared with alternate selections.

MARS: If you are using MARS for registration read "Calling MARS" on page 9 and complete the MARS Worksheet on page 11.

Walk-In Registration: Complete a Registration Form prior to registering at 1st floor Mitchell Building at your assigned appointment time. Please be on time, if you are late you may be asked to make another appointment. Make sure you are eligible for all requested courses.

STEP 6
AFTER YOU REGISTER

Schedule Adjustment: Schedule adjustment for Fall 1997 begins May 8, 1997. Students using MARS can call during MARS operating hours, which are typically Monday-Saturday 7:30 a.m. to 11:00 p.m., and Sunday 5:00 - 11:00 p.m. Walk-in Schedule Adjustment is available at the Mitchell Building, 1st floor, Monday - Friday 8:45 - 11:30 a.m.

Billing Information
Bills for payment of fees are mailed in July and August to students who have registered prior to August 9, 1997 for Fall courses. Payment in full must be made by the dates in the following chart:

If you registered:	*Payment in full is due:*
by July 11, 1997	**August 8, 1997**
between July 12, 1997 and August 8, 1997	**September 5, 1997**
after August 8, 1997	**in person by September 10, 1997**

NO BILL IS MAILED FOR STUDENTS WHO REGISTER AFTER AUGUST 8, 1997. ALL CHARGES INCURRED AFTER AUGUST 8, 1997 THRU SEPTEMBER 10, 1997 ARE DUE ON SEPTEMBER 10, 1997 WITHOUT EXCEPTIONS. (PLEASE CONTACT THE STUDENT FINANCIAL SERVICES CENTER TO VERIFY THE AMOUNT OWED.)

Read the Schedule of Classes: There is additional information on registration in this Schedule of Classes. If you waitlist a course, or are considering this option, read WAITLIST INFORMATION on page 12. Important information about deadlines and cancellation dates can be found on page 14. Graduate students should refer to pages 7 and 8 for registration and academic information.

The Fall 1997 Edition II Schedule of Classes will be available in early August. Consult the Second Edition for important information about schedule adjustment, updated course listings and waitlist check-in.

Faculty/Staff Registration Procedures and Remission of Tuition

Faculty and staff who wish to register for courses must be admitted to the University as an undergraduate or graduate student prior to registration. Follow the steps listed below.

STEP 1: **Contact department representative responsible for processing Tuition Remission Forms. Complete the forms and make sure they are forwarded to the Personnel Services Department, 1101 Chesapeake Building.**

Tuition Remission: Every semester an approved Tuition Remission form must be turned in to the College Park Personnel Services Department - Staff Benefits Office in order to receive credit on the student bill for courses taken by faculty and staff members. The authorizing department will forward this form directly to the Personnel Services Department. Each faculty and staff member should check with his/her department to ascertain that the proper forms have been submitted before the scheduled deadlines. Tuition remission benefits are administered in accordance with University Policy. Questions regarding employee tuition remission? Call the Staff Benefits Office at 405-5658.

Deadline to submit Tuition Remission Form for Fall 1997

a. Early Registrants — before August 8, 1997

b. Students registering after August 8, 1997 — must submit Tuition Remission form and settle their account in full by August 29, 1997

All Forms Must Be Submitted Before August 29, 1997

STEP 2: **Contact the appropriate admissions office if necessary:**

Undergraduate Admissions	Mitchell Building	314-8385
Graduate Admission	Lee Bldg. (2nd Floor)	405-4198
Non-degree seeking faculty *(registration is on a space available basis)*	Contact Jane Graham 1108 Mitchell Bldg.	314-8239

STEP 3: **Follow appropriate Registration Procedures. If you have any questions call Registrations at 314-8240.**

Undergraduate Students	read page 5-6
Graduate Students	read page 7-8

Teacher's Registration

WHO? Teachers who have previously been admitted to the University of Maryland College Park Campus, either graduate or undergraduate, and who were enrolled for Spring 1997. Teachers not enrolled during the Spring 1997 semester should follow the appropriate directions:

Undergraduate Students - Apply for readmission at the Office of Undergraduate Admissions, lower level, Mitchell Building 314-8382 where a registration form will be issued. See page 5 for Fall 1997 registration procedures.

Graduate Students - Check with Graduate School Admissions, 405-4198, to determine eligibility. See page 7 for Fall 1997 registration procedures.

Dropping Courses & Refund Information

Graduate Students and Part-Time Undergraduates

Both graduate students and part-time undergraduates are charged for courses by the credit hour. If the course is dropped the first day of classes and later, (September 2nd and later), a percentage charge and/or complete charge for the course will be imposed.

1. September 1 or earlier (prior to the first day of classes) — 100% refund
   There will be no charge for courses dropped prior to this date.
2. September 2 - September 8 (during the first five days of classes) — 80% refund
   There will be a 20% charge imposed for courses dropped during this period.
3. September 9 and after (anytime after the first five days of classes) — 0 % refund
   There will be no refund; students incur the full charge for courses dropped during this period.

IMPORTANT NOTES:

First ten days of classes (from September 2 - 15): Students will not be charged to drop and add a course if they are of equal credit value, for example dropping CHEM 678 and adding CHEM 691 (both three credit courses), and if they are processed on the same day. This is considered an even exchange. Remember, to avoid additional charges when dropping and adding, BOTH the drop and the add must be done during the same day. The total number of credits dropped and added must be equal.

After the first ten days of classes (September 16 and later): Even exchanges of dropped and added credits will not be accepted. ***Courses added and dropped after the 10th day of classes will be charged as follows: there will be no refund for the drop, and 100% charge per credit for any adds.***

REGISTRATION 7

GRADUATE STUDENT INFORMATION

Graduate Student Registration Procedures

ALL GRADUATE STUDENTS ARE ENCOURAGED TO TAKE ADVANTAGE OF MARS OR MAIL-IN REGISTRATION. EARLY REGISTRATION CONTINUES THROUGH AUGUST 8, 1997. EACH DEPARTMENT/PROGRAM WILL CONTROL THE DISTRIBUTION OF MATERIALS FOR GRADUATE STUDENTS. CURRENTLY ENROLLED GRADUATE STUDENTS SHOULD HAVE RECEIVED A POSTCARD NOTIFYING THEM ABOUT REGISTRATION PROCEDURES.

NOTE: Financially ineligible graduate students must adhere to the following procedures prior to registration:

1. Complete bill payments at the Bursar's office, Room 1135 Lee Building, or call MARS at 403-0500 if paying by credit card.
2. Obtain a Financial Clearance from the Bursar's office.
3. Take the clearance to your department to pick up registration materials. Include a copy of clearance form with schedule request form.

Most Graduate Students are eligible to use MARS beginning April 7th for their initial registration or schedule adjustments. See the MARS worksheet on page 11 for instructions.

REGISTRATION STEPS:

STEP 1—Review the chart on page 8 to determine departmental requirements based on status as a newly admitted or returning graduate student.

NEWLY ADMITTED: Any student receiving an admission letter from the Graduate School for Fall 1997.

RETURNING STUDENT: Any student admitted to a Graduate program prior to and including Spring 1997, and currently eligible to register.

STEP 2—If advising is mandatory, (see page 8) or needed, contact the department to arrange an appointment. If no advising is required, student must contact the department about distribution of schedule request form and transcript.

STEP 3—Review course listings for restrictions. Some courses are restricted. All course restrictions are indicated with the course in the COURSE LISTING section of this SCHEDULE OF CLASSES. See page 43, HOW TO READ COURSE LISTINGS, for information. Courses with (PermReq) to the left of the course listing indicates permission is required prior to registration for the course. Read the entire course listing for other restrictions. Some courses are open to majors only, others have cumulative credit requirements. Students planning to request restricted courses must go to the department offering the course for authorization, unless the course is listed as "Majors Only" and the student is officially listed as a major in that department. (In that case it is not necessary for the student to obtain authorization). Students should be sure they have authorization prior to registering.

STEP 4—Complete Graduate Schedule Request Form and return it to the department or to the Registration Office, as indicated in the Graduate Registration Procedure Chart on page 8, or call MARS at 403-0500.

NOTE: *If the department permits, students may return the form directly to the Registration Office by mail through August 8, 1997, or in-person through September 5, 1997. Note however, that late registration begins September 2, 1997.*

Registration Office
1st Floor Mitchell Building
College Park, Maryland 20742

STEP 5—Confirmation of Fall 1997 schedules will be mailed to students according to the following schedule:

Course Request received	*Schedule, Bill and Registration Card sent:*
Through July 11	July 16
July 12 - August 8	August 13
August 9 and after	pick-up in person

Immunization

The University of Maryland requires all freshmen, new graduate, and transfer students to provide documentation of Measles, Mumps, Rubella, and Tetanus/Diphtheria. It is as student's responsibility to provide this information to the Health Center before school begins. This requirement is mandatory.

Continuous Registration

(Doctoral Students Only)
Following advancement to candidacy by the Graduate Council for the doctoral degree, every graduate student must register each Fall and Spring semester until the degree is awarded.

ID Cards:

Photo ID and semester registration cards are used together for University services requiring identification. Photo ID cards are available at the Registration Counter located on the first floor of the Mitchell Building, Monday - Friday, 8:30 am - 4:30 pm. Students unable to visit during these hours should contact the Registration Office at 301-314-8240 to schedule an ID appointment at another time.

Advising:

Graduate students registering for courses must have the approval of their program advisors in order to make certain that the minimum Graduate School and program requirements are being satisfied. See page 8 for specific advising procedures required by your program.

Full Time Status:

Official status (either full-time or part-time) for academic purposes will be determined on the basis of a student's registration at the end of the Schedule Adjustment Period. The Schedule Adjustment Period is defined as the first ten days of classes. **Please note students receiving a private scholarship must maintain full-time status throughout the semester in order to keep their scholarship, unless otherwise stipulated by the donor in writing.**
To be certified as a full-time student a graduate student must be officially registered for a combination of courses equivalent to 48 units per semester. Graduate assistants holding full-time teaching or research appointments are full-time students if they are registered for at least 24 units in addition to the assistantship. Courses taken for Audit do not generate graduate units and cannot be used in calculating full-time or part-time status.

Graduate Units:

Course Number	Graduate Unit
000-399	2 units per credit hour
400-499	4 units per credit hour
500-599	5 units per credit hour
600-898	6 units per credit hour
799	12 units per credit hour
899	18 units per credit hour
UMEI 005	6 units per credit hour

Program Changes:

Graduate students wishing to change programs or degree objectives must submit a new application to the Graduate School. Current deadlines for new applications apply.

Pass-Fail:

Gradute students are not eligible for the Pass-Fail grading option for courses numbered 400 and above.

Thesis and Dissertation Students

The Graduate School has prepared a handbook to assist graduate students in the preparation of master's theses and doctoral dissertations. The handbook can be purchased at the Reckord Armory in the Reprographics Center, Room 0127. All graduate students preparing theses or dissertations are required to follow the format requirements outlined in this booklet. Comments and suggestions for improving presentation of the guidelines are welcome and encouraged.
As of July 1, 1987, the Graduate School instituted a formal thesis and dissertation format review procedure. All graduate students writing a thesis or dissertation are required to have that thesis or dissertation inspected and approved by the Graduate School Records Office. Theses and dissertations which do not meet the expected minimum standards, as outlined in the handbook, will not be accepted; thus, graduation may be delayed. Details about these requirements may be obtained from the Graduate Records Office, 2107 Lee Building. (405-4202)

6 REGISTRATION

HOW TO REGISTER/FACULTY & STAFF REGISTRATION

Actions Requiring College Approval: All college offices have access to the Electronic Stamp and can enter special permissions directly into the registration system. Exceptions to any of the restrictions listed below require college approval prior to registering. Students should request these permissions well in advance of their registration appointment. Remember to register for the course (either by MARS or in-person) after obtaining any special permissions.

Maximum Credit Limit: Undergraduate students are generally limited to registering for 16 credits until September 2, 1997; students can then register for a maximum of 19 credits. Requests to register for over 16 credits prior to September 2, 1997 require special permission. Requests to take over 19 credits always require college approval.

CORE Restrictions: Students with over 90 cumulative credits are restricted to registering for only one CORE course until September 2, 1997. Check the General Education Requirements on page 30 to determine the CORE status of a course. Any exceptions require college approval.

Graduate Level Courses: Undergraduates requesting graduate level courses (those numbered 500 and above) require college approval.

Time Conflicts: Time conflicts are not permitted. All exceptions require college approval.

Pass/Fail Grading Method: See page 28 for Pass/Fail option requirements for undergraduate students.

Re-registering for the same course: Students are limited to the number of times they can register for a course. NO MORE THAN TWO REGISTRATIONS are permitted for any one course. Each time a course is dropped with a mark of "W" it will be counted as a registration.

STEP 4
CHECK ON COURSE AVAILABILITY:

Is the Course Open? Don't wait until you are ready to register to find out if a course is open. There are five ways students can check on course availability:

1. MARS Section Status feature can be accessed any time during MARS operating hours 403-0500. See page 11 for instructions.
2. Use Venus (see page 42) on the World Wide Web for help in building your schedule.
3. Access the Schedule of Classes on the World Wide Web. http://www.testudo.umd.edu
4. Try SEATS - SEATS is a computer service designed to help students with course planning. It features up-to-date Schedule of Classes course information. It can be easily accessed at Computer Science WAM labs or any of the more than 800 computer workstations across campus using the campus network, UMDNET. Try SEATS before you register. You can build a tentative schedule using current data on open sections, waitlists, and USP and CORE courses. Course information is updated hourly. Select SEATS from the menu options at any campus WAM lab, or dial in remotely using telnet seats.umd.edu.
5. Come to the Mitchell Building and check the course information posted in the first floor hallway.

STEP 5
COMPLETE REGISTRATION FORM AND REGISTER:

Prior to your appointment time complete appropriate forms and make sure all special permissions and advising requirements have been met. Be prepared with alternate selections.

MARS: If you are using MARS for registration read "Calling MARS" on page 9 and complete the MARS Worksheet on page 11.

Walk-In Registration: Complete a Registration Form prior to registering at 1st floor Mitchell Building at your assigned appointment time. Please be on time, if you are late you may be asked to make another appointment. Make sure you are eligible for all requested courses.

STEP 6
AFTER YOU REGISTER

Schedule Adjustment: Schedule adjustment for Fall 1997 begins May 8, 1997. Students using MARS can call during MARS operating hours, which are typically Monday-Saturday 7:30 a.m. to 11:00 p.m., and Sunday 5:00 - 11:00 p.m. Walk-in Schedule Adjustment is available at the Mitchell Building, 1st floor, Monday - Friday 8:45 - 11:30 a.m.

Billing Information
Bills for payment of fees are mailed in July and August to students who have registered prior to August 9, 1997 for Fall courses. Payment in full must be made by the dates in the following chart:

If you registered:	*Payment in full is due:*
by July 11, 1997	**August 8, 1997**
between July 12, 1997 and August 8, 1997	**September 5, 1997**
after August 8, 1997	**in person by September 10, 1997**

NO BILL IS MAILED FOR STUDENTS WHO REGISTER AFTER AUGUST 8, 1997. ALL CHARGES INCURRED AFTER AUGUST 8, 1997 THRU SEPTEMBER 10, 1997 ARE DUE ON SEPTEMBER 10, 1997 WITHOUT EXCEPTIONS. (PLEASE CONTACT THE STUDENT FINANCIAL SERVICES CENTER TO VERIFY THE AMOUNT OWED.)

Read the Schedule of Classes: There is additional information on registration in this Schedule of Classes. If you waitlist a course, or are considering this option, read WAITLIST INFORMATION on page 12. Important information about deadlines and cancellation dates can be found on page 14. Graduate students should refer to pages 7 and 8 for registration and academic information.

The Fall 1997 Edition II Schedule of Classes will be available in early August. Consult the Second Edition for important information about schedule adjustment, updated course listings and waitlist check-in.

Faculty/Staff Registration Procedures and Remission of Tuition

Faculty and staff who wish to register for courses must be admitted to the University as an undergraduate or graduate student prior to registration. Follow the steps listed below.

STEP 1: Contact department representative responsible for processing Tuition Remission Forms. Complete the forms and make sure they are forwarded to the Personnel Services Department, 1101 Chesapeake Building.

Tuition Remission: Every semester an approved Tuition Remission form must be turned in to the College Park Personnel Services Department - Staff Benefits Office in order to receive credit on the student bill for courses taken by faculty and staff members. The authorizing department will forward this form directly to the Personnel Services Department. Each faculty and staff member should check with his/her department to ascertain that the proper forms have been submitted before the scheduled deadlines. Tuition remission benefits are administered in accordance with University Policy. Questions regarding employee tuition remission? Call the Staff Benefits Office at 405-5658.

Deadline to submit Tuition Remission Form for Fall 1997

a. Early Registrants — before August 8, 1997
b. Students registering after August 8, 1997 — must submit Tuition Remission form and settle their account in full by August 29, 1997

All Forms Must Be Submitted Before August 29, 1997

STEP 2: Contact the appropriate admissions office if necessary:

Undergraduate Admissions	Mitchell Building	314-8385
Graduate Admission	Lee Bldg. (2nd Floor)	405-4198
Non-degree seeking faculty *(registration is on a space available basis)*	Contact Jane Graham 1108 Mitchell Bldg.	314-8239

STEP 3: Follow appropriate Registration Procedures. If you have any questions call Registrations at 314-8240.

Undergraduate Students	read page 5-6
Graduate Students	read page 7-8

Teacher's Registration

WHO? Teachers who have previously been admitted to the University of Maryland College Park Campus, either graduate or undergraduate, and who were enrolled for Spring 1997. Teachers not enrolled during the Spring 1997 semester should follow the appropriate directions:

Undergraduate Students - Apply for readmission at the Office of Undergraduate Admissions, lower level, Mitchell Building 314-8382 where a registration form will be issued. See page 5 for Fall 1997 registration procedures.

Graduate Students - Check with Graduate School Admissions, 405-4198, to determine eligibility. See page 7 for Fall 1997 registration procedures.

Dropping Courses & Refund Information

Graduate Students and Part-Time Undergraduates

Both graduate students and part-time undergraduates are charged for courses by the credit hour. If the course is dropped the first day of classes and later, (September 2nd and later), a percentage charge and/or complete charge for the course will be imposed.

1. September 1 or earlier (prior to the first day of classes) — 100% refund
   There will be no charge for courses dropped prior to this date.
2. September 2 - September 8 (during the first five days of classes) — 80% refund
   There will be a 20% charge imposed for courses dropped during this period.
3. September 9 and after (anytime after the first five days of classes) — 0 % refund
   There will be no refund; students incur the full charge for courses dropped during this period.

IMPORTANT NOTES:

First ten days of classes (from September 2 - 15): Students will not be charged to drop and add a course if they are of equal credit value, for example dropping CHEM 678 and adding CHEM 691 (both three credit courses), and if they are processed on the same day. This is considered an even exchange. Remember, to avoid additional charges when dropping and adding, BOTH the drop and the add must be done during the same day. The total number of credits dropped and added must be equal.

After the first ten days of classes (September 16 and later): Even exchanges of dropped and added credits will not be accepted. ***Courses added and dropped after the 10th day of classes will be charged as follows: there will be no refund for the drop, and 100% charge per credit for any adds.***

MARYLAND AUTOMATED REGISTRATION SYSTEM

MARS FEATURES

Welcome to MARS! The MARS Main Menu is divided into different areas representing various student services - Registration Activities, Grade Inquiry, Financial Information and more. Each area is represented by a different number on the telephone keypad, and within each area there are various functions. Listen carefully to MARS for selection numbers. MARS is frequently being updated so check the MARS Main Menu for new applications and services.

REGISTRATION ACTIVITIES MENU

This is the most widely used area of MARS and includes functions for course registration, schedule adjustment, searching for open course sections, getting on a waitlist, and listing your course schedule. Remember advising or special course permissions may be required before registering.

Registration/Schedule Adjustment: Use this feature to add and drop courses, change a grading method or credit level, list your current schedule, check on open sections, or place yourself on a waitlist. See page 11 for a MARS Course Worksheet and directions for using MARS to register.

Waitlist Check-In: Students can use MARS to fulfill the mandatory waitlist check-in obligation or check the status of their waitlisted courses Read page 12 for waitlist information.

Section Status: Up-to date course availability data is provided through Section Status. To inquire about a section use the course/section Index Number in the course listings. If a course is closed, the number of students on the waiting list will be given. Because this feature is only informational, no registration blocks are enforced.

List Schedule: MARS will list the courses for which you are currently registered.

Regisration and Appointment Status: Lists student early registration dates as well as advising requirements, financial eligbility and registration blocks.

GRADE INQUIRY

Provides semester and early warning grades as soon as they are available.

CAMPUS PARKING APPLICATION

Students can apply for parking permits and change lot selections. See page 10.

FINANCIAL INFORMATION

Account Balance and Payment: Use MARS to pay your bill or check your account balance.

Check Disbursement: Students receiving aid can use this feature to schedule an appointment to pick up aid checks.

Financial Aid Inquiry Student can check on the status of their financial aid application and receive aid information.

PIN CHANGE

A student's initial Personal Identification Number or PIN is set to their 6-digit birthdate (For example 062176). This number must be changed the first time you access MARS. Also use this feature to change your PIN if you feel the security of the number has been compromised.

CAMPUS SURVEYS

This feature is used as a tool to conduct surveys on various issues effecting students.

CALLING MARS

Schedule adjustment and registration with *MARS* is convenient and easy. *MARS* utilizes the telephone key pad to communicate your course requests to the computer. The *MARS* Course Worksheet and key pad on page 11 will guide you through the process. Just follow the steps below, and then call *MARS*.

- FOLLOW steps 1 - 6 in Getting Ready to Register (Pages 5 & 6).
- Fill out the MARS course worksheet on page 11 and enter the information on each line. Use an ACTION CODE, section INDEX NUMBER, and # (pound sign) on the key pad for each transaction. After entering all lines press # (pound sign) again to signal the computer to process course requests.

  ACTION CODE - tells the computer what you want to do, for example add (press 2), drop (press 3) or list courses (press 5). All ACTION CODES are listed on page 11.

  INDEX NUMBERS - identify the individual course and section. Each course has a unique 5-digit index number in the course listings section of the Schedule of Classes. The INDEX NUMBER is in parenthesis to the right of the section number. Contact the department offering the course for INDEX NUMBERS not listed in the Schedule of Classes.

- Call *MARS* for registration, schedule adjustment and waitlist check-in during the times listed below. Listen to MARS carefully, you will be prompted for your Student ID Number (social security number) and PIN (Personal Identification Number). Note: Late Registration begins September 2, 1997

  Monday - Saturday 7:30 a.m. - 11:00 p.m. (usually available during these hours)
  Sunday 5:00 p.m. - 11:00 p.m.

- **Phone Numbers:** *MARS* **(301) 403-0500**
  (From on-campus dial 9-403-0500)
  MARS HELPLINE call (301) 314-1600
  (call the *MARS* Helpline between the hours of 8:30 and 4:30 if you have any questions or concerns)

WORDS FROM MARS

ACCIDENTAL TERMINATION OF CALL: If you are accidently cut off from *MARS* before you complete your request, recall the system. You will be registered for transactions processed prior to termination. After entering your student ID and PIN, press 5 # # to list your course schedule. *MARS* will list the courses for which you are already registered. You may then make additions or changes to your schedule.

CANCELLATION OF REGISTRATION: Note that whether you register in person, or by *MARS* your entries are part of your registration record. See Cancellation of Registration, page 14, for deadlines and information.

DISCONNECTIONS: Time limits are built into the system. If you are on the *MARS* line for an extended period of time you will be disconnected. Error limits are also a part of *MARS*. If you do not enter the correct information after the second try, *MARS* will disconnect. You may immediately call *MARS* back. List your schedule (5##) to verify prior transactions..

DROPPING: You may drop a course by using Action Code 3 # # with Drop/Add. *MARS* will list all of your courses and give you the option to drop. ***Before dropping one course in order to register for another course, be sure to use Open Section Look-up to insure that the course is available. Once a closed course has been dropped, you will be unable to reregister for the course. The next person on the waitlist has been given your seat.***

FUNDAMENTAL STUDIES: Students with a Fundamental Studies Block should contact their college office for a temporary extension. If you are registering for the required course, you must register in person.

SCHEDULE ADJUSTMENT: Schedule Adjustment for Fall 1997 begins May 8, 1997. Call *MARS* during operating hours: Monday - Saturday 7:30 a.m. to 11:00 p.m., Sunday 5:00 p.m. - 11:00 p.m. Walk-in Schedule Adjustment is also available. See page 6, step 6, for dates and times.

GRADE INQUIRY: This feature of MARS provides students with semester and early warning grades as soon as they are available. In December 1997 use MARS, the Web or a Kiosk to get your Fall 1997 grades. Use your Student ID Number and PIN, and as soon as your grades are processed, they will be available electronically. Grade Point Averages will be calculated in early January 1998 after all final grades have been posted. ***Grade reports will no longer be mailed, but Official Transcripts are always available free of charge. See page 23, Transcript Services, for details.***

GRADING METHOD: This refers to the choice of taking a course for a letter grade (A - F), Pass-Fail, or Audit. Change the grading method for a course by using *MARS* Action Code 4 # #. All grading methods are not available for all courses. Additionally, there are restrictions on taking courses Pass-Fail. See page 28 for information.

INDEX NUMBER: Unique five-digit index numbers are assigned to each section of a course. This number is located to the right of the section number in the course listings (beginning on page 43). Index Numbers for independent study courses must be obtained from the department offering the course.

PIN - PERSONAL IDENTIFICATION NUMBER: Most students already have a PIN. For students matriculating for Fall 1997 your initial PIN will be your six-digit birthdate (MMDDYY). Once you have accessed *MARS* you will be required to change this to another six-digit number. Please retain this number, and keep it confidential to insure private access to your records. Your PIN can be changed by selecting the PIN Change Processor from the *MARS* main menu.

SCHEDULE AND BILL: Students that register August 8, 1997 and earlier will receive a schedule, registration card and bill in the mail. Payment in full must be made no later than August 8, 1997 for students who registered by July 11, 1997 and earlier and by September 5, 1997 for students registering between July 12 and August 8, 1997. Bill Payment is due by September 10, 1997 for students registering after August 8, 1997.

SILENCE DURING PROCESSING: There may be periods of silence during your call to *MARS*. This is normal and occurs when information is being verified or processed. Typically, the amount of silence lasts no longer than 5 seconds; however this time may increase during periods of heavy use. DO NOT HANG UP. Wait for the next set of instructions.

REGISTRATION BLOCKS: Some students, because of their major or academic status, must be advised before they register or process schedule adjustments. ***These students include those on academic warning/dismissal, student athletes, students with a fundamental studies block, newly admitted students, and students in the IED and Individual Admit programs.*** Advisors can remove these blocks electronically after your advising appointment. You will then be cleared to register using MARS. Be sure to schedule an appointment with your advisor prior to your registration time.

TIME CONFLICTS: *MARS* will not permit you to register for courses that conflict in time. Any exceptions require special permission from your college. To be placed on a waitlist for a course that conflicts with one you are registered for, use Waitlist Action Code 7 # #. If you receive the class from the waitlist, you will then be required to resolve the conflict. If the time conflict is not resolved, the course received from the waitlist will be dropped. Refer to Waitlist Feature on page 12 for more information.

VARIABLE CREDIT: Certain courses can be taken for a variable number of credits. *MARS* will prompt you for the number of credits when you register. You can change the credit level for a variable credit course by using *MARS* Action Code 8 # #.

Anyone using the Maryland Automated Registration System for purposes other than accessing his/her own records will be in violation of University Policy. Calls may be monitored for development purposes.

IO PARKING INFO

Call MARS to register for your Campus Parking Permit

PARKING REGISTRATION INFORMATION

WHO??

All students who plan to attend the University during the Fall 1997 semester and who plan to park a motor vehicle on campus must register with the Department of Campus Parking (DCP) for a parking permit or park at a paid meter.

WHEN??

You can register for your Fall parking permit through MARS (MARYLAND AUTOMATED REGISTRATION SYSTEM) by calling (301) 403-0500, or at a MARS Kiosk after April 7, 1997.

HOW??

Read all the information below and then call MARS at (301) 403-0500. Listen carefully to MARS instructions. When you select the Campus Parking's Application in MARS you will have two choices, (1) to apply for a parking permit for Fall 1997 or (2) to listen to information concerning services available through Campus Parking. If you register at a MARS Kiosk follow the directions given on each screen.

① Before calling MARS for Parking Application read through and be prepared to answer the following questions:

? Do you want your permit mailed or do you want to pick it up at the DCP Office?
? Are you planning to live in the Graham Cracker Complex?
? Are you planning to live on Fraternity Row?
? Are you planning to live on campus?
? Are you planning to commute to UMCP? *(Junior, Senior & Grad Students be prepared to select a lot)*?
? Will you need a decal for a motorcycle?
? Will you need a decal for a convertible or "jeep" type canvas top vehicle?
? Do you have disabled parking privileges?
? Are you a Golden ID Program Student?
? Commuting senior and graduate students, would you like to participate in a lottery for lot 5? (only April through July 14, 1997)

② Call MARS at 403-0500. Listen carefully to MARS for application instructions.

NOTE: For your convenience DCP has four direct phone lines to MARS available for your use. These phone are located in the lobby of the DCP Office and are accessible during business hours.

✆ Select CAMPUS PARKING APPLICATION from the MARS Main Menu
✆ Press 1 to apply for parking permit

- OR -

✆ Press 2 to listen to information about Department of Campus Parking services
✆ Listen carefully to MARS for further instructions

Please read the information below before applying for your parking permit.

1. Your student account will be charged after you register for parking: The registration fee is $56.00 for commuter permits and $106.00 for campus resident students.(These fees are subject to change) Additionally, if you purchase a parking meter debit card your student account will be charged $20.00)

2. Students will be assigned a specific parking lot. If you are interested in a particular lot early registration is recommended.

3. Undergraduate students' credit level for the Fall 1997 semester will be determined by adding together University of Maryland accepted credits and credits taken during the current Spring semester.

4. Undergraduate and graduate commuter student lot assignment is based on your credit level according to the following chart:

Credit level 0-27	(Freshman)	- Assigned to lot 4
Credit level 28-55	(Sophomore)	- Assigned to lot 4
Credit level 56-85	(Junior)	- Choice of lots 1,4,11, SDG (gated area in new Stadium Drive Garage, Stadium Dr. & Bryd Stadium, replaces the 500 spaces lost in lot 1b). Based on space availability.
Credit level 86 +	(Senior)	- Choice of lots 1,4,11, SDG (see above). Also, Option for lottery for lot 5 - see item 5 below for information. Based on space availability.
Graduate Students		- Choice of lots 1,4,11, SDG (see above). Also, Option for lottery for lot 5 - see item 5 below for information. Based on space availability.

5. Commuting seniors and graduate students who sign onto MARS for parking from April 7 through July 14, 1997 can select the option to be included in a lottery for parking lot 5, located in Parking Garage 2. Students not selected for lot 5 will retain their confirmed lot assignment.

6. Golden Identification students can register through MARS for parking. Golden ID students will automatically be assigned a GI permit which allows parking in lots 1, 4, 5, & 11.

7. Campus residents with 56 or more credits will be assigned a parking lot based on their campus residence address. This includes the Graham Cracker Complex.

8. Campus resident students with 55 or less credits will be assigned a parking lot based on available space.

Fraternity Row	
Credit level 0-27	Assigned to lot 4
Credit level 28-55	Assigned to lot 16 (if available)
North & South Hill	
Credit level 0-55	Assigned to lot 2 (if available)
Graham Cracker Complex	
Credit level 0-55	Cannot register through MARS. Contact DCP.

9. You can have your permit mailed to your permanent address or you may select to pick up your permit at the DCP Office beginning August 20, 1997. At this time you will also receive a "Campus Parking Map and Informational Parking Guide." Permits will be mailed on or after August 8, 1997.

10. Students who have disabled parking privileges must register for their regular lot assignment parking permit through MARS and indicate that they have disabled parking privileges . *Read Disabled Parking below for information and instructions.*

11. DCP issues a decal to motorcycles and "jeep" type canvas top vehicles and convertibles. Students may choose to register either a motorcycle or canvas top vehicle, but not both types. Students with these types of vehicles will also receive a hanging permit.

NEW! NEW! NEW! PARKING METER DEBIT CARD

Students can purchase, through MARS, the new pre-paid Parking Meter Debit Card which can be used at any campus electronic meter (located in PG1, PG2, Turner Lab and 1c). This card eliminates the need to put coins in the meter. Just insert the card in the meter and put the amount of time you need on the meter. When you return a refund of unused time, in increments of 30 minutes, can be returned to your card. You can purchase one of these cards for $20.00 (there is a one time nonrefundable $3.00 charge for the card, the actual meter value is $17.00). You can add value to this card (maximum of $50.00) and use it throughout the year(s). If you decide to purchase this card you can pick it up at the DCP office on or after August 20, 1997.

DISABLED PARKING

All persons associated with the University (including those displaying a State disabled permit or tag) must purchase and display a UMCP-DCP hanging permit for the current year. Only persons for whom the disabled parking privileges are extended are authorized to park in these special parking areas. Family members driving these vehicles must utilize their assigned parking area.

BICYCLES AND MOPEDS

Bicycles and mopeds need not be registered, but should be parked in bicycle racks provided on campus. Securing or parking a bicycle or moped in any manner which would obstruct vehicles or pedestrians is prohibited. A bicycle or moped locked to any part on either side of the railing of an access ramp could make entering or exiting the building difficult or impossible for a person with a disability. Bicycles or mopeds that obstruct an access ramp that is part of an exit are in violation of the Maryland Fire Prevention Code and subject to impoundment.

Please contact the Department of Campus Parking on (301) 314-PARK with any questions related to parking on the UMCP campus. Business hours of operation are Monday through Thursday, 8:15 a.m. - 5:00 p.m. and Friday 8:15 a.m.- 4:00 p.m., excluding University holidays.

12 WAITLIST INFO

USING THE WAITLIST

The waitlist is a roster of students who are waiting for a seat to become available in a closed course. The waitlist stores names in order of request, on a first come, first served basis, to allow access to seats as drops are processed. Students can waitlist courses by using MARS or in-person.

Waitlisting with MARS: When attempting to add a closed course, and a waitlist is available, MARS will offer the waitlist option. If this option is selected, you will be placed on the waitlist for the closed section. Additionally, you will be prompted to enter up to five more waitlist sections. Be sure to use the section INDEX NUMBER. Listen carefully, MARS will give information about the MANDATORY and REGULAR CHECK-IN dates. Make note of these important dates.

When following this procedure to place a request on the waitlist, normal registration blocks are enforced. For example, if the desired waitlisted course conflicts in time with an existing added course MARS will prevent you from waitlisting the course. See WAITLIST FEATURE at the bottom of this page for details on how to use MARS to temporarily override time and credit restrictions.

Waitlisting in Person: If a course is closed and a waitlist is available you will be offered the option of being placed on a waitlist. You may waitlist up to six sections of a course. Mandatory Check-In and Regular Check-In dates will be noted on your Schedule Request/ Adjustment form. *You are required to check-in beginning on these dates to remain on the waitlist.* Please retain this information.

Check-In Until 11pm

WAITLIST CHECK-IN FOR FALL 1997 USE MARS OR KIOSKS

MARS Waitlist Check-In is available through September 16, 1997. If you are on the waitlist you must call MARS (403-0500) or Check-in at a Kiosk on the first day of classes, September 2, 1997 the mandatory check-in date. If you are still on the waitlist after mandatory check-in, you must then call daily during regular check-in, beginning September 3, 1997 to remain on the waitlist. **Remember—you must first check-in on the first day of classes, and then daily to remain on the waitlist.** Call during MARS operating hours:

Monday - Saturday 7:30 a.m. - 11:00 p.m. (late hours are usually available)
Sunday 5:00 p.m. - 11:00 p.m.

Students can also check-in at the Registration Center (1st floor Mitchell Building) through September 2, 1997 and at the Reckord Armory September 2-5, 1997. Regular Check-In will resume in the Mitchell Building **September 8-16, 1997.**

MARS Check-In: MARS waitlist data is transferred daily from the on-line registration system. When students check-in, MARS captures the Student Identification number and it is stored in a file. In the evening, this file is transferred to the on-line registration system. Updated course schedules with received waitlist courses are available the following day. If you place yourself on a waitlist, this information will not be available in MARS waitlist check-in until the following day.

To Check-In using MARS follow steps 1- 5 or visit a MARS Kiosk

1. Call MARS at 403-0500
2. Press 1 for Registration Activities
3. Press 2 for Waitlist Check-In
4. Enter your Student Identification Number (usually your social security number)
5. Enter your PIN (Personal Identification Number)

MARS will either indicate that a specific course was added to your schedule, or that you are still waiting for the course. If the course is received, MARS will confirm that the course was added to your schedule. NOTE that when a course is received from the waitlist it is added to a student's schedule the following day. You may wish to call MARS the next day and list your schedule to verify that the add was processed.

If you have not received the course, and are still on the waitlist, MARS will give your waitlist position and the next mandatory check-in date. MARS will also provide a confirmation number. This number is your assurance that you called MARS for Waitlist check-in that day. **Remember, to remain on the waitlist you must check-in daily once classes begin.**

MARS Waitlist Status: You can check the status of a waitlisted course beginning the day after you register. Call MARS and select Waitlist Check-In from the MARS menu. MARS will list any courses you have received from the waitlist and your waitlist/holdfile position for the section you have not received.

Conflicts: If you call MARS and receive a course from the waitlist which creates a time conflict or causes your schedule to exceed the number of allowable credits, etc., you MUST adjust your schedule by 4:30 p.m. of the following workday. You can use MARS Registration/ Schedule Adjustment, come in to the Registrations Office, or call the MARS Helpline (314-1600). If you do not adjust your schedule, a drop will be processed on the course you received from the waitlist.

WAITLIST INFORMATION

1. **You must check-in once a day, either by calling MARS, or in-person, during the specified period, to remain on the waitlist. Students that do not check-in will be removed from the waitlist.** If a section has already been assigned, the section will be given to the next eligible student.

2. Not all departments offer waitlists for their courses. It is the decision of the department whether or not to offer a waitlist. Some departments have two waitlists - one for eligible majors and one for special populations determined by the department. In those departments where two waitlists are kept, be aware that eligible majors have priority.

3. It is recommended that you complete your schedule with alternative course choices. **BEING PLACED ON A WAITLIST DOES NOT GUARANTEE THAT YOU WILL BE SECTIONED INTO YOUR DESIRED COURSE.**

4. To be eligible for the waitlist/hold file you cannot be registered for any other section of the desired course. If you are currently registered for any other section of the course, you must drop that section before you can be placed on the waitlist. If you remain registered for another section of the same course at the time you waitlist, you will be removed from the waitlists.

5. You may select up to six (6) sections of a course. The first section to become available will be assigned to you by the computer. Since you will now be registered for a section, your name will be removed from the waitlist for that course. If you subsequently refuse the assigned section, that section will be given to the next person waiting for it. You may, at that time, request to be **PLACED AT THE END OF THE WAITING LIST FOR ANOTHER SECTION.**

6. Once you have been placed on a waitlist for a specific course you cannot add any additional sections to the waitlist for that course at the same position. If you later decide to add additional sections they can be added to the end of the waitlist.

7. Students stand a better chance of receiving a course by waitlisting as many sections as possible. However, when waitlisting multiple sections of a course, you should be sure each section fits your schedule unless you plan to drop the course that conflicts with the waitlist section at the time the section is received.

8. Problems resulting from courses received from the waitlist that conflict with a student's schedule must be resolved. After a course is received from the waitlist time conflicts cannot remain on a student's schedule without permission from the student's college. If the course is received and confirmed, students must adjust their schedule in accordance with University policy by 4:30 p.m. of the following workday. If the schedule is not adjusted, a drop will be processed on the received waitlist course.

9. If new sections are opened with exact meeting times to those sections selected, you will be scheduled for the new section by the waitlist processor.

10. Waitlist activity will end the last day of the Schedule Adjustment Period.

11. Students who receive courses from the waitlist prior to the beginning of the semester may receive information from the Registrations Office regarding phone-in procedures. Students eligible to use MARS are encouraged to call MARS for waitlist check-in.

WAITLIST FEATURE (7 # # ON MARS)

Waitlisting a course that conflicts in time with another course or waitlisting a course that if received, would allow a student to be enrolled in credits above the maximum credit restriction requires a student to use the Action Code 7 # # while in Registration/Schedule Adjustment. This procedure only allows an override on the registration blocks for waitlisted courses. If the course is received and confirmed, students must adjust their schedule in accordance with University policy by 4:30 p.m. of the following workday. If the schedule is not adjusted, a drop will be processed on the received waitlist course. Additionally, 7 # # allows students to drop a section of a previously waitlisted course, and provides a listing of waitlist courses.

ADDING A COURSE TO THE WAITLIST:

1. Use Waitlist Action Code - 7 # #.
2. Press Action Code 2, INDEX NUMBER, # #

The course/section has now been added to the waitlist. Listen carefully, you will be prompted to waitlist 5 additional sections if you so desire. The processor will warn you when there are registration blocks associated with your waitlist requests. These will be overridden by the processor. If you receive the course, you MUST resolve the problem by 4:30 p.m. of the following workday to comply with University policy. Failure to adjust your schedule will result in the received class being dropped.

DROPPING A COURSE FROM THE WAITLIST:

1. Use Waitlist Action Code - 7 # #.
2. Press Action Code 3, INDEX NUMBER, # #. The exact course/section has been deleted from your waitlist record.

OR

Press Action Code 3, # #. *MARS* will list all your waitlist courses/sections. Listen carefully. The system will prompt you to drop the desired waitlist course/section.

LISTING WAITLIST COURSES:

1. Use Waitlist Action Code - 7 # #.
2. Press Action Code 5, # #. *MARS* will list your waitlist courses/sections and position number.

If you receive a course from the waitlist you must still reconfirm your request. To reconfirm and receive the course go back to the MARS main menu, select Waitlist Check-in (press 2) and follow instructions.

REGISTRATION 13

INTER-INSTITUTIONAL REGISTRATION/CONSORTIUM OF UNIVERSITIES

Inter-Institutional Registration Procedures

Undergraduate students have the opportunity to take courses at other University of Maryland System Institutions (host institution) to augment their degree program at UMCP (home institution) under the Concurrent Inter-Institutional Registration program. Students may take courses at the system schools listed below provided they meet requirements of the program.

System Institutions Include:

Bowie State University
Coppin State College
Frostburg State University
Salisbury State University
Towson State University
University of Baltimore
University of Maryland at Baltimore
University of Maryland Baltimore County
University of Maryland College Park
University of Maryland Eastern Shore

NOTE: Inter-Institutional Concurrent Registration is not available at University College for UMCP Students.

Program Requirements:

To participate in the program UMCP students must:

a. have sophomore standing

b. be in good academic standing

c. be enrolled full-time in a degree program at College Park for the semester in which the course(s) are taken. Full-time status is defined as a combination of credits registered for at College Park, and the registered credits at the host institution.

d. have approval from their dean for the course to count as resident credit

e. comply with the host institution's registration procedures and deadlines

Enrollment in courses is on a space available basis and visiting students are expected to meet prerequisites or other criteria set by the host institution. Tuition and fees are paid at the home institution, however, fees at the host institution associated with special courses may be assessed. Continuing Education courses cannot be taken.

Registration Procedures:

1. Obtain an Inter-Institutional Registration form from the Special Programs Coordinator in Room 1108 Mitchell Building.
2. Complete form and have course approved by your college dean.
3. Return form to Special Programs Coordinator for verification and approval. Retain a copy of the approval form for registration at the host institution. (The Special Programs Coordinator can provide information about registration dates and times at other University of Maryland System institutions.)
4. Contact the program coordinator/registrar at the host institution to inquire about and arrange for registration. Registration will be according to the host's institutional policies and deadlines. Special permits, parking or other fees at the host institution are the responsibility of the student.
5. Upon completion of the course, the host institution will forward an official transcript to the home institution reflecting the grade(s) earned in the course(s) taken there. Records and Registrations will post the grade(s) to the student's record and note that the course(s) were taken as part of the Inter-Institutional program, and where. Course grades will be calculated in the student's g.p.a. and academic totals at UMCP.

Complete procedures can be found on the University of Maryland System, Application for Inter-Institutional Enrollment form available from Jane Graham, Special Programs Coordinator, Room 1108, Mitchell Building, 301-314-8239.

CONSORTIUM OF UNIVERSITIES OF THE WASHINGTON METROPOLITAN AREA

The Consortium of Universities of the Washington Metropolitan Area consists of American University, The Catholic University of America, Gallaudet University, George Mason University, George Washington University, Georgetown University, Howard University, Marymount University, Mt. Vernon College, Trinity College, University of the District of Columbia, and the University of Maryland at College Park. Students enrolled in these institutions are able to attend certain classes at other campuses and have the credit considered "resident" credit at their own institution. Payment of tuition for courses will be made at the student's home campus. Any eligible degree seeking graduate or undergraduate student may participate in this program according to the following stipulations.

a. Golden ID students are not eligible to enroll in courses through the Washington Area Consortium with waiver of fees.

b. Neither the faculty and staff tuition remission program (this includes assistantships, fellowships, etc.) nor the partial tuition waiver program for spouses and dependents of University of Maryland employees may be used for courses taken through the Washington Area Consortium.

c. Continuing Education courses cannot be taken through the Consortium program.

Students whose fees are remitted through these programs and who are interested in enrolling in courses at Consortium schools will be expected to pay for the course or courses at the appropriate College Park credit hour rate for the semester in which they enroll.

A. Procedure for UMCP Students

Eligible Graduate Students

1. Must be degree seeking.
2. Need approval of the Departmental Director of Graduate Studies.
3. No more than 25% of course credits may be taken at other Consortium schools.
4. Practica, internships, workshops and similar experiential learning courses cannot be taken at other Consortium schools.
5. Comparable courses offered at UMCP may not be taken through the Consortium.

Eligible Undergraduate Students

1. Must be degree seeking.
2. Must have junior standing (56 credits). An exception to this policy is approval for courses in Army and Navy ROTC programs.
3. Need prior written approval of the following:
   a. The student's major department.
   b. The comparable UMCP department if the course is outside the major department.
   c. The student's dean.
4. Practica, internships, workshops and similar experiential learning courses cannot be taken at other Consortium schools.
5. Comparable courses offered at UMCP may not be taken through the Consortium. The intention is to allow students to take an occasional course to augment a program rather than to develop an individual program.

Registration for UMCP Students

1. Contact the department offering the course at the institution to be visited. This will determine if the course is open to Consortium students and if there are any special conditions, e.g., prerequisites, special fees. Special fees must be paid directly to the visited institution.
2. Contact the Consortium Coordinator in the UMCP Registration Office, Room 1108 Mitchell Bldg. 314-8239 to obtain the "Permission to Enroll in the Consortium Program" form. (Complete one form for each institution at which you wish to take courses.)
3. Acquire appropriate approvals and signatures on the "Permission to Enroll in the Consortium" form and return to the UMCP Consortium Coordinator. Permission will not be granted if a comparable course is offered at UMCP.
4. Pass/Fail or audit grading options are not permitted for Consortium courses.
5. A Consortium Registration Form will be filled out with the Consortium coordinator.
6. A copy of this form will be used as an identification card at the visited institution.
7. Show identification card (registration form copy) to the instructor of the course to confirm enrollment, but keep the card.
8. If the course is cancelled or if you change or drop the course, immediately contact the Consortium coordinator at UMCP.
9. UMCP course change deadline apply for students visiting other Consortium institutions.
10. Grades earned by College Park students at other Consortium institutions in courses taken through the Consortium arrangement will be converted into the College Park grading system. These grades are used in the calculation of the cumulative grade point average.
11. Courses taken for credit through the Consortium in the student's final thirty hours must have prior approval from the student's college dean.

NOTE - 1) Consortium courses will be included in the semester credit load of 12 hours for financial aid purposes.
2) Only a maximum of 16 credits of ROTC course work may be applied toward a College Park degree.

B. Procedure for Visiting Students

Students from other Consortium schools may register for University of Maryland at College Park courses on a space available basis beginning with the first day of classes, September 2, 1997 for the Fall semester. Visiting Consortium students are not eligible to register for Instructional Television, Continuing Education, or professional education courses.

Students will be expected to meet all prerequisites of UMCP courses. Also, prior approval will be required for courses restricted to special UMCP majors and permission only courses. See individual course listings in this SCHEDULE for course restriction information. Also, see "How to Read Course Listings." Visiting students must register at both their home campus and at UMCP.

1. Contact the UMCP Consortium coordinator on 314-8239, room 1108 Mitchell Bldg.
2. Fill out UMCP Schedule Request form with requested courses. A visiting student cannot audit any UMCP courses.
3. Present the third copy of the Consortium Registration Form completed by your home campus to the UMCP coordinator.
4. The coordinator will officially register you for the UMCP courses. Please keep copies of the Schedule Request/Schedule Adjustment form for your records.
5. If the course is cancelled, or if you change or drop the course, immediately contact the Consortium coordinator at the visiting campus and your home campus.

14 REGISTRATION

CANCELLATION/REFUNDS/GRADUATION

Cancellation of Registration

Students who register and later decide not to attend the University must CANCEL their registration by September 1, 1997. Failure to cancel registration will result in financial obligation to the University even though the student does not attend class.

To Cancel Your Registration on or before September 1, 1997

1. Your cancellation request must be received in writing by:

   Office of Records and Registration
   1st Floor, Mitchell Building, University of Maryland
   College Park, Maryland 20742
   or FAX to 301-314-9568

Since the University can honor only those requests for cancellation which are actually received by September 1, 1997, requests should be sent by Registered Mail. PLEASE INCLUDE STUDENT IDENTIFICATION NUMBER ON ALL CORRESPONDENCE.

2. For additional information concerning cancellation call the Registration Office at 314-8240.
3. Cancellation of Housing and Dining Services is a separate process. See page 17 for information.

Penalties for Drops During Schedule Adjustment

Full-time undergraduate students do not receive a refund for courses dropped if the total number of credits for which they are registered remains 12 or more.

PRIOR TO THE FIRST DAY OF CLASSES, SEPTEMBER 1, 1997 OR EARLIER, if a full-time undergraduate student drops a course or courses, thereby changing the total number of credits for which the student is registered to 11 or less, charges for the semester will be assessed on the basis of the per credit hour fee for part-time students. However, if the student later adds a course or courses, thereby changing the total number of credits for which the student is registered to 12 or more, the student will be charged for the difference between per credit hour fees paid and the general fees for full-time undergraduates.

If during the FIRST FIVE DAYS OF CLASSES,SEPTEMBER 2-8, 1997, a full-time undergraduate drops a course or courses thereby changing the total number of credits for which he/she is registered to eleven or less, charges for the semester will be assessed on the basis of part-time charges plus 20% of the difference between the full-time tuition and fees and appropriate part-time charges. After the first five days of classes, there is no refund for changing from full-time to part-time status.

Refund Schedule for Drops Graduate Students and Part-Time Undergraduates

Both graduate students and part-time undergraduates are charged by the credit hour. A percentage charge and/or complete charge for the course may be imposed if the deadlines indicated below are not followed.

1. September 1, or earlier (prior to the first day of classes) ..... 100% refund.
   There will be no charge for courses dropped prior to this date.
2. September 2-8 (first five days of classes)..... 80% refund.
   There will be a 20% charge imposed for courses dropped during this period.
3. September 9 and after (anytime after the first five days of classes)..... 0% refund
   Student will incur full charge for courses dropped during this period.

IMPORTANT NOTES:

First ten days of classes (from September 2 - 15): Students will not be charged to drop and add a course if they are of equal credit value, for example dropping CHEM 678 and adding CHEM 691 (both three credit courses), and if they are processed on the same day. This is considered an even exchange. Remember, to avoid additional tuition charges when dropping and adding, BOTH the drop and the add must be done during the same day. The total number of credits dropped and added must be equal.

After the first ten days of classes (September 16 and later): Even exchanges of dropped and added credits will not be accepted. ***Courses added and dropped after the 10th day of classes will be charged as follows: there will be no refund for the drop, and 100% charge per credit for any adds.***

Candidates for December 1997 Graduation

Deadline to apply for a diploma dated December 1997 ..... September 15, 1997

Both graduate and undergraduate students must apply for a diploma dated December 1997 by September 15, 1997. Diploma applications can be processed several ways. Choose the most convenient for you:

1. MARS - Call the Maryland Automated Registration System at 403-0500.
2. Visit a MARS Kiosk located in Van Munching Hall, the Stamp Union, Ellicott Dining Hall, and first floor Mitchell Building.
3. World Wide Web - Use Testudo on the web. www.testudo.umd.edu. Select *Records and Registrations Services*, then *apply for Graduation.*
4. Come to the Registration Counter, first floor lobby, Mitchell Building to complete an application.

Reclassification to In-State Status

If you wish to change your out-of-state classification you may do so by filing a timely Petition of In-State Status. Information sessions will be held at the beginning of the semester. The deadline for meeting the twelve month requirements for in-state status and for submitting a petition and supporting documentation is the last day of late registration for the semester you wish to be classified as an in-state student. Requests for retroactive changes in-state status are not granted.

Deadline for Fall 1997 ..... September 15, 1997

It is imperative that students obtain a petition as soon as possible. Late petitions will not be accepted. The volume of petitions for review of eligibility may necessitate a delay in completing the review process. It is to your advantage to apply early. It is hoped that a final decision for each case will be made within ninety (90) days of receipt of a complete petition including all necessary documentation.

For residency self-evaluation forms, walk-in hours, petition materials or additional information, please contact:

Refunds for Special Courses

COOP 098/099, MATH 001, MATH 002—Refunds: A part-time or full-time undergraduate who drops MATH 001 or MATH 002 will receive an 80% refund of the special fee if the course is dropped during the first five (5) days of classes and 0% or thereafter. MATH 001 or MATH 002 will still be counted in the determination of hours for full-time or part-time status, not withstanding the refund policy. A part-time or full-time undergraduate student who drops COOP 098/099, or ENCO 098/099 will receive an 80% refund of the fee if the course is dropped during the first five (5) days of classes and 0% thereafter.

Refund Requests

To obtain a refund from your student account you may apply in writing. This can be done by either: (1) addressing a letter to the Office of The Bursar, Lee Building; University of Maryland, College Park, MD 20742, or (2) visiting the office in person: Student Financial Service Center, Lee Building, Room 1135, 8:30 a.m. to 4:30 p.m., Monday through Friday, or (3) you may request a refund by phone. Call MARS 403-0500 and start with option #"3" (Financial Information) from the MARS main menu. No credit balance is automatically refunded.

Refunds from payments originally made by cash are ordered from the State Treasurer's Office in Annapolis. They are made payable to the student and take approximately 3 weeks after the refund is requested to be mailed to the students permanent address of record. Students with a credit balance of $100.00 or less may be entitled to a cash refund. Please visit the Student Financial Service Center Office, Room 1135 Lee Building, with an identification card to obtain the cash refund voucher.

Refunds from payment originally made with a credit card must be refunded to the card originally charged. Credit card refunds are processed electronically and take approximately 1 week after the refund is requested. Please include your credit card number and expiration date in your request. A credit receipt will be mailed to the address listed on the refund request.

Tuition, Fees and Other Expenses

ALL STUDENTS WHO REGISTER FOR THE FALL SEMESTER INCUR A FINANCIAL OBLIGATION TO THE UNIVERSITY. Financial policy and fees are set by the University with the approval of the Board of Regents.

Tuition Plan

The University currently sponsors two payment plans for use in paying tuition, room, board and telecommunication fees. Enrollment for 1997-98 begins in April 1997, and applications for the 1997-98 school year will be available beginning in April.

NOTE: Students enrolling in payment plans should deduct all financial aid or be prepared to use aid to reduce the amount owed on a payment plan.

Questions for general information on payment plans can be directed to The Student Financial Service Center at 405-9041.

Tuition Notes

Returning students will not be permitted to complete registration until all financial obligations to the University including current semester fees, library fines, parking violation assessments and other penalty fees and the service charges are paid in full. If a student registers without proper financial clearance from the Office of the Bursar, his/her registration may be cancelled without further notice. If a student becomes financially ineligible after registering, his/her registration may be cancelled unless and until his/her account balance is paid in full by a prescribed date.

PLEASE NOTE: PAYMENTS FOR STUDENT ACCOUNTS MAY BE MADE BY VISA, MASTERCARD OR DISCOVER. CREDIT CARD PAYMENTS MAY BE MADE IN PERSON OR BY MAIL. HOWEVER, PHONE-IN PAYMENTS CAN ONLY BE ACCEPTED BY CALLING MARS AT 403-0500, AND SELECTING FINANCIAL INFORMATION FROM THE MARS MAIN MENU.

Although the University regularly mails bills to students, it cannot assume responsibility for their receipt. Students are urged to obtain a copy of their financial account in Room 1135 of the Lee Building, or by phoning 405-9041, if they are not certain their account is paid in full. This office is open from 8:30 a.m. to 4:30 p.m. Monday through Friday. Students may also obtain their account balance by phoning MARS at 403-0500 from a touchtone telephone.

CHARGES INCURRED DURING THE SEMESTER ARE PAYABLE IMMEDIATELY.

A student who wishes to dispute a specific item on their bill must contact the appropriate University department that initiated the charge to discuss the nature of the adjustment, if any, or the appropriateness of the bill. If, after discussing the bill with the originating department, a student still wishes to dispute the charge, any appeal must be made in writing and sent to the Office of the Bursar. It is emphasized that any portion of the bill not in dispute must be paid in accordance with the due date on the bill. All checks or money orders should be made payable to the University of Maryland for the exact amount due. The student's social security number must be written on the check.

Late Payment Fee: Students who fail to pay the balance due on their accounts are subject to an initial late fee of 5% of the outstanding balance or $10.00, whichever is greater. A 1.5% finance charge is assessed each month thereafter.

The state has established, under legislative mandate, a CENTRAL COLLECTION UNIT within the Department of Budget and Fiscal Planning. This campus has been instructed that all delinquent accounts must be transferred to the State Collections Unit. ALL ACCOUNTS DUE FROM STUDENTS, FACULTY, STAFF, NON-STUDENTS, ETC. ARE INCLUDED WITHIN THESE GUIDELINES.

Collection Costs: incurred in collecting delinquent accounts will be charged to the student. The University is required by State law to refer past due accounts to the State Central Collections Unit. The minimum collection fee is 17% plus any attorney and/or court costs. This collection fee is separate and distinct from any late payment fee the student may already have incurred and will not be reduced or offset by the amount of that late payment fee.

NOTE: STATE CENTRAL COLLECTIONS UNIT IS AUTHORIZED BY STATE LAW TO USE AN INDIVIDUAL'S STATE INCOME TAX REFUND AS AN OFFSET TO PAY INDEBTEDNESS TO THE STATE OF MARYLAND. NO DEGREE WILL BE CONFERRED, NOR ANY DIPLOMA, CERTIFICATE, OR TRANSCRIPT OF RECORD ISSUED TO A STUDENT WHO HAS NOT MADE SATISFACTORY SETTLEMENT OF HIS OR HER ACCOUNT.

Mandatory Fees

The Auxiliary Facilities Fee: Refundable upon withdrawal. $29.00 — Charged to all Full-Time Undergraduates. Part-Time Undergraduates and all Graduate students are charged $12.00. The Auxiliary Facilities Fee is paid into a fund which is used for capital improvement, expansion and construction of various campus facilities such as open recreation areas (tennis courts, basketball courts, etc.), transportation alternatives (shuttle busses), and The Stamp Union Building. These capital projects are not funded or are funded only in part from other sources.

The Student Activities Fee: Refundable upon withdrawal. $23.00 — Charged to all Full-Time Undergraduates. Part-Time Undergraduates are charged a fee of $12.00. Other Fees

Payment of Fees: All checks, money orders or postal notes should be made payable to the University of Maryland and mailed or delivered to: Office of the Bursar, University of Maryland, College Park, MD 20742. The student's social security number must be written on the front of the check.

Undergraduate Application Fee: $45.00 — Charged to all new Undergraduate Applicants. Those who have previously enrolled at the University of Maryland at College Park will not be required to pay the fee.

Graduate Application Fee: $50.00 required of all students.

***Pre-College Orientation Program Registration Fee:** $97.00 (two day program) $35.00 (one parent)
68.00 (one day program) $70.00 (two parent)

Late Registration Fee: $20.00. All students are expected to complete their registration before the first day of classes. Those who do not complete their initial registration prior to the first day of classes will be assessed this fee.

Special Fee for students requiring additional preparation in Mathematics. MATH 001 or MATH 002 — 175.00 per semester. These special fees are in addition to course charges. (Note that MATH 001 is required of students whose curricula call for MATH 110 or 115 and who fail a qualifying examination for these courses.)

A student enrolled in MATH 001 or MATH 002 concurrently enrolled for nine or more credit hours will be considered as a full-time student for purpose of assessing fees. Students taking only MATH 001 or MATH 002, pay for three credits plus the special fee. A 3-credit course plus MATH 001 or MATH 002 results in a charge for 6 credits plus the special fee. A full-time student pays full-time tuition plus the special fee.

Cooperative Education Program in Liberal Arts and Business (COOP 099): $60.00 each

Engineering CO-OP Program (ENCO 099): $60.00 each

Fees for Auditors and courses taken for audit are the same as those charged for courses taken for credit to determine whether or not an undergraduate student is full-time or part-time for fee assessment purposes.

Special Students are assessed fees in accordance with the schedule for the comparable undergraduate classification.

Student Teaching Fee: All student teachers are required to pay a $170.00 fee for their entire student teaching experience.

Special Examination Fee: $30.00 per course for all undergraduates and full-time graduate students. Credit-hour charge for part-time graduate students.

Vehicle Registration Fee: Commuters $56.00. Residents $106.00. Fee is required of all students registered for classes on the College Park Campus and who drive on campus.

Textbooks and Supplies: Textbooks and classroom supplies vary with the course pursued, but will average $275.00 per semester.

Service Charges for Dishonored Checks: Payable for each check which is returned unpaid by the drawee bank on presentation because of insufficient funds, payment stopped, post-dating against uncollected items, etc.

For checks up to $100.00: $10.00
For checks from $100.01 to $500.00: $25.00
For checks over $500.01: $50.00

When a check is returned unpaid, the student must redeem the check and pay any outstanding balance in the account within 10 days or all University services may be severed and the account transferred to the State Central Collection Unit for legal follow-up. Additionally, a minimum 17% collection charge is added to the charges posted to the student's account at the time the transfer is made. When a check is returned unpaid due to an error made by the student's bank, the student must obtain a letter from the branch manager of the bank or a person of equivalent status admitting such an error. This letter must be submitted to the Office of the Bursar to have the service charge waived.

Library Charges: $ .35 - Fine for failure to return a book from General Library before expiration of loan period per day. Fine for failure to return book from Reserve Shelf before expiration of loan period: First hour overdue on first day: $1.00; after first hour on first day:$.75 per hour for each hour open up to a maximum of $45.00 per item. In case of loss or mutilation of book, satisfactory restitution must be made.

Motor Vehicle Penalties: These are described in Traffic Rules and Regulations.

Property Damage Charges: Students will be charged for damage to property or equipment. Where responsibility for the damage can be fixed, the individual student will be billed for it; where responsibility cannot be fixed, the cost of repairing the damage will be pro-rated among the individuals involved.

Late Payment Fee: Students who fail to pay the balance due on their account are subject to an initial late fee of 5% of the outstanding balance or $10.00, whichever is greater. A 1.5% finance charge is assessed each month thereafter.

* All orientation charges are under review and are pending approval.

BILLING INFO/TUITION REMISSION POLICY/WITHDRAWAL

Billing Information

Bills for payment of fees are mailed in July and August to students who have registered prior to August 9, 1997 for Fall courses. Payment in full must be made by the dates in the following chart:

If you registered:	*Payment in full is due:*
by July 11, 1997	**August 8, 1997**
between July 12, 1997 and August 8, 1997	**September 5, 1997**
after August 8, 1997	**in person by September 10, 1997**

NO BILL IS MAILED FOR STUDENTS WHO REGISTER AFTER AUGUST 8, 1997. ALL CHARGES INCURRED AFTER AUGUST 8, 1997 TO SEPTEMBER 10, 1997 ARE DUE ON SEPTEMBER 10, 1997 WITHOUT EXCEPTIONS. PLEASE CONTACT THE STUDENT FINANCIAL SERVICES CENTER TO VERIFY THE AMOUNT OWED.

Accounts not paid by the appropriate due date are delinquent and subject to the assessment of a late payment of $10.00 or 5%, whichever is higher, and referral to the State Central Collections Unit in Baltimore and/or cancellation of registration. Students with Stafford Loans must pay their bill in full in the event their loan funds have not been received by the University by September 10, 1997.

For student convenience, payment by mail is encouraged; however, payment also may be made at the Office of the Cashier, Lee Building. Students may pay in person at the Office of the Cashier, 8:30 a.m. to 4:30 p.m. Monday through Friday, where they are required to present a Student ID Card with payment. Also students, if paying by personal check may drop the payment in the Bursar's Mail Remittances hallway drop slot in the Lee Building, any time that the building is open. If a student uses the drop slot, the processed check will serve as a receipt. Be sure the Social Security number is clearly written on the front of the check.

PLEASE NOTE: PAYMENTS FOR STUDENT ACCOUNTS MAY BE MADE BY VISA, MASTERCARD OR DISCOVER CARD. CREDIT CARD PAYMENTS MAY BE MADE IN PERSON OR BY MAIL. PHONE-IN PAYMENTS CAN BE MADE BY CALLING MARS at 403-0500.

Periodically during the semester bills will be mailed to the student's permanent address reflecting charges incurred for parking tickets, library fines, course adjustments, etc. These bills are due ON RECEIPT. THE UNIVERSITY CANNOT ASSUME RESPONSIBILITY FOR THEIR DELIVERY.

Students who register after August 8, 1997 will be required to make full payment in person to the cashier by September 10, 1997 to avoid cancellation of their schedule and loss of their seats to other students. MAIL PAYMENTS, PHONE PAYMENTS, POSTMARK DATES, AND USE OF "DROP BOXES" WILL NOT SATISFY THIS DEADLINE.

Students who have questions about their bills may obtain print-outs of their financial accounts by coming to Room 1135 of the Lee Building between 8:30 a.m. and 4:30 p.m. Monday through Friday.

Each student is individually responsible for all of his or her fees and expenses. If a third party, such as an employer, agrees to pay these charges, the student is not relieved of his or her primary responsibility. In the event such third party fails to honor its agreement, the University reserves the right to bill the student directly. Failure to pay this bill thereafter will result in the suspension of services to the student by the University and transfer of the account to the State Central Collection Unit. WHEN A PAYMENT IS MADE TO THE UNIVERSITY, PAYMENT OF ANY OUTSTANDING BALANCE PRECEDES PAYMENT OF CURRENT INDEBTEDNESS. That is, the oldest account balance is liquidated first.

FAILURE TO PAY OUTSTANDING DEBTS WILL RESULT IN ADDING A LATE PAYMENT FEE OF $10.00 or 5%, WHICHEVER IS HIGHER PLUS A 1.5% MONTHLY FINANCE CHARGE, AND TRANSFER OF THE ACCOUNT TO THE STATE CENTRAL COLLECTIONS UNIT. A MINIMUM OF 17% COLLECTIONS CHARGES ARE ADDED AT THIS TIME. THIS COLLECTION FEE IS SEPARATE AND DISTINCT FROM ANY LATE PAYMENT FEE THE STUDENT MAY ALREADY HAVE INCURRED AND WILL NOT BE REDUCED OR OFFSET BY THE AMOUNT OF THAT LATE PAYMENT FEE.

MARYLAND LAW ALLOWS THE CENTRAL COLLECTION UNIT TO BLOCK ISSUANCE OF MARYLAND STATE INCOME TAX REFUNDS FOR INDIVIDUALS WITH DELINQUENT ACCOUNTS.

Tuition Remission Policy *(Spouse and Dependent Children)*

The University Board of Regents approved a tuition remission policy in 1990 for spouse and dependent children of permanent employees (50% time or more). The policy provides full tuition for a first undergraduate degree for the spouse and dependent children of permanent full time (100%) employees. The spouse and dependent children of permanent part-time (50% or more) employees will be eligible for tuition remission based on the percent of time on the payroll. Restrictions apply for spouse and dependent children of permanent employees hired on or after January 1, 1990. In addition, tuition remission benefits for the spouses and dependent children of permanent faculty and permanent staff whose period of employment began on or after July 1, 1992 shall be available for a first undergraduate degree only after the faculty or staff member has been in the university services for two years prior to the anticipated date of registration for course work. Courses must be taken at the campus of employment. Forms are available at each campus personnel department. If using the benefit at UMCP, after obtaining the department head signature, the completed tuition remission form is to be forwarded, in a sealed envelope to the UMCP Personnel Services Department, Staff Benefits Office no later than July 1, 1997. If the established cap has not been reached by July 1, 1997, all forms submitted to-date will be approved, and forms will continue to be accepted and processed on a first-come, first-served basis until the cap is reached. If the student receiving the tuition remission drops classes or withdraws from the University, all or part of the tuition costs may be charged to the student. Questions regarding tuition remission for the spouse and dependent children of employees can be directed to the Personnel Services Department, Staff Benefits Office, 405-5658.

Leave of Absence

A leave of absence is available for students wishing to take time away from the University for personal or academic reasons with the intention of returning the next semester. The leave of absence status is especially helpful for recipients of Federal Financial Aid. The student is not considered to be withdrawn, and is still enrolled for purposes of deferring repayment of federal loans. The leave of absence is only available for the last 60 days of the semester, and the student must return the following semester.

Please note: For students using this for Financial Aid deferment, only one leave of absence can be granted in any 12 month period.

With an approved leave of absence the student may automatically return the next semester, and all registration privileges will be extended. Additional information and forms for applying for a leave of absence are available from the Records Office, Room 1101 Mitchell Building, University of Maryland at College Park, College Park, MD 20742.

Withdrawal from the University

Procedures for Withdrawal from All Classes

Cancellation of Housing/Dining Contracts is a separate process, see Cancellation of Residence Halls/Dining Services below.

September 2 or later

1. All students should report to Room 1101, Mitchell Building to complete a withdrawal form. If unable to report in person, send a letter to Room 1101, Mitchell Bldg. University of Maryland, College Park, MD 20742 or send a fax request to (301) 314-9568
2. Withdrawal becomes effective on the date the form is filed with the Records Office. Stopping payment on a check does not constitute an official withdrawal. A notation of withdrawal and the effective date of the withdrawal will be posted to the permanent record.
3. Tuition credit will be initiated upon receipt of the Withdrawal Form. The percentage of credit is determined by the date the form is filed in the Records Office.
4. Refer to the chart below for refund information. Credit adjustments for housing services not utilized are based upon the date of completion of residence halls checkout procedures and not upon the date of withdrawal from classes.
5. Be certain to return all books to the library and clear all financial accounts at the Office of the Bursar, Lee Building. Refunds for credit adjustments will be authorized after all student financial aid adjustments have been processed and any balance remaining on the account has been deducted.

Dates for Refund of tuition and fees for Withdrawal from All Courses

		Undergraduate Resident	Undergraduate Non-resident
On or before September 1	100%	2230.00	5294.50
September 2-15	80%	1784.00	4235.60
September 16-22	60%	1338.00	3176.70
September 23-29	40%	892.00	2117.80
September 30 - October 6	20%	446.00	1058.90
October 7 and later	0%	0.00	0.00

NOTES:
1. Students who have made no payment on their account at the time of withdrawal will be billed according to the above schedule.
2. Students receiving Title IV funds will have their refunds calculated in accordance with Federal Regulations.
3. In computing refunds to students who have scholarships and loans from University funds, the computation will be made in such a way as to return the maximum amount to the scholarship and loan accounts without loss to the University.
4. Only amounts in excess of the non-refundable enrollment deposit will be refunded.

Cancellation of Residence Halls/Dining Services Agreement

The University will release a student from the *Residence Halls/Dining Services Agreement* prior to claiming services (i.e., keys issued) when written notice has been received by Resident Life's Assignments Office. Please refer to the *"Cancellation & Refund" section of the Agreement* section IV(D) for more information about deadlines and cancellation fees, or contact Resident Life's Assignments Office (301)314-2100.

Cancellation of the *Residence Halls/Dining Services Agreement* must be sent directly (Certified Mail suggested) to:

Resident Life Assignments Office
2100 Annapolis Hall
College Park, MD 20742-9123

Note: The $100 Non-Refundable Housing Reservation Fee paid by returning students will not be returned or credited to any outstanding balance owed to the campus.

After a student claims services (i.e., keys issued), charges for housing, dining and resident telecommunications are not refundable unless the student receives written approval for and effectively completes Resident Life and/or Dining Services release procedures as stated in the *Residence Halls/Dining Services Agreement* or the *Procedures for Release from the Agreement* document.

1. The *Residence Halls/Dining Services Agreement* is for the entire academic year. Therefore, the University will not normally release an individual from the *Agreement* after services are claimed (i.e., keys issued).
2. In some specified cases, however, students may be released from the *Agreement* without incurring financial obligation (beyond occupancy and meal charges) only when Resident Life has received and verified upon a specified date a student's request for release that is based upon the student's withdrawal, graduation, marriage, student teaching, study abroad, co-op work in conjunction with a University-sponsored program, or substantial physical or emotional difficulties (verified by the University) which prevent continued participation in the *Agreement.*

   Such requests for release—effective at the end of the Fall semester or the start of the Spring semester—must have been submitted to Resident Life before 4:30 p.m., December 2, 1997, in order to avoid incurring the charges identified in the Cancellation Fee Schedule in Section IV (D) of the *Agreement* in the event the request is approved by Resident Life.
3. Request for release from the *Agreement* which is to be effective Spring 1998 will not be approved after the first scheduled day of Spring semester classes, except for reasons of disenrollment.

Please contact Resident Life's Assignments Office (301) 314-2100 for more information and other criteria that may allow for release from the *Residence Halls/Dining Services Agreement.*

EXAM SCHEDULE 19

FINAL EXAM SCHEDULE

All final examinations will be held on the examination days of the Official Final Examination Schedule. No final exam shall be given at a time other than that scheduled in the Official Examination Schedule without permission of the department chair. Exams are scheduled with respect to the time the class begins.

The University has no policy on the number of finals a student can take on one day. Students are strongly encouraged to check the final exam schedule before registering for courses.

A final examination will be given in every undergraduate course. Exceptions may be made with the written approval of the chair of the department and the dean. Please read all sections of the Final Examination Schedule. For additional information, see "Examinations" in the Undergraduate Catalog.

GENERAL INFORMATION

Career Center

Address: 3121 Hornbake Library, South Wing
Phone: 314-7225
Fax: 314-9114
e-mail: Career-center-help@umail.umd.edu
web: http://www.CareerCenter.umd.edu/

The Career Center helps students at all points in their academic careers with career goals and decisions. Career Center staff help to guide students to the answers for such questions as "How are my interests, skills and values related a major or a career field?" "How do I gain experience related to my major?" "What are some effective strategies for getting a job or selecting a graduate school?" Career Center programs and services are designed to be used effectively by students from freshmen year until the end of their stay at UMCP. Students who begin to plan their education and career early in their college experience will be in the best position to direct themselves toward meaningful and rewarding careers upon graduation.

Resources

Resource Room: Those entering the Career Center will first encounter its Resource Room, a multi-media collection of resources to help students and alumni learn about career planning and job search strategies. Resources include comprehensive reference material on self-assessment, career exploration, graduate/professional schools, job search skills such as resume writing and interviewing, and directories of employers. Students can receive career information and guidance through a variety of resources: Focus II, an interactive career planning computer program; job listings for part-time, internship, cooperative education, and full-time opportunities; technical assistance for TERP Online; and walk-in assistance from Career Center staff. *See Career Center Hours of Operation for walk-in hours.*

Career Assistance: Career Center staff assists students in identifying careers and majors suited to their interests, values, and skills, developing skills for job search, graduate training, or career change. Walk-in assistance is available on a daily basis in the Resource Room; also available are individual appointments with professional staff.

Workshops: The Career Center offers valuable workshops and orientations that focus on every stage of the career and academic process. Subject matter includes choosing a major, interviewing, resume writing, career and job fair preparation, graduate school application, how to access TERP Online, and Internet job search. For detailed information on workshops, see the Career Center's web site or pick up a calendar of events at the Center.

Http://www.CareerCenter.umd.edu/: Students can visit the Center on-line to identify potential employers, get tips on writing a resume and conducting a job search, find out about employers partipating in on-campus interviewng and career/job fairs, review job listings, research organizations, access other job search sites, learn about graduate programs, and much more.

Publications:
The ***Career Planning Manual*** is a special guide for career planning, conducting a job search, and applying to graduate school. Contents include resume writing guides, successful interviewing techniques, and job search strategies. A preliminary list of employers participating in the On-Campus Interviewing program is featured.
SEC in Action! is a newsletter filled with timely and relevant career and employment information-- local and national-- for the campus community. Topics include trends by career field, employment outlook for graduating seniors, "real world" tips from employers and alumni, and valuable information for students in all stages of their career process. *Both publications are available to students free of charge.*

Employer-In-Residence: The Employer-In-Residence gives students advice on resumes, cover letters, and interviewing concerns; and offers mock interviews with a videotaping review of the session. Participants represent companies which typically use Career Center services for their employment needs. To participate, students must make an appointment through the Center.

Credentials Service: Every UMCP undergraduate and graduate student can establish a permanent, professional file which serves as a depository for letters of recommendation and background information to support applications for employment and graduate/professional schools. ***NOTE:*** *All senior Education majors are required to establish a credentials file.*

Student Employment Center (SEC)

Within the Career Center, the SEC seeks to enhance the employment experiences of UMCP students through a variety of services, programs, advocacy, and research. The SEC advocates an "earn and learn" philosophy by helping students to see the connection between their work experiences and classroom learning/major, while earning experience, money, and/or credit. The SEC provides "one-stop shopping" where students can look for:
- part-time jobs
- internships
- cooperative education (co-op) positions
- graduate assistantships
- full-time employment

Students interested in pre-professional work experiences should consider an internship or co-op. Interested students should view the Center's "Earn While You Learn"to learn about these positions and find out how to pursue academic credit. For specific requirements, see *Experiential Learning Course* below.

Through the SEC's TERP (The Employment Registration Program) Online, students can access job listings and sign up for on-campus interviews from any computer with Internet access, 24 hours a day.

FEDERAL WORK STUDY STUDENTS NOTE: *Students eligible for Federal Work Study/Community Service positions should contact the Office of Student Financial Aid at 314-8313.*

TERP (The Employment Registration Program) Online: For fast and comprehensive access to employment opportunities, the Career Center recommends that every student register for TERP Online. TERP Online provides students access to SEC services (Job Listings, On-Campus Interviewing, and Resume Referral) as well as updated information on career and job fairs. TERP Online students receive special e-mail bulletins on upcoming employer events related to their major. The system is easy to use, and is accessible through any computer with Internet access. For information or assistance, contact the Career Center or access <http://www.CareerCenter.umd.edu/>. ***NOTE:*** *Students must re-register once a year in order to maintain active information in our database.*

Job Listings: Current job listings--including part-time, internship, cooperative education, graduate assistantship, and full-time positions-- are accessible 24 hours a day via TERP Online and in the Resource Room during Career Center hours.

On-Campus Interviewing: On-Campus Interviewing offers students the opportunity to interview on campus with a variety of employers for part-time, internship, cooperative education or full-time positions. To participate in On-Campus Interviewing, students must register for TERP Online. ***NOTE:*** *On-Campus Interviewing is available to recent alumni for one semester after graduation.*

Resume Referral: This resume database allows students and alumni to present their qualifications to employers who are not interviewing on campus. Through posting a resume in the SEC's database, the student joins a pool of candidates accessible to employers requesting applicants with specific skills or backgrounds to fill their current job openings. Employers review the resumes and then contact qualified candidates to arrange office interviews or request additional information. Last year alone, the Career Center sent almost 70,000 student resumes to employers. To take advantage of Resume Referral, students must register for TERP Online.

ENGINEERING MAJORS NOTE: *for part-time, internship, and cooperative education positions, contact the Engineering Co-op and Career Services office at 405-3863.*
BUSINESS MAJORS NOTE: *for part-time, internship, cooperative education, and full-time positions contact the Undergraduate Business Career Services office at 405-7103.*

Academic Courses

EDCP 108D - College and Career Advancement: Career Planning and Decision-Making. Confused about choosing a major? This course helps students identify career interests, skills, and values and how they relate to UMCP majors. Recommended for Freshmen and Sophomores. 1 credit

EDCP 108J - College and Career Advancement: Job Search Strategies. This course is designed to help students learn special skills needed to be successful in today's job market. Topics include: networking, interviewing, resume writing, and planning for your career future. Junior or Senior standing required. 1 credit

Experiential Learning Course - Courses Numbered 386: Through 386 courses, students may earn academic credit for their internship and cooperative education experiences. *NOTE: If your department of interest does not offer 386 credit, you may consider another experiential learning course number in that department.*

The following are requirements for earning 386 credit:
- To be eligible a student must have earned 56 credits, including 12 at UMCP and 3 in the department in which credit is to be awarded.
- 386 may be taken only once in any given department.
- 386 may be taken in only one department per semester.
- 386 may be taken for a maximum of 12 credits as part of an undergraduate program.
- The number of credits earned depends on the number of hours worked at the site plus time spent on completing projects as stipulated in the Learning Proposal.
- Only the work hours completed during the semester earning credit will be counted toward your total hours for credit.
- Credit will be awarded ONLY for the semester in which you are actually working at your site.

In order to earn credit, students must secure a faculty sponsor --in the department where pursuing credit-- and complete a one-page Learning Proposal. The Learning Proposal must be signed by the student, the on-site supervisor and the faculty sponsor and be submitted to the Career Center for approval.

Change of Address Procedure

Change in either mailing or permanent address can be processed AT ANY TIME DURING THE SEMESTER IN WHICH THEY OCCUR. Address changes are posted to the computer by the Office of the Bursar and the Office of Records and Registrations. Address Change Forms are available at the following places:

1. Office of the Bursar, Room 1115 or 1135, Lee Building, 8:30 a.m. to 4:30 p.m., Monday-Friday.
2. Registration Counter, Mitchell Building, First Floor Lobby, 8:30 a.m.-4:30 p.m. Monday through Friday.
3. Deans' Offices, 8:30-4:30 p.m., Monday-Friday
4. MARS Kiosks : Mitchell Building, Stamp Union, Ellicott Dining Hall, Van Munching Hall, 7:30am-11:00pm

Since many University communications to students are handled through the mail, it is imperative that accurate and up-to-date addresses be maintained throughout the enrollment period. During the academic year the permanent address for currently registered students will be used for grade reports, combined early registration schedules and bills, and other billings. The local address on file for currently registered students will be used for all other mailings. The permanent address on file for students not currently registered will be used for all mailings. Any student wishing his/her address to be kept confidential should contact the Registration Counter. All requests for non-disclosure of information will be implemented as soon as publication schedules will reasonably allow. The University will use its best efforts to maintain the confidentiality of those categories of information which a student properly requests not be publicly disclosed. The University, however, makes no representations, warranties or guarantees that information designated for non-disclosure will not appear in public documents.
WATCH FOR NEW ADDRESS CHANGE FEATURE ON THE TESTUDO WEB SITE IN EARLY MARCH.

Change of Name Procedure

A change of name can be processed at any time during the semester in which it occurs. Name Change forms are available at the Registration Counter, Mitchell Building, First Floor Lobby, 8:30 a.m.-4:30 p.m., Monday-Friday. Proof of name change (court order, marriage license, driver's license) must be submitted with name change form.

Commencement Honors

Summa Cum Laude, Magna Cum Laude, and Cum Laude are the commencement honors for excellence in scholarship. Honors are awarded to students with a GPA equal to the highest two percent (Summa), the next highest three percent (Magna) and the following five percent (Cum Laude) of the GPA distribution used in the calculations for that semester. The GPA distribution shall be computed each semester from the GPAs of the three proceeding classes of the student's degree granting unit. To be eligible for this recognition, at least 60 semester hours must be earned at or transferred with a grade to College Park. No more than six credits taken pass/fail or satisfactory/fail shall count toward the 60 hour minimum. No student with an average less than 3.300 will be considered for a commencement honor. Because grades for a term generally are officially recorded after the term's graduation day, computation of the student's GPA will not include grades for courses taken during the student's final semester at College Park. However, the hours taken during that semester will apply toward the 60-hour requirement.

Community Service Programs

Community Service Programs serves as a clearinghouse of information about community service opportunities in the Washington metropolitan area. A computerized database provides up-to-date information about volunteer opportunities for individuals and groups. An extensive series of handouts, a monthly newsletter, and a computerized list-serv featuring volunteer opportunities are also available. The office is located in 1195 Stamp Student Union and is open Monday-Friday, 8:30 a.m.-4:30 p.m. with extended hours on Wednesday until 8:00 p.m. For more information call 301-314-CARE or visit the web site, http://www.inform.umd.edu/OCA.

Academic Information Technology Services

Non-credit Training Courses (Fall 1997)

Academic Information Technology Services offers a series of training classes scheduled during evening and weekend hours. Classes in the use of workstations (e.g., the IBM PC and Macintosh, and Sun microcomputers) are designed to be a hands-on experience for those who wish to use a computer to do their class assignments and work.
The classes include: Introduction to IBM Windows 95, Introductory and Intermediate WordPerfect, Introductory and Intermediate Excel, Introductory and Intermediate Unix, Introduction to Macintosh, and Introductory Microsoft Word and PageMaker. Additional classes on Network Technologies (including e-mail, ftp, and list-serv), Web Technologies and Search Stratagies and HTML are also offered. Instructors for the classes are computer experienced students. Call 405-2941 for scheduling information, or drop by *aITs* room 1400 to register for classes. There is a $5 fee for each class and many classes have prerequisites.

WAM Labs

Workstations at Maryland (WAM) labs are Academic Information Technology Services operated open workstation labs equipped with IBM PC, Macintosh, and SPARCstation workstations, operated as stand-alone systems or connected to remote computer systems. All of the labs have one or more Hewlett Packard 600 dpi laser printers to which students, with print authorization, can direct printed output. These labs are open to anyone in the College Park university community and most are open 24 hours daily, or as posted, during the regular university semester.

WAM lab locations and hardware and software availability are noted in the free handout, "Where to Go to Use a Computer" (available from the *aITs* Information Technology Library, *aITs* room 1400). Color Apple scanners and scanning software can be found in the EPSL, Hornbake, Parking Garage II, and Worcester WAM labs. Students with floppy disks will find 5.25" drives in the Centreville and Parking Garage II labs.

Students can also apply for free computer accounts (called WAM accounts) that will give them access to electronic mail and networked file storage. From any networked computer, telnet to wam.umd.edu and type register at the login id. A series of onscreen directions and prompts will lead students through the electronic registration process.

The Counseling Center

Shoemaker Building, Phone 314-7651, Fax 314-9206
http://www.inform.umd.edu/CampusInfo/Departments/Counseling
Seeking help is a sign of strength! Many students encounter a variety of personal, social, career, and academic issues that call for assistance beyond advice provided by friends and family. Fortunately, the Counseling Center provides free and confidential counseling services to all UMCP students. To schedule an appointment call 314-7651 or stop by the Shoemaker Building. Walk-in counseling is available to minority students every day from 3 to 4 p.m.

Counseling Center Services
Personal/Social Counseling. You don't have to deal with your problems alone. In a warm and supportive environment, you can meet with a professional counselor to discuss any concern you may have related to your personal and social well-being. Among the topics many students discuss in counseling are self-esteem, stress, relationship issues, sex, family problems, and loneliness. You may see a counselor for individual counseling or join one of the many counselor-led support groups. Call 314-7651
Career Counseling. A normal part of your development in college is identifying who you are in relation to a future career. You can get help with this process in individual career counseling at the Counseling Center. Your exploration may include taking career interest tests and interpreting the results with a professional counselor or taking advantage of a computerized career information system. Whether you are choosing a major, establishing career goals, or considering job opportunities, it is important to understand how your personality, values, and interests relate to your future professional life. Career counseling at the Counseling Center is a good place to begin. Call 314-7651.
Academic Skills Counseling. Many students have academic skills that they would like to improve. If you're tired of struggling because of your own weak areas, schedule an appointment to see the Counseling Center's education specialists. They can help you enhance such skills as reading, writing, note-taking, learning science and math material, and learning statistics. Workshops cover a range of topics, including study skills, exam skills, time management, English conversation, end-of-semester survival skills, and completing your thesis or dissertation. Call 314-7693.
Workshops and Group Counseling. You can gain strength to deal with your concerns by getting together with other people who share similar problems, interests, and goals. Each semester, the Counseling Center offers weekly support groups addressing a variety of topics, such as career exploration, dissertation support, procrastination prevention, and stress management. Recent group offerings have included, "Caught in the Net," a support group for reducing dependency on e-mail and the Internet; "Circle of Sisters," a support group for black women; "Women, Food, and Obsession with Thinness," which addresses problems of body image and eating; and "Living with Illness," a group that assists people living with chronic illness. Call 314-7651.
Support for Students with Disabilities. The Counseling Center provides a range of services for students with disabilities, including help in locating interpreters for deaf or hard-of-hearing students; readers for visually-impaired students, blind students, and students with learning disabilities; and assistance with access to various buildings and facilities on campus. If you are a new or returning student, contact the Disability Support Services Office in the Counseling Center as soon as possible. Call 314-7682, voice and TTY.
Returning Students Program. If you are over 25 and returning to school after a break in your formal education, you probably have different needs than the traditional college student. The Returning Students Program is designed to help you with the transition to academic life. Workshops, counseling, and publications are available at the Counseling Center to make your adjustment to the university successful. Call 314-7693.
Testing Services. The Counseling Center administers tests for counseling purposes, such as career interest inventories, and also administers national standardized tests, such as the GRE, LSAT, MCAT, GMAT, and Miller Analogies. Call 314-7688.
Research Services. Group and individual consultation are available if you need assistance with research design and statistics and writing project proposals, theses, and dissertations. Call 314-7687.
Consultation and Evaluation for Parents and Children. Consultation, counseling and child testing are available to assist parents, single parents, and their children (ages 5-14). Call 314-7673.

Counseling Center Hours
Counseling appointments (all students):
Monday-Thursday 8:30 a.m. to 9 p.m.
Friday 8:30 a.m. to 4:30 p.m.
Minority student walk-in counseling (no appointment needed):
Monday-Friday 3 to 4 p.m.

Credit by Examination for Undergraduates

Credit may be earned by examination for any undergraduate course for which a suitable examination has been adopted or can be prepared by the department granting the credit. This option is not available, however, for courses in which the student has been registered beyond the end of the Schedule Adjustment Period, i.e., the first 10 days of classes.

Additional information regarding availability of examinations, applications, fees and other regulations is available from the Division of Letters & Sciences (L&S), Room 1117, Hornbake Library. See Wendy Japal, 314-9423. For more information, consult the undergraduate catalog.

Disclosure of Student Records (Buckley)

The University of Maryland adheres to a policy of compliance with the Family Educational Rights of Privacy Act (Buckley Amendment). With certain limitations, this Act requires and it is the policy of the University:

(1) To permit students to inspect their education records.

(2) To limit disclosure to others of personally identifiable information from education records without student's prior written consent.

(3) To provide students the opportunity to seek correction of their education records where appropriate.

Prior consent will not be required for disclosure of educational records to school officials of the University of Maryland who have been determined to have legitimate educational interests.

Certain information has been designated "Directory Information" and will be disclosed without prior consent unless a student files written notice. Directory information includes but is not limited to:

Name	Participation in Officially Recognized Activities and Sports
Address	Weight and Height of Members of Athletic Teams
Telephone Listing	Dates of Attendance
Date and Place of Birth	Degrees and Awards Received
Photograph	Most Recent Previous Educational Institution Attended
Major Field of Study	

Students who wish to limit the disclosure of Directory information or wish access to their official records should obtain the appropriate form at the Registrations Counter, Mitchell Building, and return the completed form to the Registrations Counter. **To limit disclosure of Directory information and printing of information in the student directory requests must be made within 3 weeks from the first day of the semester in which the student begins each school year.** Such requests must be filed annually within the above allotted time.

Students alleging University noncompliance with the Family Educational Rights and Privacy Act may file a written complaint with the Family Educational Rights and Privacy Office, United States Department of Education, 600 Independence Avenue, S.W., Washington, D.C. 20202-4605.

For complete University policy on access to and release of student data information, see the current edition of the *Undergraduate Catalog.*

Drug and Alcohol Abuse Policy

The illegal or abusive use of drugs or alcohol by members of the campus community jeopardizes the safety of the individual and the campus community, and is inimicable to the academic learning process. The University of Maryland is therefore committed to having a campus that is free of the illegal or abusive use of drugs and alcohol. In keeping with this commitment, it is the policy of the University that the illegal or abusive use of drugs or alcohol is prohibited on University property or as part of University activities. This POLICY is to notify students of prohibited conduct and disciplinary actions which may result from violation of University policy.

Prohibited Conduct: Drugs
The *Code of Student Conduct* prohibits, on University premises or at University sponsored activities, the

1) unauthorized distribution; 2) possession for purposes of distribution 3) use; or 4) possession of any controlled substance or illegal drugs.

"Controlled substance" and "illegal drugs" prohibited under the Code are set forth in Schedules I through V in Article 27, part 279 of the Annotated Code of Maryland.

Prohibited Conduct: Alcohol
The *Code of Student Conduct* prohibits the violation of published University regulations or policies regarding the possession, use or distribution of alcoholic beverages, as approved and compiled by the Vice-President for Student Affairs. These policies, generally described below and subject to amendment from time to time, are available for public inspection during normal business hours in the Judicial Programs Office.
The Resident Life Alcohol Policy controls the use, possession or distribution of alcohol in campus residence halls. This policy prohibits the possession or use of alcohol by any student under the age of 21 or the furnishing of alcohol to a person known to be under the age 21. It prohibits common containers (such as a keg or punchbowl) the sale of alcohol, and parties involving alcohol. Students of legal drinking age may consume alcohol in their rooms, suites or apartments only.
The Office of Campus Program Alcohol Policy controls the use, possession, or distribution of alcohol by students on University premises or at University sponsored activities. This policy prohibits the possession or use of alcohol by any student under the age of 21 or furnishing of alcohol to a person known to be under the age of 21. Alcoholic beverages otherwise may not be possessed, consumed or distributed at University sponsored events occurring on University premises unless advance written approval has been obtained from the Office of Campus Programs. In addition, the University Policy on Possession or Use of Common Containers of Alcohol prohibits the possession or use of kegs, beer balls, punch bowls, and other common containers of alcoholic beverages or a similar nature on University property, except for possession and use resulting from licensed purchase by the University's Department of Dining Services.
Disciplinary Sanctions Sanctions for violations of University drug and alcohol policies include expulsion, suspension, disciplinary probation, disciplinary reprimand, restitution, dismissal from University housing, housing probation, work or research projects, and restrictions on further use of University facilities. **The standard penalty for first time possession or use of illegal drugs is a one year suspension. The standard penalty for distribution of illegal drugs is expulsion.** Students may be accountable to both civil authorities and the University for acts which constitute violations of law and University policy. Disciplinary action at the University will normally proceed during the pendency of criminal proceedings and will not be subject to challenge on the grounds that criminal charges involving the same incident have been dismissed or reduced.

Emergency Weather Conditions

When there are severe weather conditions, you should listen to the radio or watch TV to find out whether the university has decided to close. The following are the TV channels and radio stations the university contacts when there is an announcement to **CLOSE** the university because of a severe weather emergency. **NO TV OR RADIO ANNOUNCEMENTS ARE MADE WHEN THE UNIVERSITY REMAINS OPEN. However, a message will be placed on the campus information line (405-1000) by 6:00 am to announce that the campus is open, or that normal operation has resumed following a closing for emergency weather conditions.**

Engineering Co-op & Career Services 1137 Engineering Classroom Building, (301)405-3863, co-op@eng.umd.edu (e-mail), www.coop.engr.umd.edu (Web Site)

Whether it's to wire robots in a car plant, monitor a waste water management project, or reformulate cough syrup for a pharmaceutical company, our office assists students in finding cooperative education, internship, summer, and part-time engineering positions.
Cooperative Education, Internships, and Summer Employment:
Through the Cooperative Education (Co-op) Program, students alternate semesters of full-time work and full-time study for approximately 50 weeks of work. Students are eligible to participate after near completion of their sophomore engineering requirements. Through the summer and part-time internship programs, students work full-time during the summer or part-time during the school year. Both programs provide students the opportunity to gain professional level experience, integrate theory and practice, confirm career choices, and help finance their education.

Application Process: To apply, students attend an orientation session and complete a TERP Disk that includes a resume and transcript. Workshops on completing the disk and interviewing skills are offered weekly. All students also receive a comprehensive handbook and a monthly newsletter that highlights job search tips, student work experiences, and office announcements.

Job Listings and On-Campus Interviews: All open positions and all on-campus interview schedules are posted on our 24-hour, on-line job listing system, TERP Online. This system is accessible through our home page on the World Wide Web. In addition, students have the opportunity to meet employers by participating in our job and career fairs.

22 GENERAL

English Editing for International Graduate Students

The English Editing for International Graduate Students (EEIGS) program, operating under the aegis of the University of Maryland Office for Graduate Studies & Research, offers editing services to international graduate students who must present their required seminar papers, theses, dissertations, etc. in English. This program is staffed by volunteers from the university's Retired Volunteer Corps and Golden ID group, and by volunteers from other university and non-university sources. These services are free.

The EEIGS program operates as follows:

1. Names and telephone numbers of volunteer editors on whom the student may call may be obtained by calling Mr. Freitag, the program coordinator, at (301) 277-3449.
2. The student can contact a volunteer editor to arrange for the editing services. If an arrangement does not work out satisfactorily, either the student or the volunteer editor may discontinue the service. The student may then seek another volunteer editor.
3. The student should allow a reasonable amount of time for the editing services. Long documents will not be edited on very short notice.
4. Editing services are expected to take place on the University of Maryland campus. The student is responsible for finding working space (for example, an empty classroom or office in the department in which he/she is majoring.)
5. The student is expected to inform the Director of Graduate Studies of the Department in which he/she is majoring about the aid being received through this program.

There are also graduate students and others on the University of Maryland campus who offer English language editing services for a fee. Graduate students in the Department of English who will do editing for a fee can be contacted through the Director of Graduate Studies. Department of English, South Campus Surge Building (405-3810).

The Student Employment Center of Resident Life

The Student Employment Center is a free, centralized service for students seeking on-campus employment within the Department of Resident Life. The SEC maintains jobs descriptions of all the student positions for which the Department hires. Hourly paid positions include, but are not limited to, Desk Receptionist, Community Assistant, Clerical Assistant, and Information Assistant.

Positions are available for both residents and non-residents. They may be standard paid, work-study if a student has such funds designated from Financial Aid, and workship. In the case of workship positions, a portion of the housing costs are remitted in exchange for specified work hours completed by the end of the term.

Recruitment and interviewing for Resident Assistants, leaders who serve 40 - 60 students in floors, suites, or apartments, occurs once each year, with applications available mid-September and a deadline for returning them set for the first week of October. Decisions regarding candidates take place throughout the fall, with hired and alternate candidates taking a class in the spring semester to prepare for the position.

Information regarding Graduate Assistantships with the Department of Resident Life is maintained through this office, as well. Persons who are interested in Assistantships may call the SEC and leave a name, mailing address and phone number, along with the anticipated program and semester of initial study. Information is sent out in mid-December for the following academic year, and applications are generally due February 15.

The Student Employment Center is located in Room 0102 Cecil Hall. Applications for hourly paid positions may be obtained daily from 8:30 am to 4:30 pm Monday through Friday. In order to meet with a staff member, to ask for more specific information, or to determine the staffed office hours, please call 314-5111.

Golden Identification Card Program

College Park participates in the University of Maryland's Golden Identification Card Program. This program allows eligible senior citizens to take advantage of the wide variety of course offerings at College Park. To be eligible for participation the individual must be 60 years of age or older, a legal resident of the State of Maryland and retired (not engaged in gainful employment for more than 20 hours a week). Application is made through the Office of either Undergraduate or Graduate Admissions. The appropriate application fee will be assessed. College Park tuition is waived. A fee of *$125.00 is charged each semester. This fee is the same fee that is charged to all part-time undergraduate students less the health, student activities, and athletic fees. Golden ID students register on a space available basis for a maximum of three courses during the first week of classes. Golden ID students must meet all course prerequisite and co-requisite requirements. The Golden Identification Card, with a current semester registration card will entitle eligible persons to certain academic services, including the use of the libraries, as well as certain other non-academic services. Such services will be available during any session only to persons who have registered for one or more courses for that session. Golden ID students are not eligible for Consortium courses or Continuing Education.

Golden ID students also have the opportunity to become involved with the Golden ID Student Association which provides cultural and social events, course recommendations, and peer advising. Additional information may be obtained from the Office of Undergraduate Admissions, Mitchell Building, 314-8385, or the Golden ID Student Program, 1st Floor Mitchell Bldg. 314-8219. **Fee at time of publication*

University Health Center (UHC)

The University Health Center (UHC) located on Campus Drive, across from the Stamp Union is a nationally accredited health care facility. The services provided by the UHC include: urgent care for serious illness and injury, primary care for illness and injury, dental clinic, men's clinic, women's clinic, anonymous HIV/AIDS testing, allergy clinic, asthma management and education clinic, sports medicine, physical therapy (located in the HHP Building), nutrition education, mental health clinic, travel clinic, substance abuse counseling, social services, laboratory, radiology (x-ray) pharmacy and a faculty/staff assistance program. Individual and group health education programs are available on topics such as sexual health and contraception, sexual assault, stress management, substance abuse, dental health, eating disorders, depression and suicide. The UHC is open Monday through Friday from 8:00 a.m. until 10:00 p.m., and Saturday and Sunday from 9:00 a.m. until 5:00 p.m., with varied hours during the summer, semester breaks and holidays. Students can be seen on a walk-in basis during all hours of operation or by appointment during the hours of 9:00 a.m. and 5:00 p.m. on weekdays. Appointments are strongly encouraged whenever possible to reduce your waiting time. All currently registered students are eligible to be seen. There are charges for some services, such as X-rays, lab work, dental appointments, allergy injections, physical therapy, prescriptions, CPR classes, massage, DWI/DUI classes and some mental health appointments. Students are encouraged to carry hospitalization insurance. All students' medical records are strictly confidential and may only be released by the student's consent or through a court ordered subpoena.

Sexual Harassment

Sexual Harassment by University faculty, staff, and students is prohibited by the "UMPC Policy and Procedures on Sexual Harassment." This policy and procedures can be obtained by calling the Office of Human Relations Programs (OHRP) at 405-2838. Brochures and posters are available at the same number. The OHRP also provides training and education on sexual harassment and is willing to customize a program based upon audience needs. If you suspect you have been the target, or are accused of discrimination please call OHRP.

Identification Cards

New Photo Identification Cards will not be issued to students who currently have them.

Students who registered early for the Fall 1997 semester will receive a new Registration Card along with their Class Schedule and Bill. This card will validate the Photo Identification Card. Both cards should be carried at all times. Students who have not registered will receive identification cards when they do register.

Together the Photo Identification Card and Registration Card can be used by all students to withdraw books from the libraries, for admission to most athletic, social, and cultural events, and as a general form of identification on campus. Students who have food service contracts must use the Photo Identification Card for admission to the dining halls.

There is a replacement charge of $1.00 for lost or stolen Registration Cards and $20.00 for lost, stolen, or broken Photo Identification Cards.

Questions concerning the identification system should be addressed to the Office of Registration 314-8240.

International House at Dorchester Hall

Also called "I-House", this specialty house offers undergraduates an exciting living experience, rich in cultural diversity and friendship. About 60% of the residents are from the U.S. and about 40% are from 35 countries around the globe. Through the student-run I-House Council, students organize an array of activities and events to encourage intercultural understanding within I-House and across the campus. Please call the I-House Coordinator at 314-7742 for more information, or send e-mail to: iesadv@deans.umd.edu.

International Student Information

F-1 and J-1 Visa Students: Students with F-1 or J-1 status are responsible for following the regulations of the U.S. Immigration and Naturalization Service pertaining to their visa status. The regulations affect extension of stay, transfers, off-campus employment authorization, practical training and course loads. The Office of International Education Services is the only authorized office on campus to sign documents which must be forwarded to the Immigration Service.

Students on Nonimmigrant Student (F-1 and J-1) Visas: In order to maintain full-time student status for immigration purposes, undergraduate students are expected to register for and complete a minimum credit load of 12 hours per semester; graduate students are expected to register for and complete a minimum of 48 graduate units per semester. The Office of International Education Services must be notified in advance if you are going to complete the semester below the required minimum course load. Please watch for announcements from the Office of International Education Services about future changes in immigration regulations.

Documents: Your passport must be kept valid at all times. If your I-20 or IAP-66 will soon expire you should apply for an extension at least 30 days prior to the program completion date on the document. **F-1 and J-1 students are required to carry adequate health insurance while attending the University.** There are new federal health insurance regulations for J-1 students and scholars, and their dependents, effective September 1, 1994. Students must either purchase the health insurance plan available in the Office of International Education Services, or show proof of comparable coverage. See Nancy West in the Health Center for assistance with insurance.

All Students on Immigrant and Non-Immigrant Visas: Every semester, you are required to notify the Office of International Education Services of any change in your address and/or telephone number, in addition to notifying the Office of Records and Registration.

Course Available: *EDCP 108X: Academic Skills for International Students.* This one unit course orients students to the academic and social culture of an American university, with emphasis on successful class participation, effective use of campus resources (including library and research materials), and development of academic skills, particularly written and oral communication. Sign up at Spring registration.

International Students Information and Questions: The Office of International Education Services, Room 3116A, Mitchell Building. Phone 314-7740. Email:iesadv@deans.umd.edu.

IESNEWS is a listserv (messages received on your electronic mail account) sponsored by the Office of International Education Services. Information distributed on IESNEWS is of interest to international students, scholars, and faculty at the University of Maryland. To receive messages from IESNEWS send a message to LISTSERV@UMDD.UMD.EDU. The message should say "SUBSCRIBE IESNEWS first name last name". No quotations marks. You should send the message from the email box (address) where you want to receive IESNEWS mail. If you need assistance, you can reach the list manager at iesnews@deans.umd.edu.
We have a new homepage! You can reach IES from UMCP's main homepage (http://www.umcp.umd.edu/) by selecting "international programs" or for direct access to the International Programs page use http://www.inform.umd.edu:8080/EdRes/Intl/.

Libraries at UMCP

UMCP Libraries include over 2.5 million volumes, almost 5.1 million microform items, and some 26,000 current periodicals and newspapers, as well as over 874,000 government documents, some 214,000 maps and approximately 155,000 nonprint media sources. Reference sources, both automated and print, provide up-to-date and effective access to information.

The Theodore R. McKeldin Library is the main library of the UMCP library system containing automated and printed reference works, periodicals, circulating books, and other materials to support mainly the graduate and research programs of the University in the agricultural and life sciences, social sciences, and humanities. McKeldin houses special collections including manuscripts and archives, the East Asia Collection, the Prange Collection, Maryland state documents and Maryland-related books and manuscripts, University of Maryland archives, U.S. government documents, and the National Trust for Historic Preservation Collection.

The Hornbake Library houses reference, circulation, and reserve services aimed for undergraduates, and has a study room open all hours during spring and fall semesters. The Nonprint Media Services Department on the fourth floor features color video tape players and playback units, enclosed rooms equipped with instructors' consoles for the use of nonprint media materials, dial access capabilities for instructional purposes as well as tapes, records and films for use of the university community. The Hornbake Library also houses the National Public Broadcasting Archives and the Broadcast Pioneers Library of American Broadcasting which are accessible by appointment only.

Art Library (Art-Sociology Building)
Architecture Library (Architecture Building)
Engineering and Physical Sciences Library (Mathematics Building)
Music Library (3rd floor, Hornbake Library)
White (Chemistry) Memorial Library (Chemistry Building)

All UMCP students, faculty, and staff may borrow from all UMCP Libraries and other campuses in the University of Maryland system.

Non-Discrimination Policy

The University of Maryland is an equal opportunity institution with respect to both education and employment. The University's policies, programs and activities conform to pertinent federal and state laws and regulations on non-discrimination regarding race, color, age, national origin, sex, or disability. Inquiries regarding compliance with Title VI of the Civil Rights Act of 1964 as amended, Title IX of the 1972 Education Amendments, Section 504 of the Rehabilitation Act of 1973, The Americans with Disabilities Act or related legal requirements should be directed to:

Participation by Students in Class Exercises that Involve Animals

Students who are concerned about the use of animals in teaching have the responsibilities to contact the instructor, prior to course enrollment, to determine whether animals are to be used in the course, whether class exercises involving animals are optional or required and what alternatives, if any, are available. If no alternatives are available, the refusal to participate in required activities involving animals may result in a failing grade in the course. Departments including courses where animals are used must actively inform students of such courses including, but not limited to, notices in the Catalog.

The University of Maryland, College Park campus, affirms the right of the faculty to determine course content and curriculum requirements. The University, however, also encourages faculty to consider offering alternatives to the use of animals in their courses. In each course, the instructor determines whether the use of animals in classroom exercises will be a course requirement or optional activity. The following departments currently have courses that may require animals to be used in class activities. Animal Sciences, Microbiology, Poultry Science, Psychology, Veterinary Medicine, Zoology, and courses with the NFSC prefix.

Shuttle-UM

Shuttle-UM, UMCP's transit system, is operated by University students and offers a variety of transportation services for all University students, faculty, and staff. Commuter service operates 5 days a week during the Fall and Spring semesters when classes are in session. Buses travel between campus and nearby neighborhoods, apartment complexes, shopping centers, and Metrorail, Amtrak, and MARC train stations. Only a valid University ID is needed to board a Shuttle bus. Exceptions are made for the "College Park Metro" and "Park and Ride" routes - University guests are welcome on these routes without identification. Paratransit service is available on campus 5 days a week for people with temporary or permanent disabilities. Security service operates on campus 7 nights a week when classes are in session (including summer semesters). Shuttle buses are available for charter as well. Charter buses travel anywhere in Washington D.C., most of Maryland and parts of Northern Virginia. For more information on these services call Shuttle-UM, 314-2255, or stop by the Office of Commuter Affairs, 1195 Stamp Student Union, 314-5274. Information is also available under "Transportation" on the InforM network. You may access Shuttle UM's web page directly at http://www.inform.umd.edu/shuttle.

Smoking Policy

The University of Maryland College Park has found that a significant percentage of faculty, staff and students do not smoke, smoke is offensive to many non-smokers, it is harmful and even debilitating to some individuals due to their physical condition, and there is evidence suggesting that passive smoke inhalation is harmful to non-smokers. In response to the above considerations, it is hereby established as the policy of UMCP to achieve a public facility environment as close to smoke-free as practicably possible. Obtaining and maintaining this result will require the willingness, understanding, and patience of all members of the Campus community.

It is the policy of UMCP to follow all federal, state, or local laws regarding smoking. This Smoking Policy is in addition to any such policies which may be in effect.

Guideline: Smoking is prohibited in indoor locations.

Implementation: Unit heads or their designees are responsible for assuring that this policy is communicated to everyone within their jurisdiction and to all new members of the Campus community; implementing the policy and guideline and assuring that appropriate notice is provided. Developing guidelines to embrace all special circumstances in the campus is impossible. If unit heads find circumstances in their areas that they believe warrant exception from particular provisions in this Smoking Policy and Guidelines, they may address requests for specific local exceptions to the President or his or her designee.

Compliance: This policy relies on the thoughtfulness, consideration, and cooperation of smokers and non-smokers for its success. It is the responsibility of all members of the Campus community to observe this Smoking Policy and Guideline. Complaints or concerns regarding this policy or disputes regarding its implementation should be referred to the immediate supervisor for resolution. If a resolution cannot be reached, the matter will be referred by the supervisor to the appropriate department head or vice president for mediation.

Review: The provisions and guidelines attached to this Smoking Policy shall be subject to future review and revision to ensure that the objective is obtained. Special attention shall be given to determining if voluntary compliance without disciplinary sanctions has proven satisfactory.

Residential Housing: This policy does not apply to privately occupied portions of University-owned residential space, such as dormitory rooms, apartments, and houses.

Social Security Number

The University of Maryland uses an individual student's social security number as his or her identification number for University records. If you do not wish the University to use your social security number for this purpose, write the Office of Registration, Mitchell Building, College Park, Maryland 20742. The University will then assign its own number to you for record keeping purposes.

Study Abroad

Advising is available on study, travel, and work abroad opportunities. Listed below are study programs sponsored by the University of Maryland. If you do not see a program that interests you, advisors can refer you to numerous other programs sponsored by U.S. and foreign institutions.

Study in London—The curriculum consists of courses in the humanities, business, social sciences and sciences. Students are able to live in dorms, in flats with other program participants or with a British family to increase their immersion in British life.

Exchanges in Engineering and Science - Students may study in either Canada or Mexico for a semester or a year. Language competence may be required.

Semester in Spain - Offers Spanish language and culture studies at the University of Alcala de Henares. Students may also enroll in an internship, or in a course in Spanish Literature, Business or Civilization. Spring 1998.

January Session in Denmark - Sponsored by College Park Scholars International Studies, this English-language program focuses on contemporary European issues, including European integration/disintegration, European security, the role of government and civil society, and European business economy.

Study in Israel—Offers a semester of study in Israel. Students attend Tel Aviv University where they take courses taught in English that focus on Israeli and Middle East Studies, fall and spring semesters.

Study in Denmark—The curriculum offers courses in English focusing on humanities and social sciences, engineering, international business and marine environmental studies. Students are housed with families or in dorms.

Study in Brazil—Offers courses in Portuguese at the Pontifical Catholic University of Rio de Janeiro.

Study in France—This program offers special courses in French for foreigners or regular courses at the University of Nice for a full year or spring semester.

Study in Italy—Students take courses at the Institute of Italian Studies, which is comprised of the Lorenzo De'Medici Institute and the Art Institute of Florence. Classes in English, fall and spring semesters.

Study Business in Spain or Germany—Under a grant from the U.S. Department of Education, International Business and Foreign Language Studies (IBFL) has created two programs focusing on business and Spanish or German.

Maryland in Mexico City—Spanish language and Latin American studies, fall and spring semester.

German and Engineering—As part of a dual degree program, students spend six months in Germany or outside Europe studying the language and completing an internship with an engineering company.

Summer programs—For 1998 the following will be offered: Study architecture in Europe. Improve your language skills by studying German language in Kassel, Germany, beginning Spanish language in Taxco, Mexico, and advanced Spanish language in Madrid, Spain. Participate in fieldwork in Costa Rica.

Maryland Exchanges—There are exchanges with schools in England, Japan, Korea, Austria, Sweden, Spain and Germany. Most require at least two years of appropriate language or subject study and a 3.0 G.P.A.; many offer scholarships.

Transcript Services

Unofficial Transcripts:

Unofficial transcripts are available for currently enrolled students at MARS Kiosks (Van Munching Hall, the Stamp Union, Ellicott Dining Hall, and the Mitchell Building), and under ***Student Services*** on the Testudo Home Page (http://www.testudo.umd.edu). Students can also review unofficial ADVISE copies which are available at college offices and on UMSTARS (see below for UMSTARS information)

Official Transcripts:

If record information is needed for other purposes, please request an official transcript. There is no charge, and for your convenience, there are four ways to request an official transcript:

1. Come to the Records & Registrations Office, first floor, Mitchell Building. Upon presentation of identification, students who were enrolled 1975 and after can receive their official transcript on the spot.

2. Written requests may be mailed or faxed to the Records Office. Please include your name or former name, social security number, and dates of attendance.

Records Office
Room 1101 Mitchell Building
University of Maryland
College Park, MD 20742
FAX: 301-314-9568

No need to come to campus!
Use Testudo on the Web to request transcripts.

3. MARS Kiosks - Requests to have official transcripts mailed can be made at any of the four Kiosks on campus (Van Munching Hall, the Stamp Union, Ellicott Dining Hall, and the first floor of the Mitchell Building).

4. World Wide Web Testudo - Official Transcript requests can now be made on the Web for students with PINs (personal identification numbers). Use Testudo - http://www. testudo.umd.edu and select *Student Services.*

NOTE: Generally mail-in, faxed, Kiosk and Testudo requests are processed and mailed the following business day. A transcript cannot be processed if an outstanding debt is owed to the University. Contact Records and Registrations, 314-8240, if you have any questions.

Transfer Credit Evaluation Center

The Transfer Credit Evaluation Center provides transfer credit information and assistance to transfer advisors and students. This service, a joint effort between the Offices of Undergraduate Admissions and Records and Registrations, is computerizing and consolidating the transfer credit process. Students and advisors work together to decide how courses fit into a student's individual program, while the Center provides information on course equivalencies, credit reports and articulation tables. If you have any questions about the Center please call 301-314-8385 or 314-8257.

Tutorial Services

Tutorial services are available to all eligibleUMCP students for most 100- and 200-level courses. Students will be tutored by highly skilled, selectively chosen graduate and undergraduate students. To request tutoring, go to the office of Academic Achievement Programs (AAP) Room 0112 Chemistry Building. You will be assigned a tutor at that time, or shortly thereafter. It is advisable to submit requests for tutoring early in the semester.

Students interested in becoming paid tutors should call 405-4749 or go to Room 0112 Chemistry Bldg. to pick up an application and to obtain further information.

Our office also maintains an extensive collection of past exams and quizzes for courses in chemistry, math, and various other subjects, which students may request, copy and return. To request past examination papers, go to Room 0112 Chemistry Bldg. You must present a valid University ID before receiving any past exam papers.

UMSTARS-University of Maryland Student Transactions, Audit and Records System

UMSTARS is a computer system which enables students to view personal and academic information. Information is updated every Sunday. Students can use UMSTARS to verify the accuracy of personal information, evaluate progress toward a degree, identify academic strengths and weaknesses, determine the extent to which UMCP CORE or USP requirements have been met, check the status of transfer credit equivalency requests, and examine billing history.

UMSTARS can easily be accessed at *aITs* (Academic Information Technology Services) WAM labs, any of the more than 800 computer workstations across campus, in college advising offices, or any modem equipped computer (including dial-up lines from home). Look for the UMSTARS menu option on campus computer lab menus, or dial "telnet umstars" from remote sites. If you need assistance connecting to the campus network call *aITs* at 405-1500. For questions about UMSTARS call the Helpline at 314-1600.

Veterans Benefits

Students attending the University under the Veteran's Education Assistance Act may receive assistance and enrollment certification at the Veterans Certification Office in Records and Registrations on the 1st floor of the Mitchell Building. The Staff is available to assist regarding monthly educational assistance checks as well as other benefits such as tutoring assistance and vocational rehabilitation services.

It is the responsibility of veterans and dependents receiving VA benefits to notify the Veterans Certification Office of every change of course program. The following types of changes must be reported: credit level or grading option change, change of major, change of address, graduation, academic dismissal or reinstatement actions, and intent to transfer from the College Park Campus. The University Veterans Office is required to notify the U.S. Veterans Administration Office of the above changes to prevent delays in receipt of benefits.

ACADEMIC ADVISORS

Advising *(Undergraduate Students)*

Academic advising is an essential part of an undergraduate's educational experience at the University of Maryland. It is available to all students at College Park, but it is the responsibility of the student to make arrangements for advising with the appropriate person. Students are encouraged to use the many advisement opportunities available.

Note: For the following groups advising is mandatory:

Newly admitted first-year and transfer students, concurrent enrollment students, students on academic warning, students seeking reinstatement after dismissal or withdrawal, students nearing senior status, students not meeting fundamental studies requirements, student athletes, and students in certain majors and colleges.

Undergraduate advisors, their room numbers and telephone extensions are listed below. E-mail addresses are given for some colleges and advisors. Students who have general questions about campus programs and advising policies may visit or call Letters & Sciences, Room 1117, Hornbake Library, 314-8418, or e-mail askls@deans.umd.edu

ACADEMIC PROGRESS/COURSE NUMBERING/REPEAT POLICY

Requirements for Satisfactory Academic Progress—*Undergraduate Students*

THE FOLLOWING STANDARDS FOR UNDERGRADUATE ACADEMIC PERFORMANCE BECAME EFFECTIVE IN THE FALL 1984 SEMESTER. THEY APPLY TO ALL UNDERGRADUATE STUDENTS ON THE COLLEGE PARK CAMPUS, WHETHER PREVIOUSLY ENROLLED OR NEWLY ADMITTED.

GRADE POINT AVERAGE (G.P.A.)

1. Requirements for satisfactory academic progress are based solely upon grade point average. This is computed by dividing the TOTAL NUMBER OF QUALITY POINTS accumulated in courses for which a grade of A, B, C, D, or F has been assigned by the TOTAL NUMBER OF CREDITS ATTEMPTED in those courses. Courses for which a grade of "P", "S", "I", or "NGR" has been assigned are NOT included in computing the G.P.A.
2. Each letter grade has a numerical value: A = 4; B = 3; C = 2; D = 1; F = 0. Multiplying this value by the number of credits for a particular course gives the number of quality points earned for that course:

A = 4
B = 3
C = 2
D = 1
F = 0

× NUMBER OF CREDITS = TOTAL QUALITY POINTS FOR THE COURSE

3. An example of how a SEMESTER G.P.A. and a CUMMULATIVE G.P.A. are calculated is given below:

Course	Credits Attempted	Grade	Quality Points
ENGL 101	3	C	6
MATH 110	3	B	9
ZOOL 101	4	A	16
PSYC 100	3	D	3
HIST156	3	F	0
Current Semester Totals	16		34
Previous Semester Totals	27		74

SEMESTER GPA = SEMESTER QUALITY POINTS / SEMESTER CREDITS ATTEMPTED = 34/16 = 2.125

CUMULATIVE GPA = TOTAL QUALITY POINTS / TOTAL CREDITS ATTEMPTED = 108/43 = 2.511

4. When a course is REPEATED, all grades will be included for the purpose of determining the number of quality points used to calculate the cumulative grade point average. First semester students and freshmen through the first 24 credits will receive quality points appropriate for the higher grade when calculating the grade point average. See also, "REPEATING COURSES" below.

SATISFACTORY PERFORMANCE

A student whose cumulative G.P.A. is at least 2.00 will be considered as making satisfactory academic progress at the College Park campus.

Within any given semester, a student who completes 12 or more credits (excluding grades of 'P' and 'S') with a SEMESTER G.P.A. of 3.500, or higher, will be awarded **"ACADEMIC HONORS."** This notation will be placed on the student's transcript.

UNSATISFACTORY PERFORMANCE

Students with a CUMULATIVE G.P.A. of less than 2.00 fall into three categories: UNSATISFACTORY PERFORMANCE, ACADEMIC WARNING, and ACADEMIC DISMISSAL. The cumulative G.P.A. that defines each of these categories varies according to the CREDIT LEVEL as noted below.

CREDIT LEVEL = Total credits earned from courses with grades of A, B, C, D, F, P, S and transfer credit from other institutions, Advanced Placement, CLEP and other similar tests in which credit is given.

CREDIT LEVEL	UNSATISFACTORY PERFORMANCE	ACADEMIC WARNING	ACADEMIC DISMISSAL
0-13	1.290-1.999	0.230-1.289	0.000-0.229
14-28	1.780-1.999	1.280-1.799	0.000-1.279
29-56	1.860-1.999	1.630-1.859	0.000-1.629
57-74	1.940-1.999	1.830-1.939	0.000-1.829
75 OR MORE	—	1.940-1.999	0.000-1.939

1. Students whose cumulative G.P.A. falls within the UNSATISFACTORY PERFORMANCE category at the end of any semester will be urged, in writing, to meet with an advisor.
2. Students who receive an ACADEMIC WARNING will have that notation entered on their transcript and will be informed, in writing, to consult with an advisor prior to the beginning of their next semester. STUDENTS WHO DO NOT MEET WITH AN ADVISOR WILL NOT BE ALLOWED TO DROP OR ADD COURSES OR TO REGISTER FOR THE FOLLOWING SEMESTER.
3. ACADEMIC DISMISSAL
   A. Depending on the credit level attempted, students will be academically dismissed at the end of any semester when their CUMULATIVE G.P.A. falls into the ACADEMIC DISMISSAL range.
   B. After attempting 60 or more credits, any student who receives an ACADEMIC WARNING for TWO CONSECUTIVE SEMESTERS will be academically dismissed.
   C. No student transferring to the College Park Campus from OUTSIDE the University of Maryland system will be academically dismissed at the END OF THE FIRST SEMESTER if the cumulative G.P.A. is 0.23 or higher. After this first semester, the student will be subject to normal standards for academic progress. NOTE: This provision does not apply to students reinstated or readmitted to the College park Campus. A transfer student is defined as a student who has attended any regionally accredited institution of higher education following graduation from high school and attempted 9 or more credits.

ADDING/DROPPING COURSES

1. The FIRST TEN DAYS OF CLASSES during the Fall and Spring semesters are designated as being the SCHEDULE ADJUSTMENT PERIOD. A similar period of time is set aside during both summer sessions.
2. During the schedule adjustment period, students may ADD courses, DROP courses, or CHANGE SECTIONS. PART-TIME STUDENTS should pay particular attention to DIRECTIONS/DEADLINES in the Schedule of Classes to avoid incurring additional charges.
3. Courses ADDED during the schedule adjustment period will appear on the student's permanent record along with courses previously listed.
4. Courses DROPPED during the schedule adjustment period will NOT appear on the student's permanent record.
5. **Drop Policy**—The DROP PERIOD for Undergraduate Students will begin at the close of the Schedule Adjustment Period and terminate at the END OF THE TENTH WEEK OF CLASS. DURING THIS DROP PERIOD, A STUDENT MAY DROP A MAXIMUM OF FOUR CREDITS. If a course is more than four credits, the student may drop the entire course. In the case of a variable credit course, the credit level may be reduced by up to four credits.

   Courses dropped after the schedule adjustment period will be recorded on the student's transcript with a "W" notation. This mark is NOT used in computing the semester or cumulative G.P.A.

REPEATING COURSES

1. Students may have one repeat of any given course in which a grade of A, B, C, D, F, P, S, or W has been earned on their records. If a course is repeated in which a student already has earned a grade of A,B,C,D,P, or S, the subsequent attempt will not increase the total credits earned toward the degree. All attempts at a given course resulting in one of the above noted grades will be included in the computation of the grade point average.
2. A student may register for a course NO MORE THAN TWO TIMES. A course dropped with a "W" notation will count as one of these two registrations. If a student withdraws from all courses during a semester these courses will not count as one of the two registrations.
3. Incompletes—The mark of 'I' cannot be removed through re-registration for the course or through "credit by examination."
4. For complete information on the Repeat Policy (see below) or your academic advisor.

Students who need additional information about the STANDARDS FOR SATISFACTORY UNDERGRADUATE PROGRESS OR ABOUT OTHER ACADEMIC POLICIES AND REQUIREMENTS AT College Park should immediately contact an ACADEMIC ADVISOR in their college or department.

Course Numbering System

Number	Eligibility
000-099	Non-credit course
100-199	Primarily courses for first-year students
200-299	Primarily sophomore course
300-399	Junior, senior course not acceptable for credit toward graduate degrees
400-499	Junior, senior course acceptable for credit toward some graduate degrees
500-599*	Professional School course (Dentistry, Law, Medicine) or post-baccalaureate course (not for graduate degree credit)
600-699	Course restricted to graduate students
799	Masters Thesis credit
899	Doctoral Dissertation credit

NOTE: Courses with last digit of 8 or 9 can be repeated for additional credit

UNDERGRADUATES—eligible to register for courses numbered 000-499.

GRADUATE—eligible to register for courses numbered 400-899.

*Not applicable to Graduate or Undergraduate degrees, and not included in GPA calculations.

Repeat Policy-Undergraduate Students

The following policies apply to ALL courses that may not be repeated for additional credit.

1. The following students are required to follow the **new** Repeat Policy:
   a. All new freshmen who began at UMCP Fall 1990 and after.
   b. All transfer students.
   Exceptions:
   - Students from Maryland Community Colleges who began at UMCP Fall 1990 and after
   - Students attending UMBC's College of Engineering from Fall 1990 through Fall 1991.
2. There is a limit to the number of times a student may repeat a course. **Students may have ONE repeat of any course in which they earned an A, B, C, D, F, P, S, W, I, NGR, or Audit;** they cannot be registered (after the Schedule Adjustment Period) for any given course more than twice. A student's Dean's Office may grant an exception allowing an additional course repeat. In this case, students must present a plan for successfully completing the course. **All attempts WILL be counted toward the total limit for repeatable credits.**
3. Students may repeat no more than 18 credits.
4. The grade point average will include all attempts at a given course that results in a grade of A, B, C, D, or F. However, to help **freshmen and transfer students** adjust to the UMCP campus, the following two exceptions allow for the cumulative G.P.A. to be calculated so that **only the higher grade is included:**
   a. When the repeated course was taken within the student's first semester at UMCP,
   or
   b. When the repeated course was taken within the student's first 24 credit hours attempted (including transfer credits) or within the semester during which the student reached the 24th credit hour attempted
5. Any grade earned in prior attempts of a repeated course will appear on the student's transcript, regardless of whether the grade is dropped from, or averaged into, the cumulative grade point average.
6. Repeat by transfer—If a student repeats by transfer a course that was taken before or during the semester in which the student reached 24 credits attempted (including transfer credits) and the transfer grade is higher, then the original grade in the course will be excluded from the G.P.A. calculation.
   - If the course was taken after the semester in which the student reached 24 credits attempted, then the transfer course will not replace the original grade in the G.P.A. calculation. Special exceptions can be requested by the student's college dean in unusual circumstances.

NOTE: SEE COLLEGE OF EDUCATION REPEAT ON NEXT PAGE

Full-Time Status

FULL-TIME STATUS FOR UNDERGRADUATE STUDENTS WILL BE BASED ON REGISTRATION FOR 12 OR MORE SEMESTER HOURS. Official status (either full-time or part-time) for academic purposes will be determined on the basis of a student's registration at the end of the Schedule Adjustment Period. The Schedule Adjustment Period is defined as the first ten days of classes.

FULL-TIME status is based on the following criteria:

1. Registered for 12 or more semester hours at the end of the Schedule Adjustment Period.
2. Courses registered for **AUDIT** are not included in the calculation of credits for full-time status.
3. UMEI PROGRAM Students enrolled in UMEI 001-004 are considered full-time students. If enrolled in UMEI 005 (semi-intensive), to meet the full-time requirement, undergraduate students must also register for 6-8 credits appropriate to their program.

NOTE: Students on scholarships and grants are expected to maintain a semester credit load of 12 hours. If the registration of a student with a scholarship or grant falls below the required credit hours, the scholarship or grant may be cancelled. Cancellation of a scholarship or grant without subsequent payment of amounts due will lead to an indebtedness to the University. Such indebtedness can in turn lead to severance of services by the University. Students receiving financial aid are strongly encouraged to contact a financial aid counselor prior to dropping below full time status. Additional information may be obtained from the Office of Student Financial Aid, Room 0102 Lee Bldg., 314-8313

Repeat Policy Prior To Fall 1990

The following students should follow the old Repeat Policy in the Undergraduate Catalog:

1. Students who began at UMCP before Fall 1990 (including students who entered UMCP for summer 1990)
2. Transfer students who began at a Maryland Community College before Fall 1990.
3. UMBC College of Engineering students who began before 1990.

College of Education- REPEAT POLICY

This policy applies only to students in the College of Education

- All registrations in student teaching, regardless of whether a student withdraws or takes a leave of absence, will be counted as an attempt under the campus repeat policy. Only two registrations will be allowed.

- After two registrations, further attempts at student teaching must be approved by the department and school system professionals involved in the candidate's student teaching experience.

Major Changes

If you wish to process a major change, go to the college associated with your desired new major to obtain approval, advisement information, and process the change. Changes can be made with an advisor using the Student Information System Major Change Processor.

Students contemplating a change in major to Architecture, Business & Management, Engineering, Government & Politics, Journalism, Landscape Architecture or Psychology should contact the Office of Undergraduate Admissions, 314-8385 for additional information and an up-to-date list of special admission requirements for these majors. Students considering majoring in Education should contact the College of Education. Students with fewer than 56 credits not admitted directly into these programs may be admitted to the Division of Letters and Sciences, by going to the Undergraduate Advising Center and indicating a desire to do so.

Second Major: A student wishing to complete a second major in addition to his/her primary major, must obtain written permission from both the Dean of the primary major college and the Dean of the secondary major college. Forms for application to a second major are available at all college offices.

NOTE: A student must be enrolled in the major program from which he or she plans to graduate when registering for the final 15 hours of the baccalaureate program.

Second Degree: Refer to the Undergraduate Catalog for Second Degree information.

Foreign Language Placement

Students with prior experience in a foreign language are expected to enroll in courses at the highest level appropriate to their background. A student whose knowledge of a foreign language as deemed by the course chairperson to be above the level of the course requested by the student may not take that course except on an audit basis.

A student who is a native speaker and who is enrolling in a basic language course is expected to identify him/herself to the instructor to discuss proper placement.

NOTE: If you have taken an advanced placement exam in a foreign language contact the appropriate department to determine at which course level you should enroll.

Latin Courses: Students who have had Latin in high school are encouraged to work at the highest level of which they feel capable. The department advisor, Professor Eva Stehle, located in room 2407C of Marie Mount Hall, will help students identify the appropriate courses in which to enroll. Normally students with less than one year of high school Latin take LATN 101. Those who enter with a full year of high school Latin register for LATN 102, with two full years, LATN 201. College credit is given to students who have earned 4 or 5 on the Advanced Placement Test in Latin.

French Department: Students who wish to register for FREN 101-203 must do so in accordance with the guidelines below. Exceptions may be granted only by written permission of the course chairperson. A student whose knowledge of French as deemed by the course chairperson to be above the level of the course requested by the student may not take that course except on an Audit basis.

Placement Guidelines:

FREN 101: For students who have never studied French or who have studied less than two years in high school.

FREN 102: For students who have completed FREN 101 on this campus.

FREN 103: For students with two years of high school French. This is a review of work normally completed by the end of Level 2. Students will not receive credit for FREN 103 if they have already received credit for FREN 102.

FREN 203: For students whose high school transcript shows completion of Level 3.

The French Department does not offer placement testing. For further assistance please contact the Language Supervisor at 405-4024.

Spanish Department. Students who wish to register for Spanish 101-211 must do so in accordance with the guidelines below. Any exception necessitates permission from the Department of Spanish and Portuguese. Students must present their high school transcript for proper placement on the first day of class if they wish to enroll in SPAN 101, 102, 103, 201 or 202. See individual course description for more details.

A student whose knowledge of Spanish as deemed by the undergraduate advisor or the course chairperson to be above the level of the course requested by the student may not take that course except on an audit basis. Students who have taken the equivalent of 201 at another institution, are deemed to have satisfied the language requirement for Arts and Humanities.

Students will not receive credit for SPAN 103 if they already have credit for Spanish 102. When a student receives credit for any course above 102, he/she will not receive credit for any course which precedes it if it is in the same sequence. For example, if a student has credit for SPAN 311 (Advanced Conversation), he/she may not receive credit for SPAN 211 (Intermediate Conversation), if taken subsequently.

Consult the Placement List below to determine the appropriate Spanish level you may register for. Please consult the Department Advisor for additional information.

Spanish 101
0 years of Spanish
Level 1 Spanish
Level 2 Spanish with a grade of C or below

Spanish 102
Spanish 101 at the University of Maryland or equivalent course at another university
Level 2 Spanish with a grade of A orB *(preferable placement is SPAN 103)*

Spanish 103
Level 2 Spanish with a grade of A or B
Level 3 Spanish with a grade of C or below
Native speakers or majors of another romance language

Spanish 201
Spanish 102 or 103 at the University of Maryland or equivalent course(s) at another university
Level 3 Spanish with a grade of A or B
Level 4 Spanish with a grade of C or below

Spanish 202 or 211
Spanish 201 at the University of Maryland or equivalent course(s) at another institution
Level 4 Spanish or higher with a grade of A or B

Spanish 206
For students who speak Spanish (e.g. have grown up speaking Spanish, have lived in a Spanish speaking country) but have little or no formal courses in Spanish

Spanish 207
Spanish 202 or concurrent registration in Spanish 202

Chinese Placement: Non-majors are required to have an interview with the program placement advisor. Dr. Scott McGinnis, before they will be permitted to enroll for any Chinese language course (except CHIN 213, 313, 314, 315, 403, 404, 421, 422.)

German and Spanish Placement Schedule: During the semester there will be placement testing in Room 0106, Shoemaker Building. Testing will be on Tuesday, September 2 at 2:00 p.m. and Wednesday, September 3 at 3:00 p.m. in the Testing Room, Shoemaker Building. Bring a picture I.D. in order to be admitted. All other times call D. Adelstein 314-7688 for an appointment.

College Foreign Language Requirements

College of Arts and Humanities Requirements: Students must demonstrate proficiency in a foreign language in one of the following ways.

1. Successful completion of a 12 credit sequence or intermediate level in college language courses.
2. Successful completion of level 4 in one language or level 2 in each of 2 languages in high school.
3. Successful completion of a language placement examination in one of the campus language departments offering such examinations.

College of Journalism Requirement. Completion, up to three courses with at least one course at the intermediate level and no more than one course at the introductory level. *(High School equivalency does not satisfy this requirement.)* Students may opt for a quantitative reasoning track in lieu of the language skills requirement.

Pass-Fail Option (Undergraduate Students)

1. To register for a course under the pass-fail option, an undergraduate must have completed 30 or more credit hours with a G.P.A. of at least 2.0. At least 15 of these credit hours must have been completed at UMCP with a University of Maryland G.P.A. of at least 2.0
2. Courses for which this option applies must be electives in the student's program. The courses may not be college, major, field of concentration, or general education program requirements.
3. Only one course per semester or one course per summer session may be registered for under the pass-fail option.
4. No more than 12 semester hours of credit may be taken under the pass-fail option during a student's college career.
5. Students may not choose this option when re-registering for a course.
6. When registering under the pass-fail option, a course that is *passed* will count as *hours* in the student's record but will not be computed in the grade point average. A course that is *failed* will appear on the student's record and will be computed both in the overall average and in the semester average.

NOTE: CHANGES OF GRADING OPTION MAY BE PROCESSED ONLY DURING THE FIRST TEN DAYS OF CLASSES. GRADUATE STUDENTS are not eligible for the PASS-FAIL grading option.

UMEI Program

Students enrolled in UMEI 001-004 are considered full-time students. If enrolled in UMEI 005 (semi-intensive), to meet the full-time requirement, undergraduate students must also register for 6-8 credits appropriate to their program.

Undergraduate Student Classifications

Freshman	1-27 semester hours	**Junior**	56-85 semester hours
Sophomore	28-55 semester hours	**Senior**	86 to at least 120 semester hours

**Zero level course work is not used in the calculation of cumulative credit hour totals.*

Zero-Level Courses

*** MATH 001* MATH 002***

These courses carry credit for billing and determination of full-time and part-time status. These courses are excluded from the calculation of semester and cumulative grade point averages.
MATH 001/002 fees are discussed under Fees and Expenses.

Expectations for Advising

The following set of principles allows both students and advisors to have a clear understanding of their roles and individual responsibilities. Advising may be conducted at several levels and by different people. Each academic unit has the discretion in the establishment of its advising plan to address the issue of who provides the advising. Several types or advising are listed below:

- Basic advising directed at the identification and satisfaction of university, program, and departmental requirements.
- Advising directed at identifying and evaluating potential academic majors and careers.
- Advising directed at evaluating choices within academic majors.
- Advising upper-level students on career options, graduate school, etc.
- Advising that focuses on personal development. This is a mentoring process, which may or may not develop between a student and a faculty or staff member.

A student is entitled lo effective academic advising. The student can expect:

- Accurate and up-to-date information about departmental programs.
- Reasonable access to faculty and advisors throughout the semester.
- Adequate staffing to offer advising to all new students at orientation and all early registrations.
- Faculty and advisors with an up-to-date knowledge of departmental and university programs and requirements.
- Transfer evaluation completed within the first semester at UMCP for all students transferring to College Park.
- An individualized audit be prepared on request when the student has completed 75 credits and is within three semesters of his/her expected graduation.

At the same time that the student has expectations for the advising process, the advisor also has expectations. Among these expectations are:

- The student must recognize that the final responsibility for his/her education is his/her own. Advisors can only help.
- The student reads university, college. and departmental materials (such as the catalog, regulations listed in the schedule of classes, departmental handbooks, handouts about the options and sequences in the student's major) before coming to see an advisor.
- The student recognizes that there are different types of advising and different people to do the different types of advising. The student should ask appropriate questions for the different kinds of advisors. For example, faculty are best able lo advise on career opportunities, grad school, etc.; college advisors are probably best on university regulations; peer advisors know the most about individual professors, workload expectations. balancing the course load in a given semester. etc.
- The student understands that no single advisor can answer everything.
- The student should schedule an advising appointment well ahead of his/her registration appointment. It is unreasonable for the student to expect the advisor to drop what he/she is doing 15 minutes before the student's legislation appointment to help the student. Students unable to keep appointments should notify the advisor.
- The student prepares an academic plan and a proposed schedule of classes before coming to see an advisor. The student should bring these and other appropriate material lo the advising session.
- The student has an agenda for the advising session that includes items to be discussed and questions to be answered.

Academic Dishonesty

Academic dishonesty is a corrosive force in the academic life of a university. It jeopardizes the quality of education and depreciates the genuine achievements of others. Apathy or acquiescence in the presence of academic dishonesty is not a neutral act. **All members of the University Community—students, faculty, and staff—share the responsibility to challenge and make known acts of apparent academic dishonesty.**

Any of the following acts, when committed by a student, is an act of academic dishonesty; however, this is not an inclusive list.

A. CHEATING

Intentionally using or attempting to use unauthorized materials, information or study aids in any academic exercise.

Comments:

1. Students completing any examination should assume that external assistance (e.g., books, notes, calculators, conversation with others) is prohibited unless specifically authorized by the instructor.
2. Students must not allow others to conduct research or prepare any work for them without advance authorization from the instructor. This comment includes, but is not limited to, the services of commercial term paper companies.
3. Substantial portions of the same academic work may not be submitted for credit or honors more than once without authorization.

B. FABRICATION

Intentional and unauthorized falsification or invention of any information or citation in an academic exercise.

Comments:

1. "Invented" information may not be used in any laboratory experiment or other academic exercise without notice to and authorization from the instructor.
2. One should acknowledge reliance upon the actual source from which cited information was obtained.
3. Students who attempt to alter and resubmit returned academic work without notice to the instructor would be in violation of the Code of Student Conduct.

C. FACILITATING ACADEMIC DISHONESTY

Intentionally or knowingly helping or attempting to help another to commit an act of academic dishonesty.

D. PLAGIARISM

Intentionally or knowingly representing the words or ideas of another as one's own in any academic exercise.

Comments:

1. *Direct Quotation:* Every direct quotation must be identified by quotation marks or by appropriate indentation and must be promptly cited in a footnote. (Proper footnote style for many academic departments is outlined by the MLA Style Sheet or K.L. Turabian's *A Manual for Writers of Term Papers, Theses and Dissertations.)*
2. *Paraphase:* Prompt acknowledgement is required when material from another source is paraphrased or summarized in whole or in part in your own words. Paraphrasing is not reordering words in a sentence.
3. *"Borrowed Facts or Information":* Information that is obtained in one's reading or research; which is not common knowledge among students in the course, must be acknowledged. Textbooks and course handouts are not considered common knowledge. Materials which contribute only to one's general understanding of the subject may be acknowledged in the bibliography and need not be immediately footnoted.

Academic dishonesty is a serious offense which may result in suspension or expulsion from the University. The normal sanction for academic dishonesty is a grade of "XF," denoting "failure due to academic dishonesty." That grade will normally be recorded on the transcripts of students found responsible for acts of academic dishonesty in addition to any other action taken (e.g., suspension or expulsion).

A forty member Student Honor Council has the responsibility to investigate allegations of academic dishonesty and to convene Honor Boards to adjudicate charges. In specified circumstances, the Student Honor Council will accept petitions to remove the grade of "XF" from a transcript and replace it with the grade of "F."

TO REPORT ACADEMIC DISHONESTY CALL THE HONOR COUNCIL AT 314-8204

STUDENTS INTERESTED IN SERVING ON THE HONOR COUNCIL SHOULD CALL THE HONOR COUNCIL AT 314-8204

The *Code of Academic Integrity* is reprinted in full in the Undergraduate Catalog. For further information, contact the Student Honor Council, 2118 Mitchell Building (314-8204).

Attendance And Assessment Policy

ATTENDANCE

1. The university expects each student to take full responsibility for his/her academic work and academic progress. The student, to progress satisfactorily, must meet the quantitative requirements of each course for which he/she is registered. Students are expected to attend classes regularly, for consistent attendance offers the most effective opportunity open to all students to gain developing command of the concepts and materials of their course of study. However, attendance in class, in and of itself, is not a criterion for evaluation of the student's degree of success or failure. Furthermore, absences (whether excused or unexcused) do not alter what is expected of the student qualitatively and quantitatively. Except as provided below, **absences will not be used in the computation of grades, and the recording of student absences will not be required of the faculty.**
2. It is the policy of the university to excuse the absences of students that result from the following causes: illness (where the student is too ill to attend class), religious observance (where the nature of the observance prevents the student from being present during the class period), participation in university activities at the request of university authorities, and compelling circumstances beyond the student's control. Students claiming excused absence must furnish documentary support for their assertion that absence resulted from one of these causes.
3. In certain courses, in-class participation is an ongoing requirement and an integral part of the work of the course, for example, courses in public speaking, requiring group discussion, emphasizing physical activity, conversation in foreign languages, and courses with laboratories. In other courses, occasional in-class assessments may occur, sometimes without advance notice. It is the responsibility of the instructor to inform each class at the beginning of the semester of the nature of in-class participation expected and what effect absences will have on the evaluation of the student's work in the course.
4. Absences in courses where In-class participation is a significant part of the work of the course shall be handled by the instructor in accordance with the general policy of the course department and college.

ASSESSMENT (Examinations, Tests, Quizzes)

1. The university provides for the rescheduling of significant student assessments without penalty, when such assessments are missed by students with an excused absence, except in cases where the nature of the assessment precludes the possibility of rescheduling. In no case may an examination be scheduled on Rosh Hashanah, Yom Kippur, Good Friday or the first two days at Passover. (Students who have concerns about other religious observances should consult with their instructor at the start of the semester.) An instructor is not under obligation to give a student a make-up assessment unless failure to perform was due to illness (where the student is too ill to attend class), religious observance (where the nature of the observance prevents the student from being present during the class period), participation in university activities at the request of university authorities, or compelling circumstances beyond the student's control. In cases of dispute, the student may appeal to the chair of the department offering the course within one week from the date of the refusal of the right to a make-up assessment. In those instances where the instructor is the chair, the appeal may be made to the dean. The decision of the department chair or college dean is final. When permitted, a make-up assessment must be given on campus unless the published schedule or course description requires other arrangements. The make-up assessment must be at a time and place mutually agreeable to the instructor and student, cover only the material for which the student was originally responsible, be at a comparable level of difficulty with the original assessment, and be given within a time limit that retains the currency of the material. The make-up assessment must not interfere with the student's regularly scheduled classes. In the event that a group of students requires the same make-up assessment, time may be scheduled at the convenience of the instructor and the largest possible number of students involved.
2. The student must notify the instructor of the reason for absence as soon as possible. **Where the reason for absence from a scheduled assessment is known well in advance** (for example, in cases of religious observance or participation in university activities at the request of university authorities), **THE STUDENT MUST INFORM THE INSTRUCTOR BY THE END OF THE SCHEDULE ADJUSTMENT PERIOD.** Prior notification is especially important in connection with final examinations, since failure to reschedule a final examination before conclusion of the final examination period may result in loss of credits during the semester. Where the reason is not known well in advance (for example, in cases of illness or compelling circumstances beyond the student's control), the student must inform the instructor as soon as the reason develops, or as soon as possible after its development.
3. All examinations and tests shall be given during class hours in accordance with the regularly scheduled (or officially "arranged") time and place of each course listed in the *Schedule of Classes.* Unpublished changes in the scheduling or location of classes/tests must be approved by the department chair and reported to the dean. It is the responsibility of the student to be informed concerning the dates of announced quizzes, tests, and examinations.
4. A final examination shall be given in every undergraduate course. Exceptions may be made with the written approval of the chair of the department or the dean. All final examinations must be held on the examination days of the Official Final Examination Schedule. No final examination shall be given at a time other than that scheduled in the Official Final Examination Schedule without written permission of the department chair.
5. Graduating seniors will be expected to take final examinations during the regular final examination period. However, **graduating seniors are not required to take final examinations on the day of graduation or on any regularly scheduled day following graduation. In courses with examinations scheduled on those days, graduating seniors must notify their instructors by the end of the Schedule Adjustment Period.**
6. The chair of each department is responsible for the adequate administration of examinations in courses under his/her jurisdiction.
7. Every examination shall be designed to require for its completion not more than the regularly scheduled period. In the case of final examinations, the time allowed should not exceed the scheduled final examination period.
8. A typewritten, mimeographed or printed set of questions shall be placed in the hands of every examinee in every test or examination requiring at least one period, unless the dean has authorized some other procedure.
9. The following rules shall govern all university examinations, unless the instructor for a specific course stipulates alternate rules for that course. A breach of any of the rules shall constitute "disruption of class," a disciplinary offense *(Code of Student Conduct,* section 9[j]), and may serve as the basis of an allegation of academic dishonesty.
   a. Students arriving late for an examination may not unreasonably disrupt the examination room.
   b. Students must leave all unauthorized materials (e.g., books, notes, calculators) with the proctor before being seated.
   c. Where seating arrangements are established by proctors, students must conform to these arrangements.
   d. Students may not return to an examination room after leaving, unless permission to do so has been granted by the proctor prior to the student's departure.
   e. Students must cease conversation prior to the passing out of examination papers and maintain silence during the entire examination period.
   f. Students must place examination papers face down on the writing desk until the examination is officially begun by the proctor.
   g. Students must keep examination papers flat on the writing desk at all times.
   h. Students at an examination must be prepared to show current university identification.
10. Each faculty member is to retain, for one full semester after a course is ended, the students' final examinations. If a faculty member goes on leave for a semester or longer, or leaves the university, the final examinations and grade records for the course must be left with the department chair.

GENERAL EDUCATION PROGRAM

ALL UNDERGRADUATE STUDENTS AT UMCP COMPLETE A GENERAL EDUCATION PROGRAM

30 CORE

The Purpose of General Education

Participation in a democratic society requires more than the central instruction provided by one major field of study. In our world of rapid economic, social, and technological change, a strong and broadly-based education is essential.

General education helps you achieve the intellectual integration and awareness you need to meet challenges in your personal, social, political, and professional lives. General education courses introduce you to the great ideas and controversies in human thought and experience. These courses provide the breadth, perspective, and rigor that allow UMCP graduates to claim to be "educated people."

Most Americans change their careers several times during their lifetime. A solid general education provides a strong foundation for the life-long learning that makes career-change goals attainable.

HOW TO GET THE MOST OUT OF YOUR GENERAL EDUCATION

* **PLAN** ahead and see an academic advisor regularly.
* **INVEST** in yourself; select CORE courses that will add to your understanding and appreciation of social, cultural, national, and international issues.
* **REMEMBER** that many general education courses can be double counted as major, department, and college requirements. Check listings carefully.

CORE

THE CORE LIBERAL ARTS AND SCIENCES STUDIES PROGRAM (CORE)

CORE was created to implement the Campus Senate report, "Promises to Keep: The College Park Plan for Undergraduate Education", which stressed active learning, writing, and critical thinking skills. CORE has been the required general education program at UMCP since Fall 1990. If you entered UMCP in May 1990 or thereafter with eight or fewer credits earned from UMCP or any other college, you must complete the CORE Program. Advanced Placement (AP) and other examination-based credits may fulfill some CORE, department, or college requirements, but these credits are not used to determine which general education program you complete. See CORE requirements and course lists on pages 31-33.

USP

THE UNIVERSITY STUDIES PROGRAM (USP)

USP preceded the CORE General Education Program. If you entered UMCP before May 1990 or if you entered with nine or more credits earned before May 1990 from UMCP or any other college, you may complete your general education requirements under USP or choose to complete CORE instead. Please read statute of limitations statement below.

USP Program information and lists are no longer featured in the Schedule of Classes. Copies are available from the Office of Undergraduate Studies, 2130 Mitchell Building (phone 405-9359).

If You Transferred from a Maryland Community College, you will be treated as if your registration dates were concurrent with enrollment at the University of Maryland at College Park for the purpose of determining which general education program, CORE or USP, you must complete.

Statute of limitations for previous General Education Programs at UMCP (GEP, GUR, USP)

If you returned or transferred to the College Park campus after August 1987, you will no longer have the option of completing general education requirements under the older General Education Program (GEP) or General University Requirements (GUR). Thereafter, if you return or transfer to College Park after a separation of five continuous years, you must follow the requirements in effect at the time of re-entry. If you had completed 60% of the general education requirements in effect at the time of separation, an exception may be granted.

CORE Liberal Arts & Sciences Studies Program (CORE)

The CORE Program strategically builds a sound skill and knowledge base over your four years of baccalaureate study and represents about one third of the total academic work you will complete for graduation.

At UMCP, the CORE has four major components:

FUNDAMENTAL STUDIES build your competence and confidence in basic writing and mathematics beginning in your first year at UMCP. Mastery of these basics greatly enhances your success both during and after college.

DISTRIBUTIVE STUDIES introduce you to broad areas of learning in many disciplines during your first two years of coursework. Through these courses, you will explore different kinds of knowledge and the very nature of scholarship in the humanities, arts, natural sciences, mathematics, social sciences, and history.

ADVANCED STUDIES allow you to increase your knowledge, and strengthen your critical thinking and writing skills. You may choose these courses from almost the full range of upper-level offerings (outside major after 56 credits) and may substitute a CORE-approved Capstone (within major after 86 credits) or a senior or honors thesis for ONE of the two courses. See details and exceptions on CORE pages.

HUMAN CULTURAL DIVERSITY encourages you to learn about attitudes and cultures different from your own. You may complete the Diversity requirement at any time before graduation.

World Courses for Fall 1997:

The Undergraduate Program at UMCP has embarked on a novel educational initiative to offer unique interdisciplinary courses to first and second year students. These courses, called the World Courses, are broad in concept, cross-disciplinary, contemporary, and exciting. They are focused on big issues of the world in which we live, and will be team-taught by outstanding teachers. The World Courses are approved for CORE Distributive Studies credit in the appropriate categories, and are designed to meet twice a week as a large lecture (with approximately 150-200 students) and once a week in 25-student discussion sessions. During Fall 1997 two World Courses will be offered.

UNIV 118A THE CREATIVE DRIVE: CREATIVITY IN MUSIC, ARCHITECTURE, AND SCIENCE 3 credits; no prerequisites

CORE History or Theory of the Arts (HA)

Lectures will take place Mondays and Wednesdays 10:00-10:50. 75-minute discussion sections will occur on Thursdays or Fridays, depending on the section selected (see listing under UNIV 118A).

There is creativity in virtually every aspect of life: from literature to art, from music to dance, from communication to science, from engineering to business. Thus it is natural to ask what is creativity, what is the process of creativity in different areas, and what are its common threads. In this offering of The Creative Drive we will focus especially on the great creative personalities and works in jazz and popular music, modern architecture, and scientific chaos. The course will be led by professors of Music, Architecture, and Mathematics.

UNIV 138A TECHNOLOGY AND THE ENVIRONMENT: TO STEM THE FLOW: THE NILE, TECHNOLOGY, POLITICS, AND THE ENVIRONMENT
3 credits; no prerequisites

Students may use UNIV 138A to satisfy **ONE** of either CORE Physical Sciences Non-Lab (PS) **or** CORE Life Sciences Non-Lab (LS) **or** CORE Social or Political History (SH) course requirement. UNIV 138A counts as only one course toward CORE requirements.

There will be two lectures and one discussion meeting each week (see listing under UNIV 138A).

Throughout history, human beings have tried to modify the natural environment by means of technology. Such activity while bringing about economic benefits, has also at times had unintended, negative consequences. **"To Stem the Flow"** looks at the interplay of engineering, the environment, biological communities, and politics from the historical context of Egyptian development of the Nile River Valley. The goal of the course is to enable students to appreciate the interdependence of technology, politics, and the environment in the modern world. The course will be lead by professors from Engineering, Government and Politics, and Microbiology.

CORE 31

CORE *Program Outline*

COURSES USED TO FULFILL CORE REQUIREMENTS:

MUST be selected from the approved CORE course list.
MAY also be used to satisfy college, major, and/or supporting area requirements if the courses also appear on CORE Fundamental or Distributive Studies lists.
MAY NOT be taken on a Pass-Fail basis.

CORE FUNDAMENTAL STUDIES 3 COURSES

1. ONE COURSE IN INTRODUCTION TO WRITING

[Must be attempted within first thirty credits and passed within first 60.]

Approved CORE Introduction to Writing Courses:

ENGL 101	**Introduction to Writing**
ENGL 101A	**Introduction to Writing** (Students must take ENGL 101A rather than ENGL 101 if their TSWE score [a subscore of the SAT verbal] is 33 or below.
ENGL 101H	**Introduction to Writing** (Honors Students)
ENGL 101X	**Introduction to Writing** (Students for whom English is a second language may register for ENGL 101X instead of ENGL 101. To register for ENGL 101X, a student must present one of the following: **(1)** 550 or above on the TOEFL, **OR** **(2)** 220 or above on the Comprehensive English Language Test (CELT) administered at the College Park campus by the Maryland English Institute (MEI), **OR** **(3)** successful completion of the MEI's semi-intensive course in English.

Note: Based on TOEFL or CELT scores, students may be required to complete English language instruction for non-native speakers through the MEI before being allowed to register for ENGL 101X.)

Exemptions from Introduction to Writing:

***AP English Literature and Composition Test, OR**
* SAT verbal score 670 or above (In April 1995, the Educational Testing Service recentered the scores on the SAT. If taken before April 1995, one must receive a score of 600 or above to be exempt from Freshman Writing. This recentering does not reflect a raising of the requirement for exemption, but a change in the scoring system which the ETS uses.)

2. ONE COURSE IN MATHEMATICS

(Must be attempted within first thirty credits and passed within first 60.)

Approved CORE Fundamental Studies Mathematics Courses:

MATH 110	**Elementary Mathematical Models**, or
MATH 113	**College Algebra with Applications**
MATH 115	**Pre-calculus**, or
	Any 100 or 200 level MATH or STAT course except MATH 210 and MATH 211

Exemptions from Mathematics:

* SAT Math score 600 or above; **OR**
* College Board Achievement Test in Mathematics, Level I or II, score of 600 or above; **OR**
* AP score of 3 or above in Calculus AB or BC; **OR**
* Any CLEP Subject Examination in Mathematics score 60 or above.

3. ONE COURSE IN PROFESSIONAL WRITING

(after 56 credits).

Approved CORE Professional Writing Courses:

(select the appropriate course based on requirements or interests)

ENGL 391	**Advanced Composition**
ENGL 391H	Advanced Composition (Honors Students)
ENGL 391X	**Advanced Composition** (English as a Second Language [ESL])
ENGL 392	**Advanced Composition** (pre-law)
ENGL 393	**Technical Writing**
ENGL 393H	Technical Writing (Honors students)
ENGL 393X	**Technical Writing** (ESL)
ENGL 394	**Business Writing**
ENGL 395	**Technical Writing** (pre-med and health careers)

Exemption from Professional Writing:

**Grade of "A" in ENGL 101 (NOT ENGL 101A or ENGL 101X), except for students majoring in Engineering. All engineering students must take ENGL393.*
NOTE: No exemption from the Professional Writing requirement will be granted for achievement on SAT verbal exam. Professional Writing courses cannot be used to fulfill Advanced Studies requirements..

CORE DISTRIBUTIVE STUDIES 9 COURSES

1. THREE COURSES IN HUMANITIES AND THE ARTS

* One course from **Literature** list, and
* One course from **History or Theory of the Arts** list, and
* One more course from **Literature**, **OR History or Theory of Arts**, **OR Humanities** lists

2. THREE COURSES IN MATHEMATICS AND SCIENCES

* Up to two courses from **Physical Sciences** list, and
* Up to two courses from **Life Sciences** list, and
* Up to one course from **Mathematics/Formal Reasoning** list

*Notes: One course **MUST** include or be accompanied by a lab taken in the same semester. More than one lab course may be taken. All three courses may be selected from the science lists.*

3. THREE COURSES IN SOCIAL SCIENCES AND HISTORY

* One course from **Social or Political History** list, and
* Two courses from **Behavioral and Social Sciences** list

CORE ADVANCED STUDIES 2 COURSES (6 CREDITS)

* Two upper-level (300-400 level) courses (outside major after 56 credits). Students may substitute a CORE-approved senior capstone course (in major after 86 credits), or a senior or honors thesis for ONE of the two required advanced studies courses.

The following may NOT be used to fulfill Advanced Studies requirements: *Professional Writing courses (courses that meet the CORE and USP Fundamental Studies upper-level writing requirement); courses used to meet Distributive Studies requirements; internships, practica, or other experiential-learning type of courses. If you have questions please call the Office of Undergraduate Studies at 405-9359.*

CORE HUMAN CULTURAL DIVERSITY 1 COURSE

Cultural Diversity courses focus primarily on: (a) the history, status, treatment, or accomplishment of women or minority groups and subcultures; (b) non-Western culture, or (c) concepts and implications of diversity.

Note: A number of CORE Cultural Diversity courses also satisfy CORE Distributive Studies requirements or a college, major, and/or supporting area requirement.

CORE Codes: The following CORE Codes appear in the headings of the course lists below and designate the CORE requirement(s) met by each course. These codes also appear in the individual course listings when they appear later in the Schedule, where they have the same meaning.

CORE Distributive Studies:

HL Humanities and the Arts - LITERATURE
HA Humanities and the Arts - HISTORY OR THEORY OF THE ARTS
HO Humanities and the Arts - HUMANITIES
PS Mathematics and the Sciences - PHYSICAL SCIENCES (NON-LAB)
LS Mathematics and the Scicnces - LIFE SCIENCES (NON-LAB)
MS Mathematics and the Sciences - MATHEMATICS OR FORMAL REASONING (NON-LAB
PL Mathematics and the Sciences - PHYSICAL SCIENCES (LAB)
LL Mathematics and the Sciences - LIFE SCIENCES (LAB)
ML Mathematics and the Sciences - MATHEMATICS OR FORMAL REASONING (LAB)
SH Social Sciences - SOCIAL OR POLITICAL HISTORY
SB Social Sciences - BEHAVIORAL AND SOCIAL SCIENCE

CORE Update

As of Fall 1995, only 100 and 200-level courses are on the Distributive Studies list.

APPROVED CORE COURSE LIST

Not all approved courses are offered each semester. For courses scheduled to be offered in the current semester, check course listings. The list is correct as of press time; however, offerings are subject to change.

CORE FUNDAMENTAL STUDIES 3 courses

*PLEASE REFER TO **CORE OUTLINE** FOR COURSE REQUIREMENTS AND EXEMPTIONS.*

CORE DISTRIBUTIVE STUDIES 9 courses

1. *Students meeting CORE requirements must select courses from the CORE lists only.*
2. *Please consult the **Undergraduate Catalog** and the **CORE Guide** for additional information on requirements, prerequisites, etc.*
3. *In the following CORE Distributive Studies list, courses noted "(D)" also meet the CORE Diversity Requirement.*

CORE ADVANCED STUDIES - 2 courses (6 credits)

New Advanced Studies requirements went into effect beginning August 1994. Please read carefully.

1. Students completing double majors or double degrees will have fulfilled the campus Advanced Studies requirement, unless their primary major or college has additional requirements.
2. All CORE and USP students are now under the **same** two-course Advanced Studies requirement.
3. The old Advanced Studies categories and lists are gone (except for the CORE Capstone list). Advanced Studies courses may now be selected from a much broader range of course offerings.
4. You must successfully complete at least two upper-level (300-400 level) courses (six credits) **outside** your major and after **56** credits.
5. You may substitute a CORE-approved Capstone course (taken **within** the major after 86 credits) or a senior or honors thesis for **one** of the two required courses (three credits).
6. Courses may **not** be taken on a pass-fail basis.
7. **The following may NOT be used to fulfill Advanced Studies requirements:** Professional Writing courses (courses that meet the CORE and USP Fundamental Studies upper-level writing requirement); courses used to meet Distributive Studies requirements; internships, practica, or other experiential-learning type of courses. If you have questions about the new requirements, please call the Office of Undergraduate Studies at 405-9359.

GOOD PLANNING: The new Advanced Studies requirement allows you to choose your CORE Advanced Studies courses from almost the full range of upper-level offerings outside your major, with the few exceptions noted above. To get the most out of your choices, consult with faculty and contact your advisor for assistance in planning.

TO HELP YOU CHOOSE YOUR COURSES: A list of upper-level courses that departments recommend as being especially worthwhile for non-majors has been sent to all advisors. It is also available for review at the reserve desk at Hornbake Library, at the Office of Undergraduate Studies, 2130 Mitchell Building, and on InforM. The list includes brief descriptions of the courses. This list is intended as a resource to help you identify upper-level courses outside your major that may interest you. You may also select many other courses, as explained above.

If you have questions about the new Advanced Studies requirements, please call Undergraduate Studies at 405-9359 for assistance.

CORE Capstone (CORE CODE: CS)

(taken within the major after reaching 86 credits)
CORE Capstone is intended as an additional option under Advanced Studies for **both** CORE and USP students. You may substitute a CORE-approved Capstone course (taken within your major after 86 credits) or a senior or honors thesis for one of the two required Advanced Studies courses (three credits).

COURSE CLUSTERS

34 CLUSTERS

Course Clusters offer a kind of academic map to new students. The clusters described on these pages are composed of two or three courses linked together because each is enhanced by taking it in conjunction with the other courses in the cluster.

Clusters are most appropriate for entering first year students. Most courses are at the 100 and 200 levels, have no prerequisites, and fulfill a core requirement. Only a limited number of seats are available in each cluster (approximately 20-25), and space is allocated on a first come first serve basis.

Each cluster contains a "home" course in which enrollment is limited to approximately 20 first year cluster students. Other courses in the cluster are regularly offered sections in which seats have been set aside for a certain cluster's participants so that the students become accustomed to university classes with the company of a familiar group of first year students. The "home" course serves as a site where students will have assignments and discussions that integrate the learning of the other two classes. To register for a Cluster, simply register for the Cluster number. That single registration puts you in all the courses in the cluster. There is no need to register for the courses individually.

CLUSTER 1

Talk of the Struggle: Protest and Social Change

CLUS 001 section 0001 index 09429

Does social change occur in predictable ways or can societies be pushed? What is the role of protest and resistance in social change? How do protest movements fit within cultural communication patterns? This cluster examines these questions by looking at the African American protest movement in the United States within the larger context of various cultural communication traditions.

Introduction to Sociocultural Anthropology and Linguistics explores the culture and social relationships in a wide variety of settings from small-scale to complex societies. An overview of how anthropology analyzes human behavior with particular attention to the relationship between language and culture.
ANTH 260+ section 0201 MWF 10:00-10:50 3 credits

Introduction to Writing familiarizes students with college level writing. Teaches students how to construct and develop issues, use and represent sources, and revise and improve their prose.
ENGL 101+ section 1214 TuTh 11:00-12:15 3 credits

Films of Revolution and Social Change explores the impact film has on social change and how film reflects change in various cultures.
CMLT 298L section 0101 TuTh 9:30-10:45 3 credits

CLUSTER 2

Body and Mind

CLUS 002 section 0002 index 09439

Since the beginning of time, human beings have wavered between viewing the mind and body as separate and apart, and viewing them as interactive and whole. However, whether of one piece or many, whether collaborative or contentious, the working of mind and body are inextricable linked and cannot be studied apart from one another. Body and Mind provides the tools to consider one of the oldest dichotomies. It encourages students to think about the psychological and biological bases of human existence.

Principles of Biology I introduces students to key biological principles that characterize living organisms and evidence that supports these principles. Students are required to answer introductory questions each week before their lab and submit final reports. This course is for science majors.
BIOL 105+ section 5116 MWF 10:00-10:50 4 credits
M 1:00-3:50

Introduction to Psychology helps students to understand the broad theoretical systems developed in an effort to understand behavior. Included are the ways in which those theories have been tested and the outcomes of the tests.
PSYC 100+ section 0234 TuTh 2:00-2:50 3 credits
W 1:00-1:50

Introduction to Writing familiarizes students with college level writing. Teaches students how to construct and develop issues, use and represent sources, and revise and improve their prose.

CLUSTER 3

Public Orders and Private Values: Politics and Ethics

CLUS 003 section 0003 index 09449

A president impeached. Another president subpoenaed. Governors, legislators, and judges jailed. Countless others slink from public view in half of denunciations. What is the appropriate behavior of public officials? How does the public hold them to that standard? How does the public create that standard and what is the relationship between private behavior of individual citizens and the standard of public life? How are rights and responsibilities of citizens in a democratic society balanced with the needs of the nation as whole? Throughout history, the line between individual rights and the public good is one that has been ambiguous and hotly debated. Public Orders and Private Lives: Politics and Ethics examines these questions by confronting and debating some of the most difficult and pressing social and moral issues of our day.

American Government offers a comprehensive understanding of the American political system. It focuses both on structure and process and explores the social, cultural, economic, and historic contexts within which the political system operates.
GVPT 170+ section 0206 MW 10:00-10:50 3 credits
F 11:00-11:50

Contemporary Moral Issues focuses on moral issues that have social-political policy dimensions. Examples of issues include: abortion, euthanasia, hunger, the death penalty, equality, and discrimination.
PHIL 140+ section 0301 TuTh 2:00-3:15 3 credits
F 9:00-9:50

Speech Communication: Principles and Practices explores valuable techniques of listening, group discussion, and interviewing, as well as public briefings and persuasive speaking.

CLUSTER 4

Play of Life: Exploring the World Within

CLUS 004 section 0004 index 09459

One of the great challenges of societies has been for men and women to understand and describe themselves and how they relate to the world around them. Play of Life: Exploring the World Within examines the inner life through aesthetic imagery, and psychological theory.

Introduction to Theatre focuses on what makes theater a unique form of art. Students explore aesthetic issues, matters of craft, and the history of theatrical practice. The course includes lecture, discussions, exercises, papers, and exams. Extra credit work in theatrical production allows students to apply directly what they learn in this course.
THET 110+ section 0109 MW 9:00-9:50 3 credits
F 10:00-10:50

Introduction to Psychology helps students to understand the broad theoretical systems developed in an effort to understand behavior. Included are the ways in which those theories have been tested and the outcomes of the tests.

CLUSTER 5

Justice for All?

CLUS 005 section 0005 index 09469

The jury returns the verdict in the Rodney King case and Los Angeles goes up in smoke. The country tunes in and takes sides over O.J. Simpson's double murder trial. Meeting the promise of the Pledge of Allegiance - "liberty and justice for all" - has never been more important or more difficult. Justice for All? Examines the role of the civil rights movement and criminal justice system in the United States and their effectiveness at meeting the needs of all Americans. Courses in Justice for All? provide both historical and theoretical understanding of race crime and punishment in contemporary America.

Introduction to Criminal Justice provides an introduction to the administration of criminal justice in a democratic society with emphasis on the theoretical and historical development of law enforcement. The principles of organization and administration for law enforcement, planning and research, public relations, personnel and training, inspection and control, direction and policy formulation will all be studied.
CCJS 100+ section 0101 TuTh 4:00-4:50 3 credits
M 9:00-9:50

American Government offers a comprehensive understanding of the American political system. It focuses both on structure and process and explores the social, cultural, economic, and historic contexts within which the political system operates.
GVPT 170+ section 0207 MW 10:00-10:50 3 credits
F 9:00-9:50

Introduction to American Studies provides and introduction to American cultural students — past and present — by examining the concept of "self" in American autobiographical writing and the concept of "society" in accounts of various communities.
AMST 201+ section 0501 TuTh 8:00-9:15 3 credits

CLUSTER 6

Expression of the Mind

CLUS 006 section 0006 index 09479

How do we learn? What influences our behavior? In what ways are we responsible for our behavior? This interdisciplinary cluster will explore some of these

questions from the point of view of both the humanities and social sciences. This cluster is open only to students in the College of Arts & Humanities and the Division of Letters & Science.

Introduction to Writing familiarizes students with college level writing. Teaches students how to construct and develop issues, use and represent sources, and revise and improve their prose.

New Perspectives on Indiana Jones: World Archaeology

CLUS 007 section 0007 index 09489

What do we do to an object when we excavate it from the earth? Do we strip it of its original meaning? What information travels with the object and what is lost? This cluster explores the relationships between objects, their environment and the humans who made them, used them and left them behind. Courses in the Departments of Art History and Archaeology and Anthropology will examine the history of archaeology and material cultures through two differing perspectives. In ARTH200, students will study the cultural remains of the earliest civilizations through the Middle Ages. Art works will be placed in their archaeological contexts in order to reveal information about the development of the cultures that created the finds that we now excavate. ARTH240 will examine the history of the discipline from an anthropological perspective--from the evolution of humankind to recent discoveries about colonial men and women. GEOL 120 will show how environmental conditions contributed to human developments. The three courses fulfill core requirements: HA, SB, PS, and work together to examine the same discipline, archaeology, from differing perspectives. These courses will be accompanied by a monthly lecture series that seeks to augment the views of archaeology offered by this cluster.

Art of the Western World to 1300 focuses on painting, sculpture, and architecture from prehistoric times to the Renaissance.

ARTH200+	section 0102	TuTh 9:30-10:20 M 11:00-11:50	3 credits

Introduction to Archaeology is an exploration of the variety of past human societies and cultures through archaeology, from the emergence of anatomically modern humans to the most recent historical past.

First Year Focus Clusters for Specific Majors

These clusters are designed and recommended for specific majors by their advisors. The courses satisfy major requirements and provide instruction in basic skills and concepts necessary for the successful completion of the majors. Honors and College Park Scholars students are not eligible to register for these clusters.

CLUSTER 8

Environmental Science and Policy

Limited to students in Environmental Sciences and Policy

CLUS 008 section 0008 index 09499

Introduction to Environmental Science is the first part of a two-semester course sequence that introduces students to the topics studied and methods employed in modern environmental science studies. Emphasis will be on critical evaluation of information available on such topics as atmospheric chemistry, radiation transfer, water pollution and overuse of groundwater, natural resources and biodiversity.

Journalism

The message from medial employers is consistent. Regardless of the setting (be it print, broadcast, advertising or public relations), media professions should have a breadth of understanding matched by a curiosity about the world around them. Toward that end, the College of Journalism has established a variety of course requirements to assist students in cultivating their understanding. Below are two clusters reflection required courses for journalism majors. Special section JOUR 101 —Professional Orientation —are also included with distinctive discussion sections designed to assist cluster participants in exploring their education and its relationship to their future goals.

Engineering

These clusters were developed to enhance the opportunities for first semester engineering students to engage in collaborative learning and group study. The clusters are limited to 18 students and are not open to students in the Honors, College Park Scholars, and Gemstone programs. The goal is to provide an early academic experience with a select group of students who share common interests in science, math and engineering. Through this opportunity for collaborative learning the students will be better prepared for the engineering "work world".

COLLEGE PARK SCHOLARS

College Park Scholars (CPS) was developed to acquaint first and second-year students with the rich texture of academic life at the university. The program encourages students who share common intellectual interests to study together in courses organized around common themes and to live together in selected resident halls. CPS provides a focus for study, advising, and a variety of educational and social activities. Upon the successful completion of the program, the university will recognize the student's participation with a citation and an official notification on the student's transcript. If you are interested in the program or want more information about a particular program, please contact the programs directly:

For First-Year Students

Scholars must register for a cluster (for example, CPSP 031, section 0101, index 11423), which will automatically register them for each course listed under the cluster subheading.

CPS Cluster 31 (CPSP 031 section 0101 index 11423)
College Park Scholars Colloquium I: Science, Technology, and Society
CPSP 118T section 0101 Tu 7:00-8:30pm 1 credit
Introduction to Writing
ENGL 101+ section 0606 MWF 2:00-2:50 3 credits

CPS Cluster 32 (CPSP 032 section 0101 index 11433)
College Park Scholars Colloquium I: Science, Technology, and Society
CPSP 118T section 0102 Tu 7:00-8:30pm 1 credit
Introduction to Writing
ENGL 101+ section 0702 MWF 3:00-3:50 3 credits

CPS Cluster 33 (CPSP 033 section 0101 index 11443)
College Park Scholars Colloquium I: Science, Technology, and Society
CPSP 118T section 0103 Tu 7:00-8:30pm 1 credit
Introduction to Writing
ENGL 101+ section 0001 MWF 8:00-8:50 3 credits

CPS Cluster 34 (CPSP 034 section 0101 index 11453)
College Park Scholars Colloquium I: Science, Technology, and Society
CPSP 118T section 0104 Tu 7:00-8:30pm 1 credit
This cluster is for STS students who are exempt from ENGL 101 or are not able to register for ENGL 101 for Fall 1997.

For Second-Year Students

All second-year STS Scholars must register for a section of CPSP 218T for the Fall 1997 semester:
College Park Scholars Colloquium II: Studies in Science, Technology, and Society
CPSP 218T section 0101 (Individual Internship)
W 7-8:30pm index 11663 1-2 credits
section 0301 (Service Learning)
W7-8:30pm index 11664 1-2 credits
section 0401 (Smithsonian Internship)
W 7-8:30pm index 11665 1-2 credits
section 0501 (Webship)
W 7-8:30pm index 11666 1-2 credits

All second-year STS Scholars must register for the following course either Fall 1997 or Spring 1998:
College Park Scholars Capstone: Science, Technology, and Society
CPSP 227 section 0101 TBA index 11676 3 credits
If you have not already completed the two CPS-STS CORE Distributive Studies Courses, you must register for a **CPS-STS CORE Distributive Studies Course** from the blue CPS-STS Citation Checklist or obtain permission from the Director, CPS-STS, to substitute course not on the blue sheet.

40 WHAT'S NEW...

WHAT'S NEW & INTERESTING

Department of Agronomy

AGRO 105 - SOIL AND ENVIRONMENTAL QUALITY: CORE Distributive Studies: Life Science. There's more to soil than just dirt. How does the way we treat our soil affect the way the lands treats us? Soil is central to the quality of the food we eat, the water we drink, and the places in which we live. This is a down-to-earth course that uses an ecological approach and a worm's eye view to explore the soil system and its role in support of life on Earth.

Agriculture and Natural Resources

AGRI 401- AGRICULTURAL SUPPORT SYSTEMS IN DEVELOPING COUNTRIES. Global forces are profoundly affecting agriculture, agricultural development, and the support systems that advance agriculture and its development. National and international agencies and organizations are being affected, as are the systems of agricultural education, extension and research.

AGRI 401 examines (1) the global forces that are bringing about contemporary changes in agricultural support systems, (2) the impact of these forces on the priorities and programs of international agencies and other institutional systems fostering agricultural development, and (3) the consequences and implications of these forces for agricultural schools, educational extension outreach, and agrotechnology research systems in developing countries. The course will also expose students to career possibilites in the international arena and in the institutional and programmatic areas of agricultural education, human resource development, extension and research.

Department of Animal and Avian Sciences

ANSC 489F - INTRODUCTION TO AQUACULTURE AND THE CULTURE AND PROPAGATION OF STRIPED BASS. The course will examine aquaculture as an alternative form of agriculture and will cover specific issues relating to the culture and propagation of the Maryland state fish - the striped bass.

Department of Astronomy

ASTR 100H - INTRODUCTION TO ASTRONOMY - HONORS VERSION - INTENDED FOR NON-SCIENCE MAJORS. Astronomy is the oldest science, but the grandeur and surprises of the Cosmos have always captured the imagination of non-scientists as well. In the late twentieth century, the pace of discoveries in astronomy has rapidly accelerated with technologically advanced new telescopes to see in gamma-ray, X-ray, ultraviolet, optical, microwave, and radio-frequency light, and powerful computers to aid theoretical understanding. In this course we will explore current understanding of the Universe beyond the Earth. The tour of the Universe begins in our near neighborhood (with the moon, sun, and planets), continues to our home Galaxy (with its stars and gaseous nebulae), and expands outward to include the instant galaxies and pervasive cosmic background radiation left by the Big Bang. From a qualitative point of view, we will describe theories for the physical processes governing the birth, life, and death of stars, the structure of galaxies, and the nature of cosmic exotica including white dwarfs, black holes, neutron stars, pulsars, and quasars.

ASTR 120 - INTRODUCTORY ASTROPHYSICS (3 credits). This new course is designed for students who have a good high school background in science, who are very interested in astronomy, or who are considering astronomy as a major. Math 115 is a pre or corequisite. ASTR 120 begins with observations made by early astronomers and their attempts at explaining the motions in the sky. With the development of new instruments, astronomers began to understand heavenly motions in terms of the gravitational force. Today astronomers use telescopes both on the Earth and in space to collect and analyze light to reveal the nature of objects found in the universe. This course focuses on discoveries made for our solar system. Explore Jupiter's icy moon Europa, consider why Venus, Earth's twin, has a runaway greenhouse effect, examine the role that collisions have played in shaping the surfaces of the planets, and speculate on the possibility that Mars once supported life. Theories will be presented on how astronomers believe our solar system formed and the possibility of other planetary systems.

ASTR 220 - COLLISIONS IN SPACE. Approved as CORE non-lab physical science (Distributive Studies - Mathematics and the Sciences). Look at the Moon - craters everywhere! Remember the comet that struck Jupiter in July 1994. What are the chances that an asteroid or comet will strike Earth? Collisions close to home in our Solar System have been occurring for 4.6 billion years, sometimes with catastrophic effects. But do stars ever collide? What about galaxies? Collision in space between various bodies will offer students an introduction to astronomy that is more focused than our survey courses.

ASTR 300 - STARS AND STELLAR SYSTEMS. What are stars made of? How did they form and what will ultimately happen to them? Supernovae, black holes and other exotic phenomena. A course suitable for non-science majors.

ASTR 330 - SOLAR SYSTEM. Comets that crash into planets, odd moons circling strange planets—our local astronomical neighborhood—what's in it, how did it all come together and how did it get to its present state. A course suitable for non-science majors.

ASTR 340 - COSMOLOGY. What is the universe composed of, how did it start and what will happen to it? What have people thought of this in the past and what does modern astronomy have to say on this topic? A course suitable for non-science majors.

ASTR 380 - LIFE IN THE UNIVERSE. How did life get started on the Earth? What sorts of environments are best suited for the development of life? How would we communicate with life on other planets? Life in the universe from an astronomical perspective. A course suitable for non-science majors.

ASTR 450 - CELESTIAL MECHANICS. How do spacecraft navigate between the planets? How do Jupiter, Ganymede, and Callisto power the sulfur volcanos on Io? If the Moon's orbit were tilted by 90 degrees, what causes it to crash into Earth after 6.5 years? This course is suitable for upper level undergraduates who have taken PHYS 410.

Department of Entomology

ENTM 313 - BIODIVERSITY ISSUES IN CONSERVATION MANAGEMENT. This is a down-to-earth course that will examine how intensification of the human population and destruction of the natural environment are affecting biological diversity at the gene, species, and community levels. The students will be challenged to explore the consequences of diminished biodiversity and identify what can be done to prevent further loss. The course will incorporate a variety of teaching methods (lectures, slides, videos, discussions) and will use real-world case history examples in agriculture and other managed ecosystems to illustrate the importance of biodiversity and the consequences of its loss. The case history examples will emphasize both tropical and temperate environments.

ENTM 454 - MANAGING PESTS WITHOUT PESTICIDES. This course will conduct an in-depth analysis of the potential and limitations of managing pests (insects, plant diseases, weeds, and other harmful organisms) without pesticides. It will provide students with a strong foundation in the application of ecological principles in pest management and show how pesticides disrupt ecological balance and introduce instability in managed plant ecosystems by altering food webs, etc. Case history examples will demonstrate how successful pesticide-free pest management schemes have been developed for individual pests and entire pest complexes. The labs will complement the lectures and will provide the students a hands-on understanding of the lectures and a hands-on understanding of the concepts involved in developing, implementing, and evaluating pest management programs without pesticides.

Department of Environmental Science and Policy

ENSP 101 - INTRODUCTION TO ENVIRONMENTAL SCIENCE (3 credits). Professor Joe Sullivan. The first semester of a two-part course sequence to be required for majors in the proposed interdisciplinary Environmental Science & Policy Program. The Program has been submitted for approval to the Maryland Higher Education Commission, and, if approved, will enroll students in the Fall semester of 1997. ENSP 101, and the second part of the sequence, ENSP 102, Introduction to Environmental Policy, are unrestricted in Academic Year 1997-98, but may be restricted to majors in later years. ENSP 101 is an introduction to the physical and biological basis for the study of the environment. Emphasis will be on understanding the scientific method, and on an examination of the range of issues of environmental concern. Topics will be organized around major components of the biosphere, the physical and biological processes that take place within these components, and interactions among them. Specific issues will be chosen for more in-depth discussion, to help foster critical thinking.

Department of French and Italian

FREN 240 - LITERARY AND FILMIC PROJECTIONS OF PARIS IN TRANSLATION (3 credits, Fink). Introductory survey of French masterworks. Meets CORE Literature requirements. In English.

FREN 241 - WOMEN WRITERS OF FRENCH EXPRESSION IN TRANSLATION (3 credits, Hage). Readings of representative samples of works originally written in French by women writers. In English. Meets CORE Literature and Diversity requirements.

FREN 242 - BLACK WRITERS OF FRENCH EXPRESSION IN TRANSLATION (3 credits, Frindethie). Meets the CORE literature and diversity requirements. In English.

FREN 481 - FEMMES FATALES IN NARRATIVE, OPERA AND FILM (3 credits, Mossman). A study of the figure of the Femme Fatale and the artistic representations of violence. CORE Advanced Studies course. In English.

FREN 489M - DIMENSIONS AND PERSPECTIVES OF FRANCOPHONE AFRICAN AND CARIBBEAN CINEMA (3 credits, Frindethie). In English.

FREN 629 - FROM KNIGHT TO HONNETE HOMME: THE EVOLUTION OF CIVILITY IN WESTERN EUROPE (3 credits). A team-taught course involving French and Italian literature and culture from the Middle Ages to the 17th century. In English.

ITAL 121/H - ACCELERATED ITALIAN I (3 credits, Amodeo). Stresses rapid acquisition of reading skills. With 122 completes language requirement.

ITAL 411 - DANTE (3 credits, Russell). A close reading of the *Vita Nuova* and the *Divine Comedy* as historical documents and as works of art. In English.

Department of Geography

GEOG 421 - CULTURAL ECOLOGY. Cultural Ecology is a chance to study how human and physical systems interact. Bring your interest in the environment to GEOG 421.

GEOG 498B - TOPICAL INVESTIGATIONS: INTRODUCTION TO BIOGEOGRAPHY. An entirely new course, intended to provide a 300-level (498B is a temporary course number) experience of ecology and physical geography for students with no biology background. This course will act as a gateway for Geography Majors and a pre-requisite for GEOG 484 "Biogeography", for students without equivalent 300-level background in biology. The course will consider how living organisms respond to their environment by physiological adjustment, migration and adaptation; how individuals, populations and communities differ in their responses; and will introduce some of the major topical issues such as species diversity and global change.

FOLA (Critical Languages)

Directed Study of a Foreign Language

Languages offered by FOLA: **Hungarian, Dutch, Polish, Persian, Turkish, Hindi, Egyptian Arabic, Urdu, Tagalog, Modern Western Armenian, Vietnamese** (Listed under FOLA 138 - 159). The FOLA program enables qualified students to acquire **speaking** knowledge of certain languages not currently offered in regular course format.

WHAT'S NEW...41

Academy of Leadership

BSOS 359F - AFRICAN AMERICAN POLITICAL PARTICIPATION IN THE AMERICAN POLITICAL PROCESS. This seminar examines the role and historical development of African Americans in politics from Reconstruction to the current period; their role in the two major political parties; and the growing number of political candidates at the state and local levels.

BSOS 346 and 356 - INTERNSHIP IN POLITICAL INSTITUTIONS. Students in this course will explore thought-provoking ideas about the nature of leaders and the political process. Students relate their internship experiences to various leadership themes and theories such as leadership qualities, transforming leadership and ethical leadership. Past internship sites have included the Maryland House of Delegates, the Governor's Office, the White House, and Capitol Hill. Students interested in obtaining an internship should schedule and appointment with the Internship Coordinator at the Academy.

Germanic Studies

GERM 280 - GERMAN-AMERICAN CULTURAL CONTRAST. CORE (HO) Cultural and Historical. Readings and discussion in English. Guenter Pfister.

GERM 281 - WOMEN IN GERMAN LITERATURE AND SOCIETY. This course looks at Germany from a different perspective! It explores German women's creativity in relation to the family, education, class, ethnicity, sexuality, and religion. Literature, art, and differences in women's culture at specific moments in history will be discussed within the cultural contexts of German-speaking countries. Instructions and readings in English. CORE Area A. Fulfills Cultural Diversity requirements. Crosslisted as WMST 281. Elke Frederiksen. MWF 12 - 12:50.

GERM 282 - GERMANIC MYTHOLOGY. Introduction to religious beliefs of pagan Germanic peoples. CORE (HL) Readings and instruction in English. Jere Fleck. TuTh 11-12:15.

GERM 284 - GERMANIC CHIVALRIC CULTURE. Introduction to lifestyles of northern Europe from 12th to 14th century. Readings and instruction in English. CORE (HL) Jere Fleck. TuTh 12:30 - 1:45.

GERM 381 - GERMAN CIVILIZATION I. A survey of German society and culture from the earliest historical periods to the present. Readings and instruction in English. Satisfies Advanced Studies. Richard Ernest Walker. MWF 1-1:50.

GERM 389 - FOLKLORE AND FOLK LITERATURE. A survey of cultural attitudes and beliefs as reflected in proverbs, fairy tales, Shrovetide plays, and the narrative pranks of Till Eulenspiegel. Readings and instruction in English. Satisfies Advanced Studies. Richard Ernest Walker. MWF 10-10:50.

Department of History

HIST 122/AASP 298C - AFRICAN CIVILIZATION TO 1800 (formerly HIST 290). History of Africa from earliest times to 1800. Topics of study include origins of African societies, Nile Valley civilization, medieval African states and societies, Islam, oral tradition, African slavery and the slave trade, and early African - European interactions. Professor W. Bravman (3 credits).

HIST 219Z - NATIVE AMERICANS IN THE ERA OF NATION-BUILDING, 1810-1910. Examines continuing relationships between Native Americans, African Americans, and European Creoles in North America during the period of United States, Mexican, Central American, and Canadian nationalism. The key concept here involves the oft-interrupted efforts by Indians (sometimes in alliance with segments of African American and Creole societies) to form political/military blocs either in resistance to or support of Creole nation-building in continental North America. The Native American role in Wars of Independence and Nationalism is receiving increased scholarly attention, and sheds new light on the connected nature of movements heretofore viewed in strictly national terms. Again, the course should serve Latin American as well as American history majors, and expose these students to methods employed in the study of "people without history." Professor J. Brooks (3 credits).

HIST 419B - HISTORY OF JEWS IN SPAIN. Medieval Spain was marked by glorious civilizations and by intense religious rivalries. Within the swirling complexities of Muslim-Christian rivalries, Jews marked out a place for themselves, living between faiths, borrowing freely and contributing fully to the larger society. This course will trace the history of Spanish Jewry from Roman times to the final expulsion in 1492. Units devoted to poetry, philosophy, religious literature and polemic will introduce students to the cultural creativity of the Jews in Spain. Professor B. Cooperman (3 credits).

Department of Philosophy

PHIL 256 - PHILOSOPHY OF BIOLOGY (Darden). Discovery and justifications of biological theories and models.

PHIL 308A - PHILOSOPHY OF LITERATURE AND FILM (Brown). Powers and limitations of film adaptations of novels.

Undergraduate Certificate in Science, Technology, and Society

The undergraduate certificate program in Science, Technology, and Society (STS) offers students an opportunity to expand their understanding of the complex relationships of science, technology, and society and to augment their general scientific and technological literacy. This interdisciplinary program has been developed to benefit students from a wide variety of disciplines. Science and engineering majors will have an opportunity to develop a greater understanding of the ethical, historical, philosophical, and public policy ramifications of their fields of study. Behavioral and social science, arts and humanities, and majors from those colleges can explore the structure of scientific and technological activity and the role of technical innovation as a social force. The program is designed to be flexible and to provide a course of study for anyone with an interest in these issues.

Students in the Program may concentrate on one of two tracks: History and Philosophy of Science and Technology (HPST) or Social and Policy Studies of Science and Technology (SPSST). The HPST track is designed to provide an historical and philosophical background for understanding the fundamental natures of scientific and technological endeavors and their impacts upon culture. The SPSST track focuses on the complexity of personal, institutional, and societal interactions between contemporary scientific effort, technological innovation, and social needs. Students in each track are required to complete a series of common core requirements, which include an introductory seminar, a course in technology, and a course in natural science. Each track consists of an additional set of required courses and a specified group of electives. Some of these courses can fulfill CORE requirements.

A total of thirty (30) credit hours will required to obtain the STS Certificate. Many students currently enrolled in the College Park Scholars Program in Science, Technology, and Society, or the College of Engineering's GEMSTONE program will have already satisfied many of these course requirements.

For further information please send electronic mail to sts@umail.umd.edu, or visit the STS Program web site from the menu at http://carnap.umd.edu:90, or call 405-5706.

Women's Studies

WMST 494 - LESBIAN COMMUNITIES AND DIFFERENCES: LESBIANISMS IN MULTINATIONAL RECEPTION. This course will explore realities and fantasies of cross-cultural same-sex sex among women, women's separatist cultures and communities, and both the dominating and liberatory effect and efforts of western lesbian discourses and politics as they travel globally. This course will be taught by Dr. Katie King.

WMST 498F - ADVANCED SPECIAL TOPICS IN WOMEN'S STUDIES: GENDER, NATIONALISM AND BLACK POLITICAL STRUGGLE. This course will examine how specific ideas of race, nation, class, manhood and womanhood shaped the development of black political ideologies and political movements in the U.S. We will look at a variety of sources ranging from archival documents and political manifestos to art, music, dance and literature. This course will be taught by Dr. Elsa Barkely Brown.

Literatures and Cultures of the World in English Translation

Students at UMCP can study many of the world's literatures and cultures in English translation by taking the courses listed below. Many of these courses also fulfill CORE, Diversity, or Advanced Studies requirements. For further information see the individual course listings in designated departments:

CHIN 313	CHINESE POETRY AND PROSE IN TRANSLATION
CHIN 314	CHINESE FICTION AND DRAMA IN TRANSLATION

New Version Available!

Venus has been upgraded to version 2 as of Spring 1996. There are several new features that debut in this version which should significantly increase the power of Venus to create custom student schedules. Listed below are some of the new features:

CoreBoy

CoreBoy lets you view and choose core courses for consideration in the schedules you build. You can choose from among the different core categories (HL, MS, etc) available. To access CoreBoy, simply include "CORE" as one of your required or supplementary courses. From there on, CoreBoy shows you the available core courses and allows you to select the ones you wish to consider.

The Joker

The Joker lets you use wildcards to specify courses and even sections you wish to consider. This means that you can now point and click the courses and sections you wish to include in your schedule. Access the Joker by using a wildcard in a required or supplementary course. For example, "AR*" will let you pick from all courses which start with "AR" (ARTH, ARCH, ARTT, etc). A more specific wildcard, such as "BIOL105*" will let you pick from all courses that start with "BIOL105".

Point and Click Interface

Now, instead of having to know which courses you wish to take before using Venus, you can let Venus display a "checkable" version of the Schedule of Classes. Both CoreBoy and The Joker display courses in the same format as the Schedule of Classes, with the added feature that you can check off the courses and sections you wish to consider. Instead of referencing the Schedule of Classes or Seats prior to using Venus, you can now start your scheduling straight from Venus, using the built-in Schedule of Classes support and the integrated Seats data.

Direct Schedule Printout

By popular demand, Venus brings you Direct Schedule Printout, fondly known as the "Mitchell Schedule". From the Venus toolbar at the bottom of Venus pages, choose "Direct Printout" to access this feature. Direct Schedule Printout allows you to print out a schedule without having to first go through the many scheduling features of Venus. Simply enter course and section specifications, and Direct Schedule Printout will render a printable schedule on the spot.

More Information

For more information regarding the new features, read the "New Additions" page at "http://www.ads-rr.umd.edu/V/newadd.html". The "New Additions" page will provide you with further details on the use of new features.

What is Venus?

"VENUS" is the Virtual Electronic Network University Scheduler. It creates schedules for students at the University of Maryland. Venus can be used from any computer with Internet access. Using Netscape, a hypertext browser which can be run from WAM computer labs, students can use Venus as a convenient tool to relieve hours of scheduling-building effort and frustration.

What are the basic concepts?

Venus produces schedules by considering all the possible schedules that could be produced with the courses that a student specifies. All the student has to do is enter the courses which he/she is considering. Venus then assembles all the possible combinations of all the sections of the courses specified by the student. The student can then look over the resulting schedules and pick his/her favorite.

How is Venus accessed?

1. From a computer at a WAM lab, choose "WorldWide Web" from the main menu. Select "Netscape".

2. From within Netscape, choose "Open Location" under in the File menu. Type in the following exactly as printed (capital / lower case is important), omitting the quotations:

"http://www.ads-rr.umd.edu/V/venus.html"

3. After getting into Venus, navigate the screens by clicking with the mouse on buttons or highlighted links. For instance, to use the Regular Form, click on the button at the bottom of Venus' cover page that is labeled "Regular Form". New users should click on the button labeled "Tutorial" for more information.

A quick guide on using Venus

The following information is a brief tutorial on using the Regular Form on Venus. Other forms are also available. The online tutorial provides more in-depth information, and should be consulted in case of uncertainty.

Required Courses - those courses which are absolutely necessary in a student's schedule. These courses will end up appearing in every schedule generated by Venus, if the student enters them as "required". For instance, a senior who needs to take English in order to graduate will enter ENGL393 as a required course.

Supplementary Courses - those courses which are not absolutely essential, but are included on an "if-possible" basis. Most courses for a typical student belong in this category.

Minimum Credits / Maximum Credits - the minimum and maximum number of credts that the student wishes to consider. Venus will only return schedules which fit the credit requirements set by the student. For instance, if a student specifies a minimum credit level of 12 and a maximum credit level of 15, Venus will only return schedules having at least 12 credits but not exceeding 15 credits.

Waitlist Length - the maximum waitlist length that the student wishes to consider. For instance, if a student does not wish to consider any sections that are full, he/she would enter "0" as the waitlist length. Or, if a student wishes to consider sections with waitlists only if the waitlists are shorter than 3 students, he/she would enter "3" as the waitlist length.

Maximum Returns - the maximum number of schedules that Venus returns. If a student wishes only to see the first 10 possible schedules, he/she would enter "10" as the maximum returns.

Contact the Author

The author of Venus is Philip Su, an undergraduate student at the University of Maryland. He developed Venus under the authority of Academic Data Systems in the Mitchell Building. The author can be reached most easily by email, at the following address: phils@wam.umd.edu. All communications regarding Venus should be directed towards the author.

Section 8101 is intended for students who enroll through the Science in the Evening program in the College of Life Sciences. It is restricted to students who already hold a baccalaureate degree or those who are enrolled as Continuing Education students. Please note that this class is charged at the regular part-time tuition rate (on a per credit hour basis), even for full-time students.

To register or to learn more about the Science in the Evening program, you must contact
Dr. Lucinda Jack, 1122 Symons Hall

MY DEGREE GOT ME THE INTERVIEW. ARMY ROTC GOT ME THE JOB.

Things got pretty competitive for this job. I'm sure my college degree and good grades kept me in the running. But in the end it was the leadership and management experience I got through Army ROTC that won them over. Army ROTC taught me responsibility self-discipline and leadership. Those are things you just can't learn from a textbook. I don't know where I'd be right now if I hadn't enrolled in Army ROTC, but I do know one thing for sure ... I wouldn't be here.

WELCOME HOME TO MARYLAND

Uniting International students and Local Families

The "Welcome Home to Maryland" program is designed to provide international students at the University of Maryland, College Park, with an opportunity to meet and interact with an American family. This "contact family" will get together with their student 6 times over the course of the school year and give them a taste of American life!

Free assistance with any undergraduate writing assignment.

Trained tutors can work with you to:

- ✓ clarify an assignment
- ✓ explore ideas and topics
- ✓ plan and organize your paper
- ✓ improve troublesome aspects of your paper
- ✓ determine strategies for revision
- ✓ correct recurring grammatical problems
- ✓ ease writing anxieties

Help us to help you:

- ✓ Allow yourself time to take advantage of the tutor's advice.
- ✓ Don't wait until the last minute to seek help.
- ✓ Bring a description of the assignment.
- ✓ Remember, we are <u>not</u> a proofreading or re-writing service.

So, You Want to Be A Doctor...

but you didn't take all the pre-med courses?

No problem. The University of Maryland's College of Life Sciences now offers

Science in the Evening

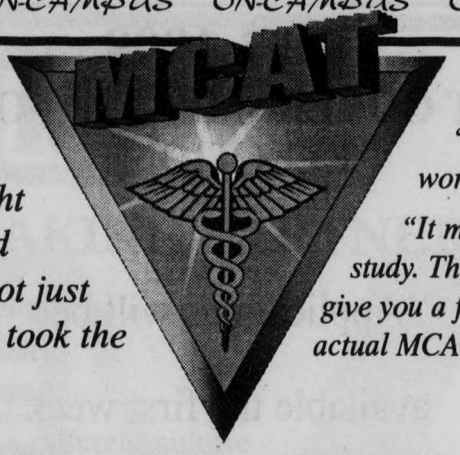
Laboratory courses in the sciences, including:

Biology 105	Principles of Biology I
Chemistry 103	General Chemistry I
Chemistry 113	General Chemistry II
Chemistry 233	Organic Chemistry I
Microbiology 200	General Microbiology
Microbiology 440	Pathogenic Microbiology
Zoology 201	Human Anatomy & Physiology I
Zoology 211	Cell Biology & Physiology

Classes start September 2, 1997.
For more information, or to register for these classes, please contact Dr. Lucinda Jack, 1122 Symons Hall, (301) 405-0316
evening@life.umd.edu
http://www.life.umd.edu/evening/index,html

Please note: these courses are open to post-baccalaureate students or students enrolled as Continuing Education students. These self-support classes are charged at the regular part-time rate (on a per-credit basis), even for full-time students.

The UMCP course is taught by experienced professors, "not just some guy who took the test"



"This class was worth the money."

"It motivates you to study. The practice tests give you a feel of what the actual MCAT will be like."

Don't just sit around dreaming about medical school: take the College of Life Science's MCAT Preparation Course and prepare for it!

Last year students taking this course performed better than the campus or the national average!

"This course has provided me with an outline of what to know for the exams."

"I liked being able to ask any question to the faculty who could appropriately and thoroughly answer it: you don't get that with other commercial review courses."

Fee: $600, all materials included.
June 19-August 3 on Tuesday and Thursday evenings and two Saturdays.
For more information and to register, please contact Dr. Lucinda Jack, 1122 Symons Hall, (301) 405-0316, evening@life.umd.edu, htp://www.life.umd.edu/evening/index.html

New Version Available!

Venus has been upgraded to version 2 as of Spring 1996. There are several new features that debut in this version which should significantly increase the power of Venus to create custom student schedules. Listed below are some of the new features:

CoreBoy

CoreBoy lets you view and choose core courses for consideration in the schedules you build. You can choose from among the different core categories (HL, MS, etc) available. To access CoreBoy, simply include "CORE" as one of your required or supplementary courses. From there on, CoreBoy shows you the available core courses and allows you to select the ones you wish to consider.

The Joker

The Joker lets you use wildcards to specify courses and even sections you wish to consider. This means that you can now point and click the courses and sections you wish to include in your schedule. Access the Joker by using a wildcard in a required or supplementary course. For example, "AR*" will let you pick from all courses which start with "AR" (ARTH, ARCH, ARTT, etc). A more specific wildcard, such as "BIOL105*" will let you pick from all courses that start with "BIOL105".

Point and Click Interface

Now, instead of having to know which courses you wish to take before using Venus, you can let Venus display a "checkable" version of the Schedule of Classes. Both CoreBoy and The Joker display courses in the same format as the Schedule of Classes, with the added feature that you can check off the courses and sections you wish to consider. Instead of referencing the Schedule of Classes or Seats prior to using Venus, you can now start your scheduling straight from Venus, using the built-in Schedule of Classes support and the integrated Seats data.

Direct Schedule Printout

By popular demand, Venus brings you Direct Schedule Printout, fondly known as the "Mitchell Schedule". From the Venus toolbar at the bottom of Venus pages, choose "Direct Printout" to access this feature. Direct Schedule Printout allows you to print out a schedule without having to first go through the many scheduling features of Venus. Simply enter course and section specifications, and Direct Schedule Printout will render a printable schedule on the spot.

More Information

For more information regarding the new features, read the "New Additions" page at "http://www.ads-rr.umd.edu/V/newadd.html". The "New Additions" page will provide you with further details on the use of new features.

What is Venus?

"VENUS" is the Virtual Electronic Network University Scheduler. It creates schedules for students at the University of Maryland. Venus can be used from any computer with Internet access. Using Netscape, a hypertext browser which can be run from WAM computer labs, students can use Venus as a convenient tool to relieve hours of scheduling-building effort and frustration.

What are the basic concepts?

Venus produces schedules by considering all the possible schedules that could be produced with the courses that a student specifies. All the student has to do is enter the courses which he/she is considering. Venus then assembles all the possible combinations of all the sections of the courses specified by the student. The student can then look over the resulting schedules and pick his/her favorite.

How is Venus accessed?

1. From a computer at a WAM lab, choose "WorldWide Web" from the main menu. Select "Netscape".

2. From within Netscape, choose "Open Location" under in the File menu. Type in the following exactly as printed (capital / lower case is important), omitting the quotations:

"http://www.ads-rr.umd.edu/V/venus.html"

3. After getting into Venus, navigate the screens by clicking with the mouse on buttons or highlighted links. For instance, to use the Regular Form, click on the button at the bottom of Venus' cover page that is labeled "Regular Form". New users should click on the button labeled "Tutorial" for more information.

A quick guide on using Venus

The following information is a brief tutorial on using the Regular Form on Venus. Other forms are also available. The online tutorial provides more in-depth information, and should be consulted in case of uncertainty.

Required Courses - those courses which are absolutely necessary in a student's schedule. These courses will end up appearing in every schedule generated by Venus, if the student enters them as "required". For instance, a senior who needs to take English in order to graduate will enter ENGL393 as a required course.

Supplementary Courses - those courses which are not absolutely essential, but are included on an "if-possible" basis. Most courses for a typical student belong in this category.

Minimum Credits / Maximum Credits - the minimum and maximum number of credts that the student wishes to consider. Venus will only return schedules which fit the credit requirements set by the student. For instance, if a student specifies a minimum credit level of 12 and a maximum credit level of 15, Venus will only return schedules having at least 12 credits but not exceeding 15 credits.

Waitlist Length - the maximum waitlist length that the student wishes to consider. For instance, if a student does not wish to consider any sections that are full, he/she would enter "0" as the waitlist length. Or, if a student wishes to consider sections with waitlists only if the waitlists are shorter than 3 students, he/she would enter "3" as the waitlist length.

Maximum Returns - the maximum number of schedules that Venus returns. If a student wishes only to see the first 10 possible schedules, he/she would enter "10" as the maximum returns.

-------SELF-INSTRUCTIONAL LANGUAGE PROGRAM ---------
The program is essentially self-instructional. The student supplies a blank tape and, in return, receives a recorded tape with the week's lesson. There is also a manual designed for self-instruction which the student is required to purchase. A native speaking tutor will be assigned to drill the student in the material learned from the tape and the accompanying manual. Every effort will be made to arrange drill sessions at times suitable to all participants in the program. Attendance at drill sessions is required of all students. There will be one final examination administered by a qualified examiner appointed by the director. The entire semester's grade will derive from this examination. Enrollment in the program is strictly limited. Application forms available in JMZ 1105. Mandatory orientation and scheduling meeting will be held at beginning of semester. Details posted outside of JMZ 1105.

A student enrolled in MATH A001 for Spring 1997, will have a reserved seat in MATH 001 for the Fall 1997 semester. The enrollment must be confirmed during Fall 1997 advance registration.

MATH001 Review of High School Algebra; (3) REG. *Recommended for students who plan to take MATH 110 or MATH 002 but are not currently qualified to do so. Special fee required in addition to the regular tuition charge for fall and spring semesters. This course does not carry credit towards any degree at the University.* The notation 3 credits is used only for billing and full-time or part-time status. There is a special fee of $175 for MATH 001. If dropping course, see Withdrawal and Refund of Fees - Special Refund Deadlines in the Financial Information section of the Schedule of Classes. Students registering for MATH 001 who experience math anxiety or feel deficient in math study skills should refer to EDCP 108M, Building Confidence and Study Skills in Mathematics.

MATH220 section 0501 is an experimental section, Applied Calculus: A Graphing Approach. The topics covered are essentially the same as in other sections of MATH 220. However, the TI-83 graphing calculator will be used extensively to gain insights into the fundamental concepts of calculus. There will be considerable emphasis on translating back and forth among graphs, formulas, numbers and words. Students must have a TI-83 calculator for use throughout the course.

MICB Microbiology (Life Sciences)

The following courses may involve the use of animals. Students who are concerned about the use of animals in teaching have the responsibility to contact the instructor, prior to course enrollment, to determine whether animals are to be used in the course, whether class exercises involving animals are optional or required and what alternatives, if any, are available.

MICB200 General Microbiology; (4) REG/P-F/AUD. CORE: LL *Prerequisite: BIOL 105. Credit will be granted for only one of the following: MICB 100 or MICB 200.* Required for all MICB majors and prerequisite for all other departmental courses for MICB majors. Labs will begin on first Wednesday of the semester.

Z----Hist inst - winds

MINOR SERIES

Intended for either music majors studying a secondary instrument or non-music majors. Each course in the series must be taken in sequence. The initial election for all new students, both freshman and transfer, is 102. Transfer students are evaluated for higher placement after one semester of study.

MUSP102, 103, 202, 203, 302, 303, 402, 403 *(PermReq)* **Music Performance; Minor Series. (2 credits)** Grade Method: REG
Instruments offered: A, B, C, D, E, F, G, H, I, J, K, L, M, N, O, P, Q, S, U, V, X, Y, Z
Time and room to be arranged.

Minor series lessons for non-major pianists are given on a space-available basis and may not be registered for before the beginning of the semester. Contact the Chair of the Piano Division on the first day of classes, giving your name, telephone number, and number of years of piano study. Your name will be placed on a waiting list, and if there is an opening for you in a faculty member's schedule, then you will be called by that faculty member. At that point you will register for the course.

PRINCIPAL SERIES

*A note about **PHIL 170, PHIL 173, PHIL 271 and PHIL 273**. All three are introductory logic courses. **PHIL 170** provides the student with a broad understanding of the field of logic, in both its traditional and its modern forms. **PHIL 173 and PHIL 174** concentrate on applications, using logic to uncover the deductive structure of published material written in a diversity of literary styles. **PHIL 271** enables the student to develop skill in using the techniques of modern symbolic logic, and an understanding of some of its underlying principles. **PHIL 273** emphasizes the relation of logic to traditional philosophical problems. All five courses attempt to develop in students a heightened sensitivity to logical form, logical fallacy, and the logical nuances of ordinary language.*
